1988-89 Estimates

Part I

The Government
Expenditure Plan

The Estimates Documents

The Estimates of the Government of Canada are structured in three Parts. Beginning with an overview of total government spending in Part I, the documents become increasingly more specific. Part II outlines spending according to departments, agencies and programs and contains the proposed wording of the conditions governing spending which Parliament will be asked to approve. The Part III documents provide additional detail on each department and its programs primarily in terms of the results expected for the money spent.

Instructions for obtaining each volume can be found on the order form enclosed with Part II.

Chapter 1

Introduction

The Estimates communicate to Parliament the level and nature of the federal government's spending plans for the coming fiscal year. They are designed to meet the information needs of Members of Parliament, who must understand and assess these spending plans in order to hold the government accountable. Part I gives Parliament an overview of the government's spending Estimates and situates the Estimates in the context of the overall expenditure framework or spending plan.

The information in Part I also covers the policy sector resource envelopes established by the government. Each envelope includes the level of resources allocated for all elements of departmental activity in that policy sector, and, as such, defines the resources earmarked for maintaining, developing and implementing policies and programs in that sector. As the year progresses, additional funds may be allocated to the envelope out of those contingency provisions, known as reserves, which have not yet been assigned to specific envelopes.

Part I is divided into five chapters, including this Introduction. Chapter 2 provides an overview of the expenditure plan, together with historical trends in total spending. Emphasis is on the relative growth in envelopes. The chapter goes on to describe the composition of the 1988-89 expenditure plan. The final portion of the chapter focuses on person-years and presents an overall person-year summary for 1988-89 with reference to the government's goals in this area.

Chapter 3 takes a more detailed look at the expenditure plan in terms of policy sectors and the associated envelopes. The envelopes are reviewed both in terms of types of expenditure and by major programs. Though the emphasis is on explaining where and how funds are spent rather than on year-to-year changes in spending levels, attention is drawn to the most significant changes that have occurred.

Government-wide totals for various types of transfer payments, payments to Crown corporations, and operating and capital expenditures are presented in Chapter 4. Each category is described in terms of its major components.

Chapter 5 addresses those components of the Estimates contained in Part II that do not form part of the expenditure plan. These items, while they require parliamentary approval, are different from budgetary expenditures in that they represent investments rather than transfer payments or expenditures for work performed, goods received or services rendered.

Chapter 2

The Expenditure Plan Overview

Historical and Planned Expenditures

The overall fiscal plan of the government, recently presented by the Minister of Finance, encompasses projected revenues, planned expenditures, the resulting budgetary position, and the government's non-budgetary financial transactions for a number of fiscal years.

Table 2.1 provides the key elements of the expenditure plan, together with recent historical background. The total plan is composed of \$32 billion in public debt charges and \$100 billion in program expenditures. While public debt charges are projected to increase by 9.7 per cent, programs expenditures will grow by 4.3 per cent.

This document describes how the Main Estimates relate to the *budgetary expenditure* component of the fiscal plan. As the largest component of the budgetary expenditure forecast, the Main Estimates provide considerable detail on the total spending plans of the government for the upcoming fiscal year which begins on April 1. In addition to setting out the spending authority sought through the Main Estimates, the annual expenditure plan also indicates the amounts for further spending requirements that are expected to arise over the course of the fiscal year and which will be presented individually to Parliament in the form of Supplementary Estimates.

For the fourth year in succession, budgetary expenditures are forecast to decline as a percentage of Gross Domestic Product (GDP), reflecting the government's continued emphasis on expenditure restraint. This decline began in 1985-86 and reversed a five-year uninterrupted rise in budgetary expenditures relative to GDP. Chart A plots total budgetary expenditures as a percentage of GDP from 1979-80 to 1988-89.

Chart A
Budgetary Expenditures as a Percentage of
Gross Domestic Product

Between 1979-80 and 1984-85, budgetary expenditures rose from around 19 to nearly 25 per cent of GDP. From 1985-86 to 1987-88, they declined to less than 23 per cent of GDP. Next year they are expected to continue this downward trend. The average annual increase in budgetary expenditures of 4.9 per cent over the last four years contrasts sharply with the average increases of more than 15 per cent during the preceding five-year period.

Much of the pattern of expenditure growth can be explained by the underlying trends in economic activity. Over the period 1979-80 to 1984-85 the performance of the Canadian economy, characterized by below average economic growth and above average price increases directly affected the growth rates of program expenditures and indirectly, the rapid rate of increase in public debt charges.

Since 1984-85 the government has introduced a number of expenditure restraint initiatives to reduce both the deficit and growth in budgetary expenditures. In November 1984, a multi-faceted approach comprising program reductions, increased cost-recovery, and general management improvement initiatives, was implemented by the government with a view to achieving savings of some \$4 billion in 1985-86. This first initiative was followed by further reductions in the May 1985 Budget. This second package included Public Service reduction targets totalling 15,000 person-years by 1990-91, further cost-recovery and privatization initiatives, and an enhanced program of asset disposal and cash management. Additional reductions of \$500 million followed in the February 1986 Budget.

The climate of restraint has been supported by a number of complementary measures. These include the continuance of the policy introduced in 1984, whereby government departments must absorb non-salary operating cost increases to the fullest extent possible; the year-end freeze in discretionary spending announced in February 1986; and efforts in areas such as real property regulatory reform and management improvements.

Expenditure Plan by Envelope

To strengthen the relationship between the policy and the expenditure planning processes over a multi-year period, and to strengthen the role of Ministers in the decision-making process, the government's expenditures are allocated across policy sectors or *envelopes*. The distribution by envelope of the government's expenditure plan for the period 1985-86 to 1988-89 is shown in Table 2.2.

The resources contained in a particular envelope represent the funds available to develop, implement, and maintain the various policies and programs that comprise a particular policy sector. Chart B illustrates the growth in the major envelopes or envelope groupings from 1979-80 to 1988-89.

Over this period, three major envelopes, Defence, External Affairs and Aid, and Social Development, have average annual growth of 10 per cent or more. Public debt charges account for one quarter of the total growth in expenditures from 1987-88, and are projected to increase by 9.7 per cent in 1988-89; they continue to be the fastest growing component of budgetary expenditures, increasing at an average rate of 15.9 per cent per year. Increases in expenditures to service the public debt also account for nearly one-third of the total change in envelope levels over the period 1979-80 to 1988-89.

The automatic escalation of the large social transfer payments which dominate the Social Development envelope and which are prescribed in legislation, contribute towards the growth in spending in this area. The large size of this envelope, accounting for some 45 per cent of total budgetary expenditures, and the large annual increases, result in its representing over 40 per cent of the change in total expenditures over the period.

Nearly one-half of the remaining growth in the total from 1979-80 to 1988-89 reflects greater efforts to assist developing countries and spending on major capital programs in support of our international defence commitments.

The share of total expenditures represented by the Economic and Regional Development, Fiscal Arrangements, Services to Government and Parliament envelopes, which include a large part of the expenditures of a more operational nature, has declined over the period. This decline reflects the government's efforts to constrain the growth in expenditures related to the administration and the delivery of programs.

Supplementary Table 2.1S, at the end of this chapter, provides a historical perspective on the relative magnitude of the envelopes.

Composition of the 1988-89 Expenditure Plan

The tabling of the Main Estimates represents the first step in the implementation of the expenditure plan for the upcoming year. The recent budget presented by the Minister of Finance described that plan in broad terms. Table 2.3 presents these Estimates in the context of that overall spending plan or framework and shows how they, along with subsequent Supplementary Estimates, and the remaining elements of the expenditure framework, relate to the government's projected total expenditure.

Budgetary Main Estimates are the single largest component of the government's expenditure plan, accounting for over 90 per cent of the total. In addition to the \$119.4 billion contained therein, the forecast of total budgetary expenditures also includes amounts for Supplementary Estimates over the course of the fiscal year, together with provisions for consolidating certain special purpose accounts and reassessing the value of the government's assets and liabilities, and a forecast of the anticipated lapse of spending authority. Each of these elements of the expenditure plan is presented in Table 2.3 and explained below. Given that the plan contains reserves for Supplementary Estimates, it will not necessarily change over the course of the year as further spending authorities are sought from Parliament. However, should events occur that necessitate a revised fiscal posture, the Minister of Finance could present a revised framework in a fiscal or economic statement, thereby increasing or decreasing reserve levels as conditions require.

As Table 2.3 indicates, Total Budgetary Main Estimates are divided into two main categories of spending. The first of these, statutory expenditures, that is spending for which authority has been provided by Acts of the current or past Parliaments, amount to \$78,488 million or two-thirds of the total. These expenditures are 8.5 per cent more than last year's Main Estimates. Although these expenditures do not require further parliamentary approval, they are nonetheless included in the Estimates to provide Parliament with a more complete view of the government's total expenditure plan. Included within this category of spending are such items as public debt charges, representing some 40 per cent of the total; transfers to the provinces for health, education, social assistance, and general public service programs, accounting for an additional one-quarter of the total; and the government's major

transfer payments to individuals, including Old Age Security, Spouses Allowances, Guaranteed Income Supplements, and Family Allowances. Four departments, Employment and Immigration, Finance, Health and Welfare, and Secretary of State account for more than 90 per cent of statutory spending. As a general rule, statutory expenditures can be changed only through amendments to the specific enabling legislation.

The large growth in the Main Estimates level of statutory spending overstates the actual year-over-year rate of increase in such programs because higher interest rates and other factors have led to increases in statutory expenditures over the course of 1987-88. Therefore, the current level of many statutory programs is higher than originally

anticipated for these programs in last year's Main Estimates.

The second type of expenditure detailed in the Main Estimates are those authorized annually through Appropriation Acts. For 1988-89, these annually-voted spending proposals amount to \$40,878 million. The year-over-year increase in annual appropriations is \$2,351 million, or 6.1 per cent. Over one-quarter of these expenditures will be made by the Department of National Defence. The remaining 75 per cent, or \$30.6 billion, is some \$1.5 billion, or 5.3 per cent, higher than last year's corresponding amount, and includes almost \$500 million in additional resources for the Western Diversification Office and the Atlantic Canada Opportunities Agency. Excluding these new agencies and Defence, the remaining budgetary Main Estimates exhibit an annual increase of 3.6 per cent, below the projected increase in prices.

Chart C provides a historical perspective on the relative growth of statutory and voted Estimates. The markedly slower growth in the voted portion since 1984-85 is a result of the government's determined efforts to reduce the costs of delivering its programs and the elimination or curtailment of those that have outlived their usefulness. The average annual growth rate of the voted portion over the period 1985-86 to 1988-89 is less than 3 per cent, significantly lower than the nearly 13 per cent per annum recorded for the preceding five-year period.

The reserves for Supplementary Estimates constitute the second component of total budgetary expenditure. The government's overall expenditure plan contains these reserves because of the dynamic nature of the expenditure management process. At any given point in time, departments have certain programs with approved spending levels, some with funding levels still awaiting the government's consideration, and others with costs not yet specified. The Main Estimates include the cost of those programs that have been approved, while the reserves contain the amounts the government sets aside to manage the remainder. Portions of these reserves have been allocated to the specific policy sectors or envelopes to cover targeted in-year adjustments. However, since not all reserves are allocated at the outset of the fiscal year, the projected distribution of total budgetary expenditures by envelope, as shown earlier in Table 2.2, is likely to change somewhat over the course of the year reflecting the allocation of additional resources to individual policy sectors.

Chart C
Statutory and Voted Estimates
(\$ billions)

In addition to Total Budgetary Main Estimates and the reserves for Supplementary Estimates, which, combined, constitute the *Projected Total Budgetary Estimates*, the final spending total for the fiscal year will reflect three other elements: the consolidation of expenditures of various special-purpose accounts with other expenditures; the change in the provision for the valuation of the government's assets and liabilities; and the lapse, or the amount by which the actual total spending of the government falls short of the total authorities granted by Parliament for that year.

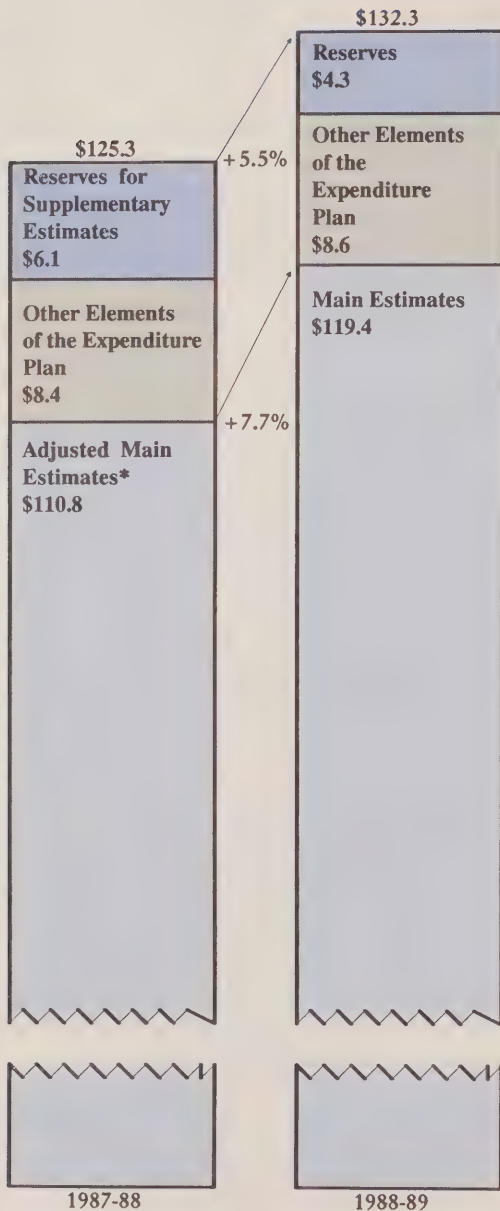

The consolidation entry is used to record the expenditures on certain large socio-economic programs that were previously considered to be outside the Government of Canada accounting entity because they were funded by specific contributions rather than from general government revenues. Their inclusion, reflecting the accounting changes announced in the February 1986 Budget, increases government spending figures considerably. By far the largest single item in this consolidation originates in the area of social expenditures and represents the inclusion, as budgetary expenditures, of total unemployment insurance benefits. The other major consolidation item is the Western Grain Stabilization Account, which falls in the Economic and Regional Development envelope. In the case of both of these programs, the total disbursements are shown as budgetary expenditures even though specific revenues offset a large part of the overall costs and the accounts are intended to be self-sufficient over time. The consolidation of the Unemployment Insurance and Western Grain Stabilization Accounts within the Accounts of Canada for financial reporting purposes in no way alters the operation of these programs. Part II of the Estimates records only the government's contribution to these accounts, and the Public Accounts display the financial positions of these and other similar programs on both a consolidated and an individual fund basis.

The expenditure plan also provides for the revaluation of the government's assets and liabilities. The provision for valuation is intended to account for changes in the value of existing loans and investments and adjustments to liabilities with respect to accumulated employee severance and vacation benefits.

Finally, in order to arrive at a forecast of budgetary expenditures, an allowance for the lapse of spending authority is included. This figure, estimated on the basis of historical trends, represents the expected amount by which total year-end budgetary expenditures, across all departments and agencies, will fall short of Parliamentary authorities for the fiscal year. Authorities are allowed to lapse because departments and agencies cannot legally spend more money than has been authorized in each vote by Parliament, and because the practical realities are such that prudent managers will tend to spend slightly less than the total that has been authorized.

Chart D illustrates the major components of the current expenditure plan for 1987-88 and 1988-89. In order to present a more meaningful comparison, the \$700 million for the Special Canadian Grains Program presented to Parliament in Supplementary Estimates (A), tabled at the same time as last year's Main Estimates, has been added to the 1987-88 Main Estimates budgetary expenditure total of \$110.1 billion. On this basis, the year-over-year increase in this, the largest component of the expenditure plan, is 7.7 per cent. Since the government has recognized new requirements relatively earlier in the budget determination process and included them in the Main Estimates, and since it remains firmly committed to managing additional pressures that may arise over the course of the year within an environment of expenditure restraint, the 1988-89 reserves to cover Supplementary Estimates are lower than those contained in the the current outlook for 1987-88. For this reason, the total spending planned for the coming year grows less than the Main Estimates. Thus, while Main Estimates grow by 7.7 per cent, the reduced amounts available for Supplementary Estimates result in an increase of 5.5 per cent in the government's expenditure plan.

Person-Years

A person-year is a unit of control of human resources, and refers to the employment of one person for a full year or its equivalent, such as two employees for six months each. In the May 1985 Budget, the government announced reduction targets for the Treasury Board-controlled Public Service amounting to 15,000 person-years over a five-year period ending in 1990-91.

The government's prime objective in reducing the size and cost of the ongoing Public Service is to promote a leaner and more productive work force able to deliver government programs and services of the highest possible quality at the lowest possible cost to the Canadian taxpayer. Reductions in the size of the federal government work force will continue to be achieved through enhanced productivity, privatization of certain suitable activities and, where warranted, the contracting-out of other services.

The Main Estimates provide details of the 231,164 person-years that the Treasury Board has authorized for 1988-89. This level represents a decrease of 1,961 person-years, or 0.8 per cent, from the adjusted Main Estimates of 1987-88. (The 1987-88 Main Estimates total has been adjusted to exclude the person-years of the Inspector General of Banks and the Department of Insurance. These have been combined into the Office of the Superintendent of Financial Institutions, and the person-years are not controlled by Treasury Board.) Together with the reductions of the past two years, 5,491 in 1986-87 and 3,072 in 1987-88, this represents a total decline of 10,524 person-years over the first three years, thus leaving further reductions of some 4,500 to be achieved over the last two years. The Government remains committed to meeting its person-year reduction target and expects to do so in an orderly fashion so as to continue to respond effectively to the needs of Canadians and not disrupt the provision of essential government services. Further reductions of about 1 per cent over each of the next two years should enable the Government to attain its announced target.

Even during periods of restraint, there is a need for additional person-years in some ministries to respond to largely non-discretionary increases in workload or to implement high priority initiatives of the Government. Consequently, some departments and agencies have experienced increases in their authorized person-year levels. These increases have, however, been more than compensated by decreases in other Treasury Board-controlled entities, some of which have seen their person-year authorities decrease significantly. Table 2.4 summarizes the major changes in authorized person-years from 1987-88 to 1988-89.

Major Changes by Department

The largest increase in person-years is being authorized for the Department of Public Works. The 750 person-year increase over the 1987-88 Main Estimates reflects the transfer from a number of departments of resources associated with architectural and engineering services. This increase is completely offset by reductions in other departments.

The Atlantic Canada Opportunities Agency and the Western Diversification Office, the two new entities created by the government to promote economic development in Atlantic and Western Canada respectively, together account for an increase of 507 person-years. Of this total, 358 person-years have been offset by reductions in the Department of Regional Industrial Expansion; the remainder are new person-years required for program delivery.

The increase of 154 person-years in the Department of Communications is mostly attributable to the transfer of National Programmes activity from the National Museums of Canada.

The net increase of 109 person-years in the Department of Energy, Mines and Resources reflects resources for the administration of the Canadian Exploration and Development Incentives Program, and for other activities, partially offset by planned reductions in person-years elsewhere in the department.

All other major changes in person-year authorities are decreases. The net decrease of 737 person-years in the Department of Indian Affairs and Northern Development reflects the continuing implementation of the Comprehensive Devolution Plan, which transfers programs and responsibilities to Indian control, the transfer of architectural and engineering services to the Department of Public Works, and improvements in program efficiency.

Of the total decline of 623 person-years in the Department of Transport, a decrease of over 300 reflects the continuing impact of restraint and person-year reductions. The remainder is mainly associated with the transfer of certain responsibilities to the Department of Public Works.

The civilian person-year authority of the Department of National Defence has been reduced by 442 as that department's contribution to the annual person-year reduction targets.

The transfer of 230 person-years associated with architectural and engineering services to Public Works is a major contributing factor in the year-over-year decline in the Department of the Environment's person-year authority.

Most of the remaining declines in person-years are attributable to improvements in program efficiency in response to the requirement to reduce the size of the Public Service.

The Treasury Board directly controls the size of the departments and agencies listed in Schedule 1, Parts 1 and 2 of the *Public Service Staff Relations Act* (PSSRA), with a few exceptions such as the Auditor General's Office. Prior year figures have been adjusted to exclude the person-years that previously were controlled but are not now, or that are subject to separate control, such as the Commissioner of Official Languages, the Inspector General of Banks, the Department of Insurance and Special Constables, Regular and Civilian members of the RCMP.

Chapter 3

The Expenditure Plan by Envelope

The government's expenditure plan, presented in the preceding chapter, establishes spending levels, or *envelopes*, within the level of total expenditures, for eight policy sectors.

Programs have been assigned to envelopes in order to provide for focused consideration of competing policy options within a given sector while, at the same time, recognizing that Ministers' responsibilities for their respective departments and agencies should not be dispersed across several sectors and their associated Cabinet policy committees. This chapter devotes one section to each of the eight envelopes. Each section includes a general description of the purpose of the envelope's expenditures and a discussion of the major programs reflected in these Main Estimates.

Table 3.1 presents a summary of the details of the expenditure plan by component.

Economic and Regional Development Envelope

Purpose of Expenditures

Federal government programs funded from this envelope are intended to serve a wide range of purposes, including the stimulation and encouragement of private sector investment; the orderly development, production and disposition of Canada's primary natural resources; the encouragement of increased innovation and R&D; regional and industrial development; and the fostering of a positive climate for the creation and expansion of business enterprise.

This policy sector focusses on the promotion of economic growth and job creation, both nationally and in specific regions of Canada by encouraging private initiative and improving government effectiveness, within the overall government objective of reducing the deficit.

Expenditure Highlights for 1988-89

The reduction in total spending in the Economic and Regional Development sector is more than accounted for by the timing of payments to Western farmers under the Special Canadian Grains Program. In the first year of this program, Parliament was presented with a special Supplementary Estimate at the same time Main Estimates were tabled. This was required to ensure that the normal supply process associated with Main Estimates would not delay payments to farmers. This year, the government was able to implement the program earlier and thereby avoid a similar situation related to providing funds before the spring seeding season. Excluding the \$1.5 billion reserve entry for 1987-88, and the \$296 million Main Estimates

item for 1988-89 for the special grains program, the Main Estimates for this envelope grow by \$1.4 billion and the reserves decline by \$1 billion.

Increased regional development funding including the incorporation for the first time of amounts for the recently created Atlantic Canada Opportunities Agency and the Western Diversification Office, together with the Canadian Exploration and Development Incentives Program account for the bulk of the increase in Main Estimates as well as for the larger reserves in 1987-88.

The Estimates for the envelope can be divided into five categories of expenditure: transportation, agricultural and fisheries support, industrial and technological support, energy, and a relatively small miscellaneous category.

In the transportation area, Canada's new *National Transportation Act* and its companion legislation, the *Motor Vehicle Transport Act*, became law on January 1, 1988, ushering in a new era of economic regulatory reform for the nation's transportation industry. Competition and market forces are to be the prime agents in providing economic, efficient and adequate transportation services at the lowest total cost. The National Transportation Agency, a new agency tailored to the reformed regulatory framework, replaces the Canadian Transport Commission. Transportation, including the Department of Transport and the National Transportation Agency, accounts for about 30 per cent of the Main Estimates in this envelope.

The Department of Transport's Estimates provide for the operation of airports and air navigation systems, public harbours and ports, and the Canadian Coast Guard. They also provide for activities related to the maintenance of railway and road safety, including the safe transportation of dangerous goods and the regulation of motor vehicles, and payments to various Crown corporations, such as VIA Rail Canada Inc. and Marine Atlantic Inc. for rail passenger, water and other transportation services. The main portion of the National Transportation Agency's Estimates provides payments to railway companies under the *Western Grain Transportation Act* and other statutes.

The Transport Department's Estimates reflect an overall increase of \$165 million from the 1987-88. This is accounted for primarily by increased payments to various Crown corporations, including an additional \$112 million to VIA Rail Canada Inc. and \$28 million more to Marine Atlantic Inc.

The decrease of \$53 million in the National Transportation Agency's Estimates primarily reflects decreases in payments under the *Western Grain Transportation Act*.

The programs of the Department of Agriculture (including the Canadian Forestry Service Program) and the Department of Fisheries and Oceans account for about one-quarter of the envelope's Estimates.

The Department of Agriculture's estimates are affected by the Special Canadian Grains Program which provided for the payment of \$1 billion for the 1986 grains and oilseeds crop and will pay \$1.1 billion for the 1987 crop. The \$1 billion for the 1986 crop was made up of \$300 million in Supplementary Estimates (B) for 1986-87, and \$700 million in Supplementary Estimates (A) for 1987-88, tabled at the same time as that year's Main Estimates. The \$1.1 billion for the 1987 crop is being authorized as follows: \$804 million in Supplementary Estimates (D) of 1987-88, and \$296 million in the 1988-89 Main Estimates. Payouts under the Western Grain Stabilization Account, consolidated into the expenditure framework since 1986-87, are expected to continue at around the same level in 1988-89 as in 1987-88. Other assistance for grain growers primarily under the *Agricultural Stabilization Act*), and for tobacco growers will contribute to a further increase of approximately \$100 million in Agriculture's Main Estimates.

The Estimates for Fisheries and Oceans increase by \$128 million, principally as a result of initiatives taken by the Government during 1987-88 to augment the Salmonid Enhancement and Small Craft Harbours programs.

In the energy area, the Main Estimates for Energy, Mines and Resources contain for the first time, the new Canadian Exploration and Development Incentives Program, offset in part by the wind-down in the Petroleum Incentives Program. Payouts from the Newfoundland and Nova Scotia Offshore Development funds also account for significant increases in energy expenditures. The Estimates for Atomic Energy of Canada Limited are down by \$27 million, reflecting the expenditure reduction measures implemented as part of the 1985 Budget. Overall, spending in the energy area accounts for about 10 per cent of the total for this envelope.

Industrial, technological and regional development support programs constitute 27 per cent of the envelope. The 1988-89 Main Estimates incorporate a number of significant initiatives reflecting a modified approach to, and organization of, these programs. In 1987-88, the Atlantic Canada Opportunities Agency (ACOA) and the Western Diversification Office (WDO), were created with mandates to promote and coordinate economic development in Atlantic and Western Canada respectively.

The 1988-89 Estimates for ACOA and WDO are \$306 million and \$312 million respectively. These include transfers from the Department of Regional Industrial Expansion (DRIE) totalling some \$115 million and provide for the agencies' first full year of operations, reflecting the increased priority this government attaches to regional development. Specifically, the government has announced new funding for ACOA and WDO of \$1.05 billion and \$1.2 billion respectively, to be spent over five years. These funds are in addition to resources transferred from DRIE. The Estimates of ACOA and WDO are forecasts for the 1988-89 portion of this new funding.

The 1988-89 budgetary allocation for DRIE is \$1,348 million, a \$197 million increase over the Main Estimates of 1987-88. This net increase reflects a reduction of approximately \$115 million for transfers to ACOA and WDO and increased spending under the Defence Industry Productivity Program, and the Special Northern Ontario Development Fund.

The reduction of \$70 million in requirements for the Cape Breton Development Corporation results mainly from the completion of the Victoria Junction coal wash plant expansion and Phalen Mine projects.

The increase of \$25 million in the Main Estimates for the Export Development Corporation reflects a growth in anticipated requirements for concessional loan disbursements.

Estimates for science and technology programs within the portfolio of the Minister of State for Science and Technology total \$825 million for 1988-89. This is an increase of \$56 million over 1987-88 and is a reflection of the priority the government places on science and technology. The Natural Sciences and Engineering Research Council will spend an additional \$21 million in support of the government's policy of matching private sector grants to university research. An additional \$22 million will be devoted to research in support of industrial innovation and development by the National Research Council. Other areas of increased spending include Science and Technology Development Agreements with Quebec and British Columbia and further commitments to space-related activities. Total government expenditures on science and technology will exceed \$4 billion in 1988-89, including funding in major departments with science activities such as Agriculture, National Defence, Energy, Mines and Resources, Environment and Fisheries and Oceans.

The remainder of the Economic and Regional Development envelope accounts for about 5 per cent of this envelope's Estimates in 1988-89. The departments and agencies involved are Consumer and Corporate Affairs, the Competition Tribunal, the newly-established Hazardous Materials Information Review Commission, Communications (excluding Cultural Affairs) and Labour. The changes in Main Estimates for 1988-89 for these departments and agencies are relatively minor overall.

Table 3.3 provides details of the changes between the 1988-89 and 1987-88 Main Estimates.

Social Development Envelope

Purpose of Expenditures

This envelope contains the government programs directed at responding to the social, cultural, environmental and law enforcement concerns of Canadians.

During 1988-89, the government will continue its efforts of past years to strengthen social justice by assigning its highest priority in social policy to helping those in greatest need through programs of assistance to the economically disadvantaged, including the jobless, aboriginal groups, women's groups and multicultural groups, disabled people and the aged. The government's programs and policies will continue to ensure equality of access by all Canadians to the benefits of Canadian society, and protect and enhance Canadian culture.

As in previous years, expenditures through the Social Development envelope will constitute the single largest element of overall spending. During 1988-89, the federal government will channel \$59,359 million, including reserves, or 45 per cent of its total budget through a variety of transfers to provincial and territorial governments, transfers to individuals, and direct services to the public.

Transfers to individuals of over \$29 billion through payments to the elderly, families, the unemployed and veterans form the largest component of the envelope and consume over 49 per cent of the resources allocated to it.

Transfers to provincial and territorial governments in support of post-secondary education, health and welfare services, assistance to the disabled and the operation of legal aid constitute approximately \$15 billion or about 25 per cent of the envelope.

The remainder of the envelope, containing programs directed at the environment, employment, health, housing, Northern and Native people, law enforcement and correctional services, account for another \$15 billion.

Approximately \$8.5 billion of spending in this envelope reflects the inclusion of valuation adjustments and special purpose expenditures, chiefly those of the Unemployment Insurance Account, in reporting budgetary expenditures. In addition, \$577 million is currently earmarked for Supplementary Estimates during the course of the year.

In addition to the direct expenditures shown in the Estimates, the federal government provides additional support to education and health services, and, in the case of the Province of Quebec, social assistance through tax transfers to the provinces. These tax transfers will amount to some \$8.9 billion in 1988-89.

Expenditure Highlights for 1988-89

The 1988-89 Main Estimates provide \$50,254 million for the Social Development envelope, an increase of over \$2 billion above the 1987-88 provision. The major factors accounting for this growth are increased spending on major statutory programs such as Old Age Security, the Canada Assistance Plan and provincial health and education support, together with spending on programs for aboriginal groups.

The Department of National Health and Welfare's expenditures will represent 61 per cent of the total outlays of this envelope. The overwhelming majority of these expenditures are of a statutory nature. The largest of these programs are: \$15,530 million to be spent on programs providing benefits to the elderly; \$4,472 million for the Canada Assistance Plan, which funds 50 per cent of the costs of provincial programs delivering social, child support and other family services; \$7,031 million in transfer payments to the provinces for insured health services under the *Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977*; and \$2,586 million for Family Allowances. The Family Allowance payments are over and above some \$2.1 billion which is provided through the tax system in the form of the child tax credit. Virtually all of the \$1,469 million increase in the Department of National Health and Welfare's Main Estimates is accounted for by changes in the forementioned programs.

Additional resources of \$2 million are being provided to the Canadian Centre for Occupational Health and Safety to enable it to respond to increased demand for information related to recent legislation on the Workplace Hazardous Material Information System.

Assistance to those who are in greatest need represents a major portion of expenditures in the Social Development envelope, including the jobless, native peoples, veterans, and those requiring housing assistance.

The 1988-89 Main Estimates for Employment and Immigration total \$4,535 million and include \$1,393 million for the Canadian Jobs Strategy, \$2,656 million in statutory contributions to the Unemployment Insurance account, and \$200 million for social assistance recipients. In addition, this envelope includes expenditures for summer employment amounting to \$180 million in a central vote of the Treasury Board Secretariat. The Immigration

Program has been increased to \$194 million, as a result of initiatives to deal with refugees.

Included in the Main Estimates of \$2,996 million for the Department of Indian Affairs and Northern Development is \$2,005 million for the Indian and Inuit Affairs Program, of which \$634 million is for education, \$449 million for social development, \$520 million for capital facilities and community services, and \$192 million to assist Indian bands in administering programs. Not included in this program but also benefiting Native people is \$825 million in transfer payments to territorial governments to help them provide services to residents of the North, many of whom are Natives. Part of the increase in the Main Estimates of this department reflects the transfer of provincial-type responsibilities to the Government of the Northwest Territories for the management of forestry, health and young offenders programming.

The 1988-89 Main Estimates include \$1,649 million for the Department of Veterans Affairs. In addition to \$835 million for veterans' pensions and \$349 million for veterans' allowances, an amount of \$175 million is provided for expenditures on other health services purchased on behalf of veterans who receive disability pensions or allowances, or those who would receive the allowances were it not for payments under the *Old Age Security Act*. These services relate to medical treatment provided outside departmental institutions and include professional medical services and non-departmental hospital charges not covered by provincial health insurance plans.

The Canada Mortgage and Housing Corporation has budgetary Estimates of \$1,704 million for 1988-89. Of this amount, \$1,590 million will be spent on social housing; this represents an increase of \$44 million over the 1987-88 Main Estimates.

The preservation and strengthening of our Canadian identity is another major priority of the government and is supported through the cultural agencies and the Secretary of State.

Provision is made in the 1988-89 Main Estimates for expenditures of \$1,536 million by the agencies reporting through the Minister of Communications. This amount includes \$907 million for the Canadian Broadcasting Corporation, representing nearly 60 per cent of total federal arts and culture spending.

An amount of \$3,330 million is provided in the Estimates for the Department of the Secretary of State. Of this amount, \$2,382 million consists of statutory payments to the provinces under the *Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977* for post-secondary education, and \$385 million under the *Canada Student Loans Act*. A further \$218 million is provided to support official languages in education.

Another \$15 million has been allocated to the Matching Grants Policy Fund for grants and scholarships for university-based research and development. \$11 million is to be administered by the Medical Research Council and \$4 million by the Social Sciences and Humanities Research Council.

The Department of the Environment's Estimates include \$796 million, of which \$335 million will be directed to the operation and development of national parks and historic sites. A further \$207 million will be spent on atmospheric environmental services and \$215 million on the conservation and protection of the environment.

The justice area also represents a significant part of the Social Development envelope. Its expenditures are aimed at supporting a fair and equitable justice system and maintaining law and order through policing and custodial activities.

The expenditures of the Ministry of Justice, which includes the department and various commissions and courts, will total \$528 million.

The 1988-89 Main Estimates provide \$2,042 million for the Solicitor General, which includes the department, the Correctional Service of Canada, the National Parole Board, the Royal Canadian Mounted Police, the RCMP External Review Committee and the Canadian Security Intelligence Service. The expenditures of the department total \$27 million in the 1988-89 Main Estimates. The services of Correctional Service Canada and the National Parole Board cost \$815 million and \$18 million, respectively. The budget of the RCMP for the enforcement of federal statutes and the provision of policing services under contract to provinces, territories and municipalities, and police support services to Canadian police forces amounts to \$1,033 million in 1988-89. This includes an increase of \$80 million over last year for protective services in general and also reflects the transfer of financial responsibility for RCMP protective services at airports from the Department of Transport. In addition, \$149 million is budgeted for the Canadian Security Intelligence Service, and \$1 million for the operation of the RCMP External Review Committee.

Fiscal Arrangements Envelope

Purpose of Expenditures

The general purpose of expenditures under the Fiscal Arrangements envelope is to provide unconditional fiscal assistance to provinces; that is, a transfer of funds without any conditions or stipulations as to how such moneys shall be used. The programs comprising the envelope are either need-related or tax-related.

The need-related programs are fiscal equalization, subsidies under the *Constitution Acts 1867-1982*, and fiscal stabilization. Approximately 90 per cent of the total expenditures in the Fiscal Arrangements envelope are made under the Fiscal Equalization Program. The purpose of this program is to make it possible for all provinces to provide their residents with a reasonable level of public services at reasonably comparable levels of taxation.

The tax-related programs are: the income tax revenue guarantee for provinces, which protects them in certain circumstances against revenue losses resulting from modifications made to the personal income tax by the federal government; grants to municipalities and provinces in lieu of property taxes; reciprocal taxation payments to provinces in respect of consumption taxes; payments to provinces of 95 per cent of the federal income tax collected from privately-owned public utilities; and recoveries from Quebec in respect of three personal income tax points transferred to that province in lieu of a federal Youth Allowances Program that was subsequently discontinued.

Expenditure Highlights for 1988-89

The Main Estimates provision of \$7 billion for the Fiscal Arrangements envelope is \$802 million higher than the preceding year's Main Estimates provision of \$6,197 million. Fiscal equalization payments are expected to grow by \$773 million over last year's provision. The change in fiscal equalization takes account of a number of factors. Forecast equalization entitlements for the 1987-88 fiscal year of \$5,988 million are \$388 million higher than that provided for in 1987-88 Main Estimates. This increase is primarily due to greater than anticipated growth in 1987-88 provincial revenues, in part as a result of decisions taken in provincial budgets tabled after the 1987-88 Main Estimates figures had been calculated. The 1988-89 Main Estimates figure of \$6,373 million is \$385 million or 6 per cent higher than the forecast of 1987-88 entitlements. This increase reflects expected continued growth in provincial revenues subject to equalization and the full impact of improvements to the program as provided for in legislation adopted in April, 1987.

Based on information for past taxation years, there is a \$56 million increase in payments under the *Public Utilities Income Tax Transfer Act* (PUITTA) from the 1987-88 to the 1988-89 Main Estimates.

There is a \$25 million increase in recoveries under the Youth Allowances Recovery program due to growth in the basic federal tax allocated to Quebec.

Federal grants in lieu of taxes have decreased slightly from \$295 million in the 1987-88 Main Estimates to \$286 million in the 1988-89 Main Estimates. This reduction reflects reduced numbers of properties and anticipated savings resulting from more efficient assessment review activities.

The increase of \$8 million in the amount provided for Reciprocal Taxation in the 1988-89 Main Estimates is due to the forecast increase in provincial sales tax payable on purchases of taxable goods and services.

External Affairs and Aid Envelope

Purpose of Expenditures

The programs included in the External Affairs and Aid envelope deal principally with assistance to developing countries and with the representation of Canadian interests abroad in the areas of foreign policy, economic growth including trade development, peace and security, Canadian sovereignty and national identity, and social justice. The Department of External Affairs has as its primary responsibility the promotion and protection of Canada's interests abroad and the conduct of Canada's external relations, both bilaterally and multilaterally through the international organizations of which Canada is a member. In close cooperation with External Affairs, the Canadian International Development Agency (CIDA) is charged with the administration and delivery of an extensive program of assistance to developing countries.

Reflecting this breadth of interests, Canada has diplomatic relations with virtually all countries, and is a member of, or a participant in, the United Nations, its associated agencies and many other international organizations and programs. These relations are handled through some 120 posts abroad, including those accredited to multilateral organizations. The size and range of the activities of these posts vary according to their location or purpose vis-à-vis the organizations to which they are accredited. For example, in certain countries the emphasis may be on trade promotion, whereas in many developing countries the focus would be upon development assistance. Involvement in multilateral organizations is intended to further Canada's objectives concerning peace and security, international economic relations, humanitarian issues and economic development.

There is no fixed order or hierarchy in Canada's wide range of interests outside its borders. The emphasis given to certain interests, especially those of development assistance, is related to both domestic and international circumstances. Currently, particular attention is being paid to issues and interests related to Canadian sovereignty, the promotion of Canadian economic growth with particular emphasis on trade negotiations, trade and investment initiatives, and to human rights, and international peace and security.

Canada has traditionally been regarded as a country with a high level of active concern for international development. The primary purpose is to help people of developing countries achieve sustainable economic and social growth. The various aid programs may also have important benefits for the Canadian economy, since procurement of Canadian goods and services to support development projects overseas is a stimulus to Canadian industry and can help develop export markets.

The External Affairs and Aid envelope also includes resources for participating in world exhibitions, for the operating costs of the Petro-Canada International Assistance Corporation, the International Centre for Ocean Development and the International Development Research Centre, which supports research into the problems of the developing regions of the world. The financial support for international financial institutions that is included in the Estimates of the Department of Finance also falls within this envelope, as does the Canadian Institute for International Peace and Security and the International Joint Commission, which concerns itself with a variety of boundary water and environmental issues along the United States-Canada border.

pending in this envelope will exceed that of the previous year by \$184 million. Most of the increase is reflected in the 1988-89 Main Estimates total of \$3,535 million but there is some provision for Supplementary Estimates during the year.

The increase of \$46 million provided to the Department of External Affairs is primarily for the increased cost associated with the operations abroad, and other workload increases.

The budgetary Main Estimates of the Canadian International Development Agency are \$97 million higher than in 1987-88. This increase reflects continuing growth in development assistance on a direct country-to-country basis to recipient countries, and increased contributions towards the cost of development assistance undertakings by the Canadian voluntary sector and by other national and international non-governmental organizations. This budgetary growth is net of a reduction in the statutory encashment of demand notes issued to, or the direct payment for investments in, regional multilateral development banks which were displayed as budgetary items in the 1987-88 Main Estimates and are now included in non-budgetary outlays.

Official Development Assistance

The total budgeted Official Development Assistance (ODA) for 1988-89 amounts to \$2,880 million, about \$220 million higher than in 1987-88. Table 3.10 shows the distribution of Canada's assistance for each year.

The 1988-89 outlays include budgetary expenditures for ODA cash requirements of \$2,700 million and non-budgetary expenditures related to multilateral development bank investments of \$75 million. The main reason

that these amounts differ from the ODA total shown in Table 3.10 is that, for the most part, Canada's participation in the financing of international financial institutions takes the form of issuing promissory notes. Cash is drawn against these notes by recipient institutions in future years, as required, and it is the forecast of the actual cash draws during the fiscal year that is included in these Main Estimates. The full value of the notes is, however, included in the calculation of ODA in the year in which they are issued, and is so reported to the Development Assistance Committee of the Organization for Economic Cooperation and Development (OECD). The remaining difference between the ODA total and budgetary cash requirements is the imputed value of Canada's support to students and trainees from developing countries. These amounts will be included in Canada's 1988 report to the OECD.

The imputed values for support of students from developing countries studying in Canada, have been adjusted to reflect only those students directly assisted by an ODA funded scholarship, bursary or training program.

A policy reserve of \$43 million has been established to fund new initiatives in development assistance including the costs of decentralizing aid program management to the field. The details of a plan for implementing decentralization will be subject to Treasury Board review with appropriations authority to be sought subsequently from Parliament.

Defence Envelope

Purpose of Expenditures

The Defence envelope consists of expenditures for the Department of National Defence. The Minister of National Defence is now responsible for Defence Construction (1951) Limited, a Crown corporation that provides contracting and supervision services to the Department of National Defence for construction projects for which the financial resources are provided from the Defence envelope.

The objective of the Defence Services Program is to deter the use of force or coercion against Canada and Canadian interests and to be able to respond adequately should deterrence fail. In support of this objective, the program includes the activities of the Canadian Forces, which supplement and support civilian authorities in maintaining surveillance, and preserving control over and security within territory under Canadian jurisdiction. To enhance the security of Canada through joint defence measures, the program supports Canadian participation in the North Atlantic Treaty Organization (NATO) and cooperation with the United States in the defence of North America. To promote international stability, the program provides military assistance to United Nations-sponsored peacekeeping operations and military training to friendly nations. The program also mobilizes resources to assist in emergency or disaster relief and search and rescue operations.

Expenditure Highlights for 1988-89

The White Paper on Defence reaffirmed the government's commitment to increase defence spending by at least two per cent per year in real terms; as well, Defence Annual Reviews will be held to determine what funding increment over this base may be required. A recent ministerial review of the defence budget has concluded that a further \$60 million will be required in 1988-89, resulting in a total increase of \$646 million, or 6.2 per cent from planned spending in 1987-88.

Defence envelope spending will therefore rise from \$10.4 billion in 1987-88 to \$11.1 billion in 1988-89. Total envelope spending is somewhat lower than the Main Estimates, primarily because interdepartmental transactions are eliminated as part of the consolidation adjustment.

Personnel costs represent approximately 43 per cent of Defence expenditures. This includes the wages, salaries, and benefits for just over 120,000 military and civilian personnel. The next largest category is capital expenditure (about 24 per cent of the Defence budget) reflecting a continuing need to re-equip and modernize the Canadian Forces. Five major equipment acquisitions, the Canadian Patrol Frigate, the Low Level Air Defence, the Tribal Class Update and Modernization, the North American Air Defence Modernization and the CF-18 Fighter Aircraft Defence Modernization projects will account for 52 per cent of the total capital budget. It should also be noted that the Ship Replacement Program — Phase II was recently approved at an authorized expenditure ceiling of approximately \$5 billion over the 1988-1997 period, to be funded from the Defence envelope. Other capital expenditures are for items such as munitions, communications and computing equipment, vehicles, aircraft, various construction projects, and research and development. The remainder of the Defence budget is mostly non-personnel operating expenditures, a category which includes such items as fuel, maintenance, and supplies.

Parliament Envelope

Purpose of Expenditures

The Parliament envelope includes resources required for the Senate, the House of Commons and the Library of Parliament, to provide administrative and technical services to Members of Parliament, and salaries for Members and personnel.

Services to Government Envelope

Purpose of Expenditures

The Services to Government envelope comprises a group of government departments and agencies engaged in a variety of activities. Some, such as Public Works, the Public Service Commission, and Supply and Services, direct virtually all their resources to the support of other departments and agencies. Others, such as the Canada Post Corporation, Statistics Canada and the National Capital Commission, provide their services mainly to the public. National Revenue collects taxes and duties on behalf of the government. The envelope also includes the Government's central agencies and a number of smaller agencies, such as the Economic Council of Canada, an advisory body engaged in economic research, and the Tariff Board, which adjudicates appeals of customs and excise rulings. The expenditures of this envelope are therefore made up almost exclusively of operating and capital expenditures required to maintain the infrastructure needed by a national government.

Public Works, one of the envelope's largest departments, has several functions. It provides accommodation, through construction, purchase or lease, and architectural, engineering and related services to federal departments and agencies; constructs and maintains roads and bridges under federal jurisdiction; manages surplus federal lands; and issues grants to municipal and other authorities in lieu of taxes on federal government property. (The grants themselves form part of the Fiscal Arrangements envelope.) The National Capital Commission has a mandate to maintain and enhance the National Capital's physical image and to organize, assist and coordinate national events and ac-

tivities that will enrich the cultural and social fabric of Canada.

National Revenue administers a variety of acts in addition to the *Customs Act*, the *Excise Tax Act* and the *Income Tax Act*. It also carries out administrative functions on behalf of other federal departments, such as the collection of Canada Pension Plan contributions and unemployment insurance premiums, and on behalf of provincial governments in respect of the collection of provincial income taxes and the administration of various tax credit measures.

The central agencies encompassed by the envelope include the Privy Council Office, which provides operational support to the central decision making mechanism of the Government, and the Treasury Board Secretariat whose Estimates within this envelope include the government's contribution, as employer, to employee insurance plans and expenditures for the central administration of the Public Service. (Employment initiatives within the Treasury Board appropriations form part of the Social Development envelope.) The Government Contingencies vote is not included in any envelope as it is part of the reserves within the expenditure framework.

Another central agency is the Office of the Comptroller General, which is responsible for the development and implementation of sound managerial practices in the federal government, including policies for financial management, program evaluation and auditing.

The Office of Privatization and Regulatory Affairs provides central expertise, direction and control in the sale of Crown Corporations and the implementation of the Government's Regulatory Policy.

The Department of Finance provides advice to the government on the economic and financial situation, the overall fiscal framework, debt management and the tax system. It also administers such programs as Fiscal Transfer Payments which constitute, for the most part, the Fiscal Arrangements envelope.

The Office of the Superintendent of Financial Institutions appears in the Main Estimates for the first time in 1988-89. This Agency, constituted from the former Inspector General of Banks (previously included in the Department of Finance) and the former Department of Insurance, is responsible for the administration of a supervisory framework for federally-regulated financial institutions and pension plans.

Expenditure Highlights for 1988-89

Main Estimates for this envelope have decreased by \$160 million, owing mainly to decreased requirements for the Canada Post Corporation (\$180 million) and the Department of Public Works (\$73 million). The decreases have been offset somewhat by increases in the Department of National Revenue—Taxation (\$68 million), the Treasury Board Secretariat (\$26 million), and Supply and Services (\$23 million).

Over 89 per cent of the Estimates tabled for this envelope are accounted for by seven departments or agencies. They are Public Works (\$915 million), Taxation (\$889 million), Customs and Excise (\$482 million), the Treasury Board Secretariat (\$370 million), Supply and Services Canada (\$276 million), Statistics Canada (\$222 million), and the Canada Post Corporation (\$196 million).

Providing accommodation for other government departments is the major component of Public Works' appropriations and represents \$738 million of Public Works' estimates, net of revenue. Approximately \$50 million is being transferred in 1988-89 from Public Works to other departments to accommodate the implementation of Market Based Charging for its Services. These funds will be recovered from the clients as user fees.

The largest single item for the Treasury Board Secretariat that is included in this envelope is the \$301 million in contributions, as the employer, to various insurance and pension plans affecting Public Service employees.

The budgetary Main Estimates for the Canada Post Corporation of \$196 million in 1988-89 will take the form

of an infrastructure subsidy for services provided to Members of Parliament, the blind and Northern residents. This will be the first year that Canada Post Corporation will be self-sufficient and hence will not require the statutory deficit subsidy previously provided. However the Corporation will receive a loan of \$110 million to fund capital acquisitions.

The net cost to the envelope of the Supply and Services Program is \$276 million. Supply operations are, for the most part, financed through the Supply Revolving Fund on a revenue-dependent basis so that the full costs of acquiring materials used by the various government departments can be reflected in the costs for those individual departments. Expenditures in the Receiver General area of the Department will amount to \$207 million, of which \$36 million is to compensate financial institutions for such banking services as cheque cashing and the handling of direct deposits.

Other major components of the envelope are the Department of Finance, the Public Service Commission and the National Capital Commission.

About one-half of the Finance Estimates in this envelope represent the purchase of metals for the production of domestic coinage. This remains at a high level (although \$11 million lower than 1987-88) due to the continued introduction of the new one dollar coin. The revenue produced by the domestic coinage operations is credited to the Consolidated Revenue Fund as part of non-tax budgetary revenue. The remainder of the Finance Estimates in the envelope include the costs of administering large statutory programs and providing financial and economic policy advice.

Though the Office of the Superintendent of Financial Institutions will expend \$34.2 million, \$32.4 million of this will be recovered from fees charged the financial sector, thus resulting in an appropriation of \$1.8 million for the year. The Superintendent's predecessor agencies did not have the authority to spend the fees which they collected.

The Public Service Commission (PSC) will spend a total of \$132 million to undertake staffing operations other than those delegated to individual departments, to assume a large portion of the language training costs for the Public Service and to handle appeal actions by public servants under the *Public Service Employment Act*. Developmental training programs are operated by the Commission on a

cost-recovered basis. Government wide Affirmative Action Programs have become the sole responsibility of the PSC and this accounts for a \$5.3 million increase in its appropriation.

Commencing in 1988-89, all funds previously allocated to Defence Construction (1951) Ltd. will be assigned to the Department of National Defence which will purchase its construction services from the agency. Accordingly, Defence Construction (1951) Ltd. will cease to appear in Estimates.

Public Debt Envelope

Purpose of Expenditures

The major purpose of expenditures within the Public Debt envelope is to pay holders of certain federal government liabilities the rate of return contracted at the time of issue. These interest-bearing liabilities include all of the federal government's unmatured debt as well as a number of special funds and accounts. Unmatured debt includes the outstanding balances of Government of Canada domestic Marketable Bonds, Treasury Bills, Canada Savings Bonds,

Canada Pension Plan investments in federal securities, and foreign borrowing. Special funds and accounts include the outstanding balances in annuity, insurance and pension accounts, deposit and trust accounts, and special drawing rights allocations.

In addition, expenditures within the Public Debt envelope cover the premiums, discounts, commissions and servicing costs necessary to administer the debt program.

Expenditure Highlights for 1988-89

The size of the Public Debt envelope is primarily a function of the accumulation of past budgetary deficits or, in other words, the stock of net public debt outstanding. Net public debt increased dramatically in the past decade. The accumulation of debt results in increasing interest charges. Interest rates are also an important determinant of public debt charges, especially in the short term. The projected level of public debt charges for 1988-89 is determined by the stock of debt outstanding at the beginning of the year, by anticipated debt market operations during the year and by certain interest rate assumptions. In this respect, the Public Debt envelope differs from other envelopes, and cannot be viewed as a planned expenditure level.

The 1988-89 Main Estimates of \$32,055 million are \$3,855 million, or 13.7 per cent higher than the 1987-88 Main Estimates. The 1988-89 amount is \$2,835 million higher than the current forecast for 1987-88.

Chapter 4

Expenditures by Type of Payment

The previous chapter focused on the purposes for which departments spend. This chapter looks at how funds are spent across the government as a whole. Government expenditures can be categorized as transfers of funds to particular bodies or individuals, as payments of debt servicing costs, as payments to Crown corporations, or as expenditures for the ongoing operations of departments and agencies. Table 4.1 presents a classification of the budgetary Main Estimates according to these various categories of payment.

Transfer payments comprise government expenditures, such as grants and contributions, that do not result in the direct receipt of goods or services. Transfer payments are made to other levels of government, to persons and to organizations. In total, the 1988-89 Main Estimates provide for transfer payments of \$56,781 million, about 48 per cent of the total, and an increase of 6 per cent over the 1987-88 Main Estimates.

Transfer payments account for more than two-thirds of the total growth in budgetary Main Estimates, exclusive of public debt charges.

Transfers to Other Levels of Government

Transfer payments to other levels of government, as presented in Table 4.2, are estimated at \$22,662 million for 1988-89.

Table 4.2

Under the *Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977*, the federal government contributes to the financing of insured health services, extended health care and post-secondary education. The total contribution takes the form of a cash payment and a tax transfer, and increases from year to year with growth in the national economy. The value of the tax transfer grows with the yield of the personal and corporate tax room transferred to the provinces. The difference between the total contribution and the value of the tax transfer constitutes the cash payment. The 1988-89 Main Estimates include \$9,413 million for the cash portion of this program. The total contribution, including both the tax transfer and cash payment, is expected to amount to \$18.5 billion for 1988-89, an increase of 5.3 per cent from 1987-88.

Federal contributions to the provinces under the Canada Assistance Plan are authorized by legislation passed in 1966. The federal contribution amounts to 50 per cent of eligible provincial and municipal expenditures for assistance payments to persons in need and for certain welfare and health services. Each province administers its own social assistance programs. Estimated federal expenditures in 1988-89 under the Canada Assistance Plan increase by 6.7 per cent.

Fiscal transfer payments include equalization payments, subsidies under the Constitution Acts, Public Utilities Income Tax Transfer and Reciprocal Taxation. Equalization payments, accounting for 95 per cent of these transfers, are unconditional payments to provinces to raise to a standard level, the per capita revenue-raising capacity of lower-income provinces in order that they can provide their residents with reasonable levels of public services at reasonable levels of taxation. The standard is determined by the average fiscal capacity of five provinces: British Columbia, Saskatchewan, Manitoba, Ontario and Quebec.

Transfers to Persons

Payments to persons account for some 40 per cent of all transfer payments and 19 per cent of the 1988-89 budgetary Main Estimates. Old Age Security, Guaranteed Income Supplement and Spouse's Allowance payments together account for a significant portion of the payments in this category, as shown in Table 4.3. These payments to the elderly of \$15,530 million are \$937 million higher than the corresponding 1987-88 level.

Table 4.3
Transfers to Persons

\$ millions)	1987-88 Main Estimates	1988-89 Main Estimates	Increase or decrease	Percentage change
Old Age Security	10,258	11,118	860	8.4
Guaranteed Income Supplement	3,753	3,887	134	3.6

Other	1,540	1,557	17	1.1
Total	21,480	22,329	849	4.0

Old Age Security payments are made to all eligible Canadians over the age of 65, while the Guaranteed Income Supplement is paid to those Canadians receiving Old Age Security who qualify on the basis of an income test. The growth in payments to individuals is indexed by legislation. The increase in these payments is attributable to higher monthly benefits resulting from indexation and to growth in the size of the eligible populations.

Another major program in the transfers to persons category is Family Allowances. Payments under this program are partially indexed and are made to all Canadian families with children under the age of 18. While the *Family Allowance Act* provides for an escalation in the average payment per child the legislation incorporates a flexible formula that permits a province to vary payments according to the number and ages of the children in a family.

The government's contribution to the Unemployment Insurance Account, together with the premiums paid by employers and employed workers, is used to finance unemployment insurance benefits.

The above-mentioned programs account for more than 90 per cent of total transfers to persons, and for almost all of the growth in this type of payment since the 1987-88 Main Estimates.

Subsidies

The subsidies category of transfer payments is made up of those grants and contributions to organizations and individuals aimed at reducing the costs of production or assisting in the stabilization of market prices for commodities or goods.

Table 4.4

Other	261	244	-17	-6.5
Total	2,275	2,038	-237	-10.4

The Special Canadian Grains Program, as shown in the adjusted 1987-88, and the 1988-89, Main Estimates has declined by \$406 million. The increase of \$169 million in other subsidies is basically accounted for by the \$259 million for the new Canadian Explorations and Development Incentives Program, which more than offsets all other declines.

Other Transfer Payments

The other transfer payments category is, for the most part, comprised of grants and contributions to organizations, associations, businesses and universities to assist in research projects, the development of technologies, and the promotion of educational and cultural initiatives.

Other transfer payments are shown in Table 4.5. They arise under a wide variety of programs, the single largest component being assistance to developing countries. The grants and contributions included in development assistance are used for bilateral and multi-lateral aid purposes, food aid assistance, special development assistance and international emergency relief.

Other	2,333	2,543	210	9.0
Total	8,512	9,752	1,240	14.6

The second largest component in this category of spending consists of employment creation initiatives administered by Employment and Immigration. A significant increase is evident in the contributions to Indian and Inuit Bands and organizations to provide assistance for various educational, cultural and economic development initiatives. These Estimates also include contributions toward economic development in the Atlantic provinces and Western Canada under the newly-created Atlantic Canada Opportunities Agency and the Western Diversification Office. The remaining payments include such contributions as those under Economic and Regional Development Subsidiary Agreements, the *Industrial and Regional Development Act*, and payments under the *Canada Student Loans Act*.

Public Debt Charges

Public debt charges are shown in Table 4.6. They include the interest due and payable on outstanding debt, the servicing costs and the costs of issuing new loans. Their share in total expenditures has risen steadily in recent years. Public debt charges account for 60 per cent of the growth in statutory programs in these Main Estimates.

Payments to Crown Corporations

Payments to Crown corporations include budgetary allocations to a wide variety of corporations, as shown in Table 4.7.

Other	1,195	1,096	-99	-8.3
Total	4,618	4,515	-103	-2.2

Most of the decline in payments to Crown corporations is accounted for by the Canada Post Corporation. This year's Main Estimates entry for the Canada Post Corporation of \$196 million is a payment to cover the costs associated with cultural mailings and to pay for services to Members of Parliament, blind persons and northern residents. The \$112 million increase for VIA Rail Canada Inc., including labour adjustment assistance, is for rail passenger service operations. Other significant decreases in Crown corporation payments occur in Atomic Energy of Canada

Limited, the Cape Breton Development Corporation and the Federal Business Development Bank, although these are partly offset by increased payments to Canada Mortgage and Housing Corporation, and the Canadian Broadcasting Corporation.

Operating and Capital Expenditures

The final category of expenditures covers the operating and capital requirements of government departments and agencies and is shown in Table 4.8. Because the expenditures of the Department of National Defence constitute such a large portion of this category, they are displayed separately.

Of the total \$14.8 billion in net operating and capital expenditures for all other departments and agencies, excluding the Department of National Defence, salaries and wages, including employee benefit plans and other personnel costs, amount to \$10.5 billion. Employee benefit plan costs represent the government's contributions as an

employer to various pension and insurance plans. An estimated breakdown of these contributions is shown in Table 4.9. The increase in the Public Service Superannuation portion reflects the result of renegotiated wage rates. The increase in the Supplementary Retirement Benefits is primarily due to an increase of 4.1 per cent in the basic pen-

Historical data on the growth of budgetary expenditures by type of payment are provided in Supplementary Table 4.1S.

Types of Payment by Envelope

Chart E illustrates how the types of payments are distributed by envelope. The majority of transfer payments, 74 per cent, are in the Social Development envelope. These include payments to the provinces for insured health services and post-secondary education, payments to persons for old age security benefits, guaranteed income supplements, spouses allowances, family allowances, and the government's contribution for unemployment insurance benefits. Social Development expenditures also constitute the majority, 64 per cent, of payments to Crown corporations. The principal items here are the Canada Mortgage and Housing Corporation and the Canadian Broadcasting Corporation. The entire Defence budget is considered operating and capital expenditures and makes up 43 per cent of the government wide total. The bulk of the remaining operating and capital is spread rather evenly across the Social Development, Economic and Regional Development and Services to Government Envelopes.

Chapter 5

Appropriations Outside the Expenditure Plan

Earlier chapters have described how the budgetary Main Estimates relate to the government's overall expenditure plan. This chapter addresses why the remaining appropriations (loans, investments and advances) do not form part of that framework and how they fit into the government's overall fiscal planning.

In the late 1970s and early 1980s, the expenditure framework encompassed both budgetary expenditures and non-budgetary loans, investments and advances (LIA). The underlying common factor was the fact that the government provided the funding for both types of disbursements in the short term. In recent years, a distinction has been made between the use of funds for investment purposes and the use of funds for current expenditure.

The expenditure framework, or plan, now focuses on budgetary spending only, but the definition of budgetary expenditure has been expanded to include the concessionary portion of LIA. Budgetary expenditures recognize the fact that certain loans, investments or advances do not result in any real change in the government's asset holdings because they do not produce an income stream for the government, nor are they fully recoverable. This can occur for a variety of reasons, including changing circumstances during the term of the investment. Such transactions do not result in any real change in the government's financial holdings. For this reason, the expenditure framework recognizes them as being the equivalent of budgetary spending by showing them as an explicit budgetary expenditure entry known as the provision for valuation. (See Table 2.3 in Chapter 2.) Loans, investments and advances are initially recorded at cost and are subject to annual valuation adjustments to reflect estimated losses whether realized or not. Such adjustments are recorded as budgetary expenditures, on the authorization of the Minister of Finance and the President of the Treasury Board under Section 54 of the *Financial Administration Act*. These adjustments do not increase the financial requirements of the government. They simply reflect the recognition that there will be no future returns on those items and therefore they should be viewed as budgetary disbursements rather than as investments.

Loans, investments and advances are considered non-budgetary items because they increase the government's financial holdings. If and when those financial holdings are subsequently disposed of, the government's cash balances rise to offset the decline in its other financial assets. Since

the government's financial holdings change only through the acquisition or disposal of assets, any earnings received and opportunity costs borne during the terms of those investments are treated as budgetary costs. The interest the government pays on funds borrowed to make the initial investment is recorded as budgetary expenditure in the form of public debt charges, and the income earned as a result of those investments is recorded as budgetary non-tax revenue.

Loan items appear in Main Estimates because the purchase of the financial assets they represent can be undertaken only with the authority provided by a parliamentary appropriation. However, they do not represent transfer payments or expenditures for work performed, goods received or services rendered. Therefore, though they do not directly form part of the expenditure framework, they are nevertheless an integral part of the government's overall fiscal plan. That plan encompasses budgetary revenues and expenditures, together with loans, investments and advances and other non-budgetary transactions. The resulting total financial requirements must be financed through debt or exchange transactions.

The remainder of this chapter is devoted to a presentation of the loans, investments and advances for which authority is being sought in these Main Estimates.

The 1988-89 Main Estimates include non-budgetary LIA items that involve the issuance and repayment of loans to federal Crown corporations, industry, other governments and international financial institutions. Table 5.1 summarizes those loans and compares them with those included in last year's Main Estimates.

Loans and advances to, or investments in, Crown corporations and agencies represent the financial claims held by the government against corporations for working capital, capital expenditure and other purposes, investment in the capital stock and loans and advances for re-lending. The net repayments from loans, investments and advances to Crown corporations and agencies providing financial assistance to the private sector are being made by the Canada Mortgage and Housing Corporation. Within that same category, however, the Export Development Corporation is being given new loans through the current Estimates.

The \$136 million being loaned to other Crown corporations includes a loan of \$110 million to Canada Post Corporation and \$25 million to the Northern Canada Power Commission.

Loans to provincial and territorial governments for financing regional electrical interconnections amount to \$9 million for 1988-89, an increase of \$8 million from 1987-88.

The \$79 million in loans to national governments and development banks represents mainly a reclassification of development loans and commitments to development banks as non-budgetary rather than budgetary transactions.

The majority of the remaining loans are accounted for by the \$35 million to Native people for claims settlements and for the costs of researching and negotiating land claims.

Table 5.2 sets out repayments of loans made in previous years that have not been offset against new loans in 1988-89 and thus do not appear elsewhere in the Main Estimates documentation. The large decrease in the forecast repayments for the Farm Credit Corporation reflects a decrease in repayments related to the Commodity-Based Loan Program.

Le Budget des dépenses principal de 1988-1989 prévoit des postes non budgétaires de prêts, dotations en capital et avances qui se rapportent à l'émission et au remboursement de prêts aux sociétés d'État, à l'industrie, aux autres gouvernements et à des institutions financières internationales. Le tableau 5.1 présente ces prêts sous une forme sommaire pour 1988-1989 et l'année antérieure.

Les prêts, dotations en capital et avances aux sociétés d'État et aux organismes représentent des créances du gouvernement envers ces sociétés relativement aux fonds de roulement, aux dépenses en capital et autres; la participation au capital social; et des prêts et avances aux fins d'autres prêts. Les remboursements nets de prêts, dotations en capital et avances aux sociétés d'État et aux organismes offrent une aide financière au secteur privé provenant actuellement de la Société canadienne d'hypothèques et de logement. Dans la même catégorie, toutefois, la Société pour l'expansion des exportations reçoit de nouveaux prêts dans ce Budget des dépenses.

Les 136 millions de dollars de prêts consentis aux autres sociétés d'État comprennent 110 millions de dollars versés à la Société canadienne des postes et 25 millions de dollars à la Commission d'énergie du Nord canadien.

Les prêts aux gouvernements provinciaux et territoriaux qui se rapportent aux raccordements régionaux des réseaux électriques s'élèvent à 9 millions de dollars en 1988-1989, une augmentation de 8 millions de dollars par rapport à l'année précédente.

Les 79 millions de dollars en prêts consentis aux gouvernements nationaux et aux banques de développement traduisent surtout la reclassification (de budgétaires à non budgétaires) des prêts d'aide au développement et des engagements envers les banques de développement.

Les chapitres précédents expliquaient comment le budgetaire du Budget principal s'insère dans le plan global des dépenses du gouvernement. Celui-ci traite des raisons pour lesquelles le reste des crédits (prêts, dotations en capital et avances) ne sont pas compris dans ce cadre des dépenses et situe en outre ces crédits dans le plan financier global du gouvernement.

Vers la fin des années soixante-dix et au début des années quatre-vingt, le cadre des dépenses englobait les dépenses budgétaires ainsi que les prêts, dotations en capital et avances, postes non budgétaires, sur le fondement que le financement provenait dans les deux cas du gouvernement, et ce, à court terme. Au cours des dernières années, on a établi une distinction entre les fonds destinés aux placements et ceux destinés aux dépenses courantes.

Le cadre, ou plan des dépenses se limite maintenant aux seules dépenses budgétaires, mais la définition de ces dernières a été étendue à la portion des prêts, dotations en capital et avances qui est consentie à des conditions de faveur. La définition de dépenses budgétaires a été étendue à certains prêts, dotations en capital ou avances dont on sait qu'ils ne modifieront pas l'actif du gouvernement, soit parce qu'ils ne produisent pas de recettes ou parce qu'ils ne sont pas entièrement recouvrables. Cette situation peut être due à divers facteurs, y compris l'évolution des conditions pendant la durée du placement. De telles opérations ne modifient pas les avoirs financiers du gouvernement, et c'est pourquoi le cadre des dépenses tient compte de ces prêts et dotations comme s'ils étaient des dépenses budgétaires, et les consigne au moyen d'un ajustement comptable connu sous le nom de provision pour moins-
 valeur. (Voir le tableau 2.3 au chapitre 2.) Tous les prêts, dotations en capital et avances sont initialement comptabilisés au prix coûtant et évalués chaque année pour tenir compte des pertes prévues, qu'elles soient réalisées ou non. Ces écritures de régularisation figurent dans les dépenses budgétaires sur autorisation du ministre des Finances et du président du Conseil du Trésor en vertu de l'article 54 de la Loi sur l'administration financière. Ces ajustements n'augmentent pas les besoins financiers du gouvernement; ils ne font que reconnaître que ces postes ne produiront aucun rendement et, par conséquent, qu'ils devraient être considérés comme des dépenses budgétaires plutôt que comme des placements.

Les prêts, dotations en capital et avances apparaissent comme des postes non budgétaires puisqu'ils augmentent les avoirs financiers du gouvernement. Lorsque ce dernier cède ou aliène ses avoirs financiers, il en résulte une augmentation de l'encaisse qui compense la baisse des éléments d'actif. Comme les avoirs financiers du gouvernement ne changent que lorsqu'il y a acquisition ou aliénation des biens, tout gain réalisé et tout coût de renonciation encouru au cours de la durée de ces placements sont traités comme des dépenses budgétaires. Les intérêts versés par le gouvernement sur les fonds qu'il emprunte pour effectuer les placements apparaissent comme dépenses budgétaires, au titre des frais de la dette publique, tandis que les gains tirés de ces placements non fiscales.

Les prêts, dotations en capital et avances figurent dans le Budget des dépenses principal parce qu'ils s'appliquent à des actifs qui ne peuvent être acquis qu'au moyen de crédits parlementaires. Puisqu'ils ne représentent pas des paiements de transfert ou des dépenses à l'égard d'un travail accompli, de biens ou de services reçus, ils ne font pas partie du cadre des dépenses. Ils font cependant partie intégrante du plan financier global du gouvernement qui comprend les recettes et les dépenses budgétaires ainsi que les prêts, dotations en capital et avances et autres opérations non budgétaires. Les besoins financiers globaux qui en résultent doivent être financés par des emprunts ou des opérations de change.

La suite de ce chapitre porte sur les prêts, dotations en capital et avances pour lesquels le gouvernement sollicite une autorisation dans le présent Budget des dépenses principal.

La graphique E illustre la répartition des diverses catégories de dépenses entre les enveloppes. On retrouve la majeure partie (74 p. 100) des paiements de transfert dans l'enveloppe du Développement social. Il s'agit des sommes versées aux provinces pour le financement de l'assurance-maladie et de l'enseignement postsecondaire, des paiements aux particuliers tels que la sécurité de la vieillesse, le complément de revenu garanti, l'allocation au conjoint et les allocations familiales, de même que la contribution du gouvernement aux prestations d'assurance-chômage. enveloppe regroupe également la majorité (64 p. 100) des paiements aux sociétés d'État. Les plus importantes à ce chapitre sont la Société canadienne d'hypothèques et de logement et Radio-Canada. L'enveloppe de la Défense est constituée en entier de dépenses de fonctionnement et en capital. On lui attribue 43 p. 100 de toutes les dépenses gouvernementales de ce genre, le reste étant dispersé assez également entre les enveloppes du Développement social, du Développement économique et régional et des Services gouvernementaux.

Le tableau 4.15, à la page 52, présente l'évolution de la croissance des dépenses budgétaires par catégorie de paiement.

l'augmentation de 112 millions de dollars dans le cas de l'IA Rail Canada Inc. est attribuable aux opérations des services de voyageurs, y compris l'aide au réaménagement des trains d'oeuvre. D'autres diminutions importantes des dépenses affectent l'Énergie atomique du Canada limitée, la Société de développement du Cap-Breton et la Banque fédérale de développement, mais sont en partie compensées par des hausses dans le cas de la Société canadienne d'hypothèques et de logement et de la Société radio-Canada.

Dépenses de fonctionnement et dépenses en capital

Cette dernière catégorie, présentée au tableau 4.8, comprend les dépenses de fonctionnement et en capital des ministères et organismes fédéraux. Les dépenses du ministère de la Défense nationale représentent une part importante de cette catégorie, elles sont indiquées séparément.

Du montant total des dépenses de fonctionnement et des dépenses en capital de tous les autres ministères et organismes (14.8 milliards de dollars), la Défense nationale comprend, les traitements et salaires, les régimes d'avantages sociaux des employés et les autres frais liés au personnel représentent 10.5 milliards de dollars. Les coûts des régimes d'avantages sociaux correspondent aux contributions du gouvernement à titre d'employeur à divers régimes de pension et d'assurance. La ventilation estimative de ces contributions est présentée au tableau 4.9, l'augmentation de la contribution du gouvernement au régime de pension de la Fonction publique résulte de

nouveaux taux salariaux négociés, tandis que celle des prestations de retraite supplémentaires tient principalement compte de la hausse de 4.1 p. 100 de l'assiette des cotisations. Quant à l'augmentation de 17.5 p. 100 des contributions au Régime de pension du Canada et au Régime de rentes du Québec, elle découle de taux et de plafonds des contributions plus élevés.

La baisse des paiements aux sociétés d'État est en grande partie attribuable à la Société canadienne des postes. Les 196 millions de dollars indiqués constituent une des paiements destinés à compenser le coût des envois à caractère culturel et à rembourser les services assurés aux députés, aux aveugles et aux résidents du Nord.

tenus dans ce Budget principal.

Cette catégorie se compose en grande partie de subventions et de contributions à des universités, des associations, des entreprises et des organismes, à l'égard de projets de recherche, de la mise au point de technologies et de la promotion d'initiatives de nature éducative ou culturelle.

Ces paiements de transfert, présentés au tableau 4.5, sont reliés à une vaste gamme de programmes, le principal étant celui de l'aide aux pays en développement. Les subventions et les contributions sont dans ce cas consacrées à l'aide bilatérale et multilatérale, à l'aide alimentaire, à l'aide spéciale au développement et aux secours d'urgence internationaux.

Les mesures de création d'emploi administrées par l'emploi et Immigration sont le deuxième élément en importance de cette catégorie de dépenses. On assiste à une augmentation notable des contributions accordées aux grandes et aux organismes indiens et inuit pour divers projets ayant trait à l'enseignement et au développement futur et économique. La catégorie comprend également des contributions de développement économique accordées aux provinces de l'Atlantique et à l'Ouest du Canada suite à la création de deux organismes, l'Agence des perspectives de l'Atlantique et le Bureau de diversification de l'économie de l'Ouest. Le reste des paiements comprend des

contributions telles que celles versées en vertu des ententes auxiliaires de développement économique et régional et de la Loi sur le développement industriel et régional, de même que les paiements effectués en vertu de la Loi canadienne sur les prêts aux étudiants.

Subventions

La catégorie Subventions des paiements de transfert se compose de subventions et de contributions versées à des organisations et à des particuliers dans le but d'alléger les coûts de production de biens et de marchandises ou d'aider à stabiliser les cours des marchés.

Comme en témoignent le niveau rajusté du Budget principal de 1987-1988 et le Budget principal de 1988-1989, le Programme spécial canadien pour les grains accuse une baisse de 406 millions de dollars. Les augmentations de 169 millions des autres subventions qui compensent cette baisse résultent en majeure partie du nouveau financement à l'égard du Programme canadien d'encouragement à l'exploitation et à la mise en valeur (259 millions), lequel excède toutes les autres baisses des subventions.

transferts aux particuliers

Les paiements aux particuliers représentent quelque 10 p. 100 de tous les paiements de transfert et 19 p. 100 du budgetaire du Budget des dépenses principal de 1988-1989. Les prestations de sécurité de la vieillesse, le supplément de revenu garanti et l'allocation au conjoint comptent pour beaucoup dans cette catégorie, ainsi que l'indique le tableau 4.3. Le montant de 15,530 millions de dollars prévu pour ces paiements aux personnes âgées est de 937 millions de dollars plus élevé que le montant correspondant en 1987-1988.

Tableau 4.3

Les prestations de sécurité de la vieillesse sont versées à tout Canadien de plus de 65 ans, tandis que le supplément de revenu garanti est versé aux bénéficiaires dont le revenu est insuffisant. L'augmentation de ces paiements est attribuable à la hausse des prestations mensuelles résultant de l'indexation prévue par la loi et à l'accroissement du nombre de personnes admissibles.

Le programme des allocations familiales représente d'autres paiements de transfert importants aux particuliers. Les allocations, qui sont indexées partiellement, sont versées à tous les Canadiens qui ont des enfants de moins de 18 ans. Bien que la Loi sur les allocations familiales prévoit la majoration du paiement moyen par enfant, elle permet aux provinces d'ajuster ces paiements selon le nombre et l'âge des enfants de la famille.

La contribution du gouvernement au Compte d'assurance-chômage et les primes versées par les employeurs et les employés servent à financer les prestations d'assurance-chômage.

Les programmes susmentionnés représentent plus de 90 p. 100 des transferts aux particuliers et sont à l'origine de la presque totalité de la croissance survenue dans cette catégorie de paiements depuis le Budget des dépenses précédent.

Transferts à d'autres paliers de gouvernement

Les paiements de transfert à d'autres paliers d'administration publique, tels que les présente le tableau 4.2, s'élèvent à 22,662 millions de dollars en 1988-1989.

Tableau 4.2

En vertu de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces et sur les contributions fédérales en matière d'enseignement postsecondaire et de santé, le gouvernement fédéral participe au financement des services assurés et des services complémentaires de santé, et de l'enseignement postsecondaire. Ces contributions comprennent des paiements en espèces et des transferts fiscaux et augmentent chaque année en fonction de la croissance de l'économie nationale. La valeur des transferts fiscaux augmente en fonction du rendement des impôts des particuliers et des sociétés transférés aux provinces. La différence entre les contributions totales et la valeur des transferts fiscaux correspond aux paiements en espèces. Le Budget des dépenses principal de 1988-1989 prévoit 9,413 millions de dollars pour la partie en espèces de ce programme, alors que les contributions totales, y compris l'impôt et les transferts en espèces, devraient s'élever à 18,5 milliards de dollars, une augmentation de 5,3 p. 100 par rapport à 1987-1988.

Les contributions fédérales aux provinces en vertu du Régime d'assistance publique du Canada sont autorisées par une loi adoptée en 1966. Elles représentent 50 p. 100

des dépenses provinciales et municipales admissibles à titre de l'aide aux personnes dans le besoin et pour certains services sociaux et certains services de santé. Chaque province administre ses propres programmes d'aide sociale. On prévoit que les dépenses fédérales au titre du Régime d'assistance publique du Canada augmenteront de 6,7 p. 100 en 1988-1989.

Les paiements de transfert fiscaux comprennent les paiements de péréquation, les subventions prévues dans les lois constitutionnelles, le transfert de l'impôt sur le revenu, des entreprises de services publics et les accords de réciprocité fiscale. Les paiements de péréquation, qui représentent environ 95 p. 100 des transferts fiscaux, sont des versements non assortis de conditions permettant aux provinces à faible revenu d'élever, jusqu'à une norme établie, la capacité d'imposition de leurs contribuables, d'une façon à assurer les services publics à des niveaux de qualité et de fiscalité sensiblement comparables. La norme est établie d'après la capacité fiscale moyenne de cinq provinces: la Colombie-Britannique, la Saskatchewan, l'Ontario et le Québec.

Chapitre 4 Dépenses par catégorie de paiement

Le chapitre précédent portait principalement sur les fins auxquelles les dépenses des ministères. Celui-ci s'arrête à la façon dont les dépenses du gouvernement peuvent être regroupées, soit sous forme de transferts à des organismes ou à des particuliers, de frais pour le service de la dette, de dépenses aux sociétés d'Etat ou encore de dépenses relatives aux opérations courantes des ministères et organismes. Le tableau 4.1 présente le budgetaire du Budget des dépenses principal d'après ces diverses catégories de paiement.

Les paiements de transfert englobent les dépenses publiques, telles que les subventions et contributions, pour lesquelles le gouvernement ne reçoit directement ni biens ni services. Ces paiements sont versés à d'autres paliers de gouvernement, à des particuliers et à des organisations. Le Budget des dépenses principal de 1988-1989 prévoit 56,781 millions de dollars pour les paiements de transfert, soit environ 48 p. 100 du total et 6 p. 100 de plus que le niveau prévu dans celui de 1987-1988.

Plus des deux tiers de la croissance du budgetaire, exception faite des frais de la dette publique, ressortissent aux paiements de transfert.

L'ampleur de l'enveloppe de la Dette publique est surtout fonction des déficits budgétaires accumulés ou, en d'autres mots, du volume de l'encours net de la Dette publique. La dette publique nette a augmenté considérablement au cours de la dernière décennie, entraînant des intérêts débiteur croissants. Les taux d'intérêt influent beaucoup sur les frais de la dette, en particulier à court terme. Le niveau prévu de ces frais en 1988-1989 est déterminé par le volume de l'encours au début de l'année, les opérations prévues des marchés de capitaux pendant l'année et certaines hypothèses en ce qui a trait aux taux d'intérêt. À cet égard, l'enveloppe de la Dette publique diffère des autres, du fait qu'on ne peut la considérer comme un niveau de dépenses prévues.

Les prévisions budgétaires de 1988-1989 totalisent 32,055 millions de dollars, soit 3,855 millions ou 13.7 p. 100 de plus que celles de 1987-1988. Ce montant pour 1988-1989 est de 2,835 millions de dollars plus élevé que les prévisions courantes de 1987-1988.

Enveloppe de la Dette publique

Objet des dépenses

L'objet principal des dépenses de cette enveloppe est de verser aux détenteurs de certains titres fédéraux le rendement fixé au moment des emprunts. Ces éléments de passif portant intérêt comprennent la totalité de la dette fédérale non échue, ainsi qu'un certain nombre de fonds et de comptes spéciaux. La dette non échue comprend les soldes courants des obligations négociables du gouvernement du Canada, des bons du Trésor, des obligations d'épargne du Canada, des placements du Régime de pensions du Canada en titres fédéraux et des emprunts étrangers. Les fonds et comptes spéciaux comprennent les soldes courants des caisses de retraite, des fonds d'assurance et de pension, des comptes de dépôt et de fiduciaire et la quote-part du Canada au titre des droits de tirage spéciaux.

En outre, l'enveloppe de la Dette publique sert à payer les primes, escomptes, commissions et frais d'administration du Programme du service de la dette.

La Commission de la Fonction publique consacrera une somme totale de 132 millions de dollars aux activités de dotation non déléguées aux ministères, au paiement d'une part importante des frais de formation linguistique des fonctionnaires fédéraux et à l'examen d'appels déposés en vertu de la Loi sur l'emploi dans la Fonction publique. La Commission recouvre les coûts de ses programmes de formation et de perfectionnement. Étant par ailleurs devenue la seule entité responsable des programmes d'Action positive, elle s'est vu accorder une augmentation connexe de 5,3 millions de dollars de ses crédits.

À compter de 1988-1989, tous les fonds auparavant alloués à la société Construction de Défense (1951) Ltée sont affectés au ministère de la Défense nationale qui achètera ses services de construction de la société. Par conséquent, cette dernière société ne figurera plus dans le Budget des dépenses.

Le ministre des Finances conseille le gouvernement en matière de la situation économique et financière, du cadre financier global, de la gestion de la dette et du régime fiscal. Il administre aussi des programmes comme celui des paiements de transfert fiscaux qui constituent la majeure partie de l'enveloppe des Arrangements fiscaux.

Le Bureau du Surintendant des institutions financières figure pour la première année au Budget principal. Cet organisme, résultat de la fusion du Bureau de l'Inspecteur général des banques (relevant antérieurement du ministère des Finances) et du Département des assurances, est chargé de la supervision des institutions financières et des régimes de pension sous réglementation fédérale.

Faits saillants de 1988-1989

Les prévisions budgétaires de cette enveloppe diminuent de 160 millions de dollars en raison principale-ment des besoins moindres de la Société canadienne des postes (180 millions) et du ministère des Travaux publics (73 millions). Ces baisses sont compensées quelque peu par les augmentations des fonds affectés au ministère du Revenu national - Impôt (68 millions), au Secrétaire du Conseil du Trésor (26 millions) et à Approuvisionnements et Services (23 millions).

Plus de 89 p. 100 de cette enveloppe est destinée à sept ministères et organismes, soit Travaux publics (915 millions), Impôt (889 millions), Douanes et Accise (482 millions), le Secrétaire du Conseil du Trésor (370 millions), Approuvisionnements et Services (276 millions), Statistique Canada (222 millions) et la Société canadienne des postes (196 millions).

La majeure partie du budget des Travaux publics, soit 738 millions de dollars, déduction faite des recettes, est affectée à la prestation de locaux à d'autres ministères fédéraux. Environ 50 millions de dollars ont été transférés en 1988-1989 de Travaux publics à d'autres ministères pour la mise en oeuvre du principe de facturation de ses services en fonction des taux du marché. Ces fonds seront récupérés auprès des clients comme frais d'utilisation.

Pour sa part, le Secrétaire du Conseil du Trésor affecte, comme plus grand poste, une somme de 301 millions de dollars pour la contribution du gouvernement, en tant qu'employeur, aux divers régimes d'assurance et de pension des fonctionnaires fédéraux.

Le budgetaire de la Société canadienne des postes s'élève 196 millions de dollars en 1988-1989 et a trait à une subvention d'infrastructure à l'égard des services fournis aux députés, aux aveugles et aux résidents du Nord. Comme la société sera autosuffisante pour la première année, elle n'aura pas besoin de la subvention législative qu'on lui remettait antérieurement à l'égard de son déficit. La Société se voit cependant consentir un prêt de 110 millions de dollars pour financer des immobilisations.

Le Programme des services et des approvisionnements reçoit une somme nette de 276 millions de dollars de l'enveloppe. Les sommes affectées aux opérations des approvisionnements proviennent, en grande partie, du renouvelable des approvisionnements et dépendent de recettes de ces opérations, lesdites recettes étant établies d'une manière que le coût entier du matériel acheté pour les ministères se reflète dans les coûts de chacun. Les dépenses à l'égard du Receveur général seront de 207 millions de dollars, dont 36 millions destinés aux institutions financières en compensation de services tels que l'encasement de chèques et le traitement des dépôts directs.

Les autres principaux éléments de l'enveloppe sont le ministère des Finances, la Commission de la Fonction publique et la Commission de la Capitale nationale.

Environ la moitié des fonds affectés au ministère des Finances dans cette enveloppe sont destinés à l'achat de métaux servant à la fabrication des pièces de monnaie canadienne. Ces fonds demeurent élevés (quoiqu'ils représentent 11 millions de dollars de moins qu'en 1987-1988) en raison de l'introduction de la nouvelle pièce de 1 dollar. Les recettes provenant de la frappe de monnaie canadienne sont portées au crédit du Trésor à titre de recettes budgétaires non fiscales. Le reste des prévisions de l'enveloppe attribuables au ministère des Finances comprennent les frais d'administration d'importants programmes législatifs et la prestation de conseils en matière de politiques économiques et financières.

On prévoit que le Bureau du Surintendant des institutions financières dépensera 34,2 millions de dollars en 1988-1989, dont 32,4 millions seront récupérés à même les droits imposés au secteur financier, ce qui fixe à 1,8 million de dollars l'autorisation requise pour l'année. Les organismes desquels est issu le Bureau n'avaient pas le pouvoir de dépenser directement les sommes qu'ils recueillaient.

l'enveloppe des Services gouvernementaux regroupe plusieurs ministères et organismes fédéraux. Certains, comme Travaux publics, la Commission de la Fonction publique et Approvisionnement et Services, consacrent entièrement toutes leurs ressources au soutien des autres ministères et organismes. D'autres, comme la Société canadienne des postes, Statistique Canada et la Commission de la Capitale nationale, servent surtout le public. Le revenu Canada perçoit les impôts, taxes et droits au nom de l'État. L'enveloppe comprend aussi les organismes fédéraux et un certain nombre de plus petits organismes comme le Conseil économique du Canada, l'organisme consultatif de recherche en économie, et la Commission du tarif, qui entend les appels des décisions prises en matière de douanes et d'accises. Les dépenses de l'enveloppe comprennent donc presque exclusivement des dépenses de fonctionnement et d'immobilisations nécessaires au maintien d'un gouvernement national.

Travaux publics, l'un des grands ministères de l'enveloppe, a plusieurs fonctions. Il fournit des locaux — qu'il fait construire, achète ou loue — et dispense des services d'architecture et de génie ainsi que des services connexes aux ministères et organismes fédéraux; construit et entretient les routes et les ponts relevant de la compétence fédérale; administre les biens fonciers fédéraux excédentaires; et accorde des subventions tenant lieu de axes sur les propriétés fédérales aux autorités municipales et autres. (Ces subventions font elles-mêmes partie de l'enveloppe des Arrangements fiscaux.) La Commission de la Capitale nationale est chargée de préserver et de mettre en valeur la région de la Capitale nationale et d'organiser, aider et de coordonner les activités nationales qui enrichissent le tissu social et culturel du Canada.

Les organismes centraux relevant de cette enveloppe comprennent entre autres le Bureau du Conseil privé, qui assure un soutien opérationnel au mécanisme central de prise de décisions, et le Secrétariat du Conseil du Trésor, dont les prévisions budgétaires contenues dans cette enveloppe incluent la contribution du gouvernement, en tant qu'employeur, aux régimes d'assurance des employés et les dépenses reliées à l'administration centrale de la fonction publique. (Les crédits alloués au Conseil du Trésor pour la création d'emplois relèvent de l'enveloppe du Développement social. Quant au crédit pour éventualités du gouvernement, il ne fait partie d'aucune enveloppe puisqu'il figure en regard des réserves dans le cadre des dépenses.)

Le Bureau du Contrôleur général constitue un autre organisme central; il est responsable de l'élaboration et de la mise en oeuvre des politiques de gestion financière, de l'évaluation des programmes et de la vérification.

Le Bureau de privatisation et des affaires régionales fournit des avis sur le dessaisissement des sociétés d'État et la mise en oeuvre de la politique du gouvernement en matière de réglementation, de même qu'il fournit des directives et assure un contrôle dans ces domaines.

Le revenu Canada applique diverses lois outre la Loi sur les douanes, la Loi sur la taxe d'accise et la Loi de l'impôt sur le revenu. Ce ministère remplit aussi des fonctions administratives, comme la perception des cotisations au Régime de pensions du Canada et des primes d'assurance-chômage, pour le compte d'autres ministères fédéraux, et, au nom de gouvernements provinciaux, perçoit les impôts sur le revenu provinciaux et administre divers crédits fiscaux.

Livre blanc sur la Défense réitérait l'engagement du gouvernement d'augmenter les dépenses de ce secteur d'au moins 2 p. 100 en termes réels par année. De même, les examens annuels de la défense aideront à déterminer les grands suppléments dont aura besoin le Ministère en sus de ce niveau de base. Au terme d'un récent examen ministériel du budget de la défense, on en est arrivé à la conclusion que les besoins se chiffrent à 60 millions de dollars de plus en 1988-1989, ce qui porte l'augmentation totale des dépenses liées à la défense à 646 millions de dollars, ou 6,2 p. 100 de plus que les prévisions de 1987-1988. Les dépenses de l'enveloppe de la Défense passeront donc de 10,4 milliards de dollars à 11,1 milliards en 1988-1989. Les dépenses totales de l'enveloppe se situent à un niveau quelque peu inférieur à celui du Budget principal, sentiellement en raison de l'élimination des opérations financières interministérielles au titre du rajustement de consolidation.

Environ 43 p. 100 des dépenses de la Défense sont attribuables aux frais de personnel, catégorie comprenant les traitements, salaires et divers avantages d'un peu plus de 120,000 militaires et civils. La deuxième catégorie est celle des dépenses en capital (environ 24 p. 100 du budget de l'enveloppe), qui tient compte du besoin continu de rééquiper et de moderniser les Forces canadiennes. Cinq importants projets d'acquisition, soit les chasseurs CF-18, les frégates de patrouille, le matériel destiné à la défense aérienne à basse altitude, le Programme de modernisation du système de défense aérienne de l'Amérique du Nord et le Projet de révision et de modernisation de la classe Tribal comptent pour 52 p. 100 du budget des immobilisations. Il est à noter que le budget du Programme de remplacement des navires - Phase II, fixé à environ 5 milliards de dollars pour la période s'échelonnant de 1988 à 1997, a récemment été approuvé. Cette somme proviendra de l'enveloppe de la Défense. Les autres immobilisations concernent des postes tels que les munitions, les communications et le matériel informatique, les véhicules, les avions, divers travaux de construction et la recherche et le développement. Le reste du budget de la Défense vise presque entièrement les dépenses de fonctionnement non liées au personnel, notamment le carburant, l'entretien et l'approvisionnement.

L'enveloppe de la Défense comprend les dépenses du ministère de la Défense nationale. De plus, c'est maintenant le ministre de la Défense nationale qui agit comme ministre de tutelle de la société d'Etat Construction de défense (1951) Limitée, laquelle fournit à la Défense nationale des services d'adjudication et de surveillance des travaux de construction et dont les ressources financières sont puisées dans l'enveloppe de la Défense.

Le Programme des services de défense vise à protéger le Canada et les intérêts canadiens des initiatives violentes ou coercitives et à pouvoir y faire face adéquatement, le cas échéant. À cette fin, il englobe les activités des Forces canadiennes qui aident les autorités civiles à assurer la surveillance, la protection et la sécurité du territoire sous juridiction canadienne. Pour renforcer la sécurité du pays par des mesures de défense conjointes, le programme soutient la participation canadienne à l'Organisation du Traité de l'Atlantique Nord (OTAN) et la collaboration avec les États-Unis à la défense de l'Amérique du Nord. Pour promouvoir la stabilité internationale, il fournit une aide militaire aux opérations pacifiques parrainées par les Nations unies et participe à la formation militaire des pays amis. Il comporte aussi les services de secours en cas d'urgence ou de sinistre ainsi que les opérations de recherche et de sauvetage.

L'Aide publique au développement (APD) prévue en 1988-1989 totalise 2,880 millions de dollars, soit environ 220 millions de plus qu'en 1987-1988. Le tableau 3.10 en présente la répartition pour chacune des années.

Les sorties de fonds pour 1988-1989 comprennent des dépenses budgétaires de 2,700 millions de dollars pour les besoins de trésorerie de l'APD et des dépenses non budgétaires de 75 millions de dollars liées aux dotations dans les banques de développement multilatéral. Ces montants diffèrent du total indiqué au tableau 3.10 principalement dû au fait que le Canada finance surtout les institutions financières internationales au moyen de billets à ordre. Les institutions encaissent ces billets au cours des années subséquentes, selon leurs besoins, et ce sont les prévisions relatives aux encaissements pour l'exercice à venir qui figurent dans le Budget des dépenses principal. La valeur intégrale de ces billets est cependant incluse dans le calcul de l'APD dans l'année d'émission; c'est elle qui est signalée au Comité d'aide au développement de l'Organisation de coopération et de développement économiques (OCDE). Le reste de la différence entre le total de l'APD et les besoins budgétaires réside dans la valeur théorique de l'aide du Canada aux étudiants et aux stagiaires des pays en développement. Ces sommes figureront dans le rapport du Canada de 1988 à l'OCDE.

La valeur théorique de l'aide aux étudiants venant de pays en développement a été rajustée pour ne tenir compte que des étudiants qui sont bénéficiaires d'une bourse et suivent un programme de formation financés dans le cadre de l'APD.

Une réserve d'intervention de 43 millions de dollars a été prévue pour permettre le financement de nouvelles mesures au titre de l'aide au développement. Elle couvre notamment le coût de la décentralisation de la gestion du programme d'aide. Le détail du plan de décentralisation sera soumis à l'examen du Conseil du Trésor avant que les demandes de crédits ne soient déposées au Parlement.

L'enveloppe de l'Aide et des affaires extérieures comprend également les ressources affectées à la participation du Canada aux expositions mondiales, aux frais de fonctionnement de la Corporation Petro-Canada pour l'assistance internationale, du Centre international d'exploitation des océans et du Centre de recherches pour le développement international, lequel appuie l'étude des problèmes des régions en développement dans le monde. L'aide fournie aux institutions financières internationales comprend dans les prévisions de dépenses du ministère des Finances fait également partie de l'enveloppe, de même que celle consentie à l'Institut canadien pour la paix et la sécurité internationales et à la Commission mixte internationale qui s'occupe de plusieurs questions relatives aux aux limitrophes et à l'environnement le long de la frontière canado-américaine.

des dépenses de l'enveloppe augmentent de 184 millions de dollars par rapport à l'exercice précédent. Cette hausse transparaît presque entièrement dans le Budget principal 1988-1989, qui s'élève à 3,355 millions de dollars, malgré une provision pour un budget supplémentaire plus tard dans l'année.

Les ressources additionnelles de 46 millions de dollars consenties au ministère des Affaires extérieures sont principalement liées à des hausses des coûts des activités à l'étranger, ainsi qu'à l'accroissement de la charge de travail.

Les prévisions budgétaires de l'Agence canadienne de développement international dépassent de 97 millions de dollars celles de 1987-1988. Cette hausse est due à une croissance soutenue de l'aide au développement de pays à pays ainsi qu'à l'augmentation des contributions aux projets d'aide au développement des organismes bénévoles canadiens et d'autres organismes non gouvernementaux canadiens et internationaux. La hausse tient compte de la réduction de l'engagement législatif des billets à vue émis aux banques de développement régional multilatéral et des paiements directs aux fins d'investissement dans ces banques, sommes qui figuraient comme postes budgétaires dans le Budget principal de 1987-1988 et sont maintenant considérées comme dépenses non budgétaires.

Enveloppe de l'Aide et des affaires extérieures

Objet des dépenses

Les programmes qui composent l'enveloppe de l'Aide et des affaires extérieures ont pour principaux objectifs de venir en aide aux pays en développement et à représenter les intérêts du Canada à l'étranger dans les domaines de la politique étrangère, de la croissance économique (y compris l'expansion du commerce), de la paix et de la sécurité, de la souveraineté canadienne et de l'identité nationale, ainsi que de la justice sociale. Le ministère des Affaires extérieures a pour responsabilités premières la promotion et la protection des intérêts du Canada à l'étranger et l'entretien de relations diplomatiques, sur une base bilatérale ou multilatérale, par l'intermédiaire d'organisations internationales dont le Canada est membre. L'Agence canadienne de développement international (ACDI), qui collabore étroitement avec les Affaires extérieures, est responsable de l'administration et de la prestation d'un programme complet d'aide aux pays en développement.

Les relations diplomatiques que le Canada entretient avec presque tous les pays témoignent de l'ampleur de ces intérêts globaux; de plus, membre des Nations unies, d'organismes connexes et de plusieurs autres organisations internationales, le Canada participe à plusieurs de leurs programmes. Il entretient des relations par l'entremise de quelque 120 missions, y compris celles affiliées aux organisations multilatérales, dont la taille et les responsabilités varient d'un pays à l'autre ou en fonction des buts des organisations auprès desquelles elles sont accréditées.

Dans certains pays, par exemple, on mettra l'accent sur la promotion commerciale, alors que dans d'autres, on s'occupera surtout de l'aide au développement. La participation du Canada aux activités des organisations multilatérales appuie les objectifs que le pays s'est fixés concernant la paix et la sécurité, les relations économiques internationales, les questions humanitaires et le développement économique.

Les intérêts globaux du Canada à l'étranger ne se limitent pas à l'ordre de priorité ou de préférence accordée à certains intérêts, surtout ceux qui concernent l'aide au développement, dépend des circonstances qui prévalent à l'échelle nationale et internationale. Le Canada s'intéresse encore aux questions ayant trait à la souveraineté canadienne, à la promotion de la croissance économique, en mettant tout spécialement l'accent sur les négociations commerciales et les activités commerciales et de placement, ainsi que sur les droits de la personne et la paix et la sécurité mondiales.

Le Canada est reconnu de longue date comme un pays qui se préoccupe activement du développement international. Son but premier à ce chapitre est d'aider les pays à développer à atteindre une croissance économique sociale qu'ils pourront maintenir d'eux-mêmes par la suite. Les divers programmes d'aide peuvent également rapporter des avantages importants à l'économie canadienne, et l'achat de biens et de services au Canada pour soutenir des projets de développement outre-mer stimule l'industrie canadienne et peut contribuer à l'expansion des marchés d'exportation.

Les subventions fédérales tenant lieu d'impôts fon-
 ciers ont légèrement diminué, passant de 295 millions de
 dollars dans le Budget des dépenses principal de 1987-1988
 à 286 millions dans celui de 1988-1989. Ce fléchissement
 tient compte de la baisse du nombre de propriétés et les
 économies que l'on s'attend de réaliser en rationalisant la
 vision des évaluations.

Les dépenses au titre de la réciprocité fiscale augmen-
 tent de 8 millions de dollars par rapport à 1987-1988. Cette
 augmentation est fondée sur les prévisions de croissance des
 taxes de vente provinciales sur les biens et services im-
 posables.

Objet des dépenses

Faits saillants de 1988-1989

Les dépenses relevant de l'enveloppe des Arrangements fiscaux ont pour but général d'offrir aux provinces une aide inconditionnelle, c'est-à-dire des transferts de fonds sans stipulations quant à l'utilisation des sommes. Les programmes de l'enveloppe sont soit conus en fonction des besoins, soit liés au régime fiscal.

Les programmes liés aux besoins sont la péréquation, les subventions prévues conformément aux lois constitutionnelles de 1867 à 1982 et la stabilisation fiscale. Environ 90 p. 100 des dépenses de cette enveloppe sont consacrées à la péréquation, qui vise à permettre à toutes les provinces d'assurer à leur population les services publics à des niveaux de qualité et de fiscalité sensiblement comparables.

Les programmes de nature fiscale sont: la garantie de recettes provenant de l'impôt sur le revenu, qui protège dans certains cas les provinces contre des pertes de recettes découlant de modifications à l'impôt fédéral sur le revenu des particuliers; les subventions aux municipalités et aux provinces en remplacement d'impôts fonciers; les paiements de réciprocité fiscale aux provinces à l'égard des taxes à la consommation; les paiements aux provinces de 95 p. 100 de l'impôt fédéral sur le revenu des entreprises privées de services publics; et le recouvrement auprès du Québec des trois points d'impôt sur le revenu des particuliers transférés à cette province en compensation d'un programme d'allocations aux jeunes ayant pris fin depuis.

À la lumière des données relatives aux années d'imposition antérieures, les versements en vertu de la *publique* ont été augmentés de 56 millions de dollars par rapport au Budget principal de 1987-1988. On assiste par ailleurs à une augmentation de 25 millions de dollars des recettes du recouvrement de l'impôt ayant trait aux allocations aux jeunes, en raison de la croissance de l'impôt fédéral de base alloué au Québec.

Le secteur de la Justice représente également une part importante de l'enveloppe du Développement social. Les dépenses qui y sont prévues servent à garantir un système judiciaire juste et équitable ainsi que l'application des lois par les services policiers et les services correctionnels. Les dépenses du ministère de la Justice, dont relèvent divers tribunaux et commissions, s'élèvent à 528 millions de dollars dans ce Budget des dépenses.

Le Budget des dépenses principal de 1988-1989 affecte 2,042 millions de dollars au Solliciteur général qui continue, outre le Ministère, le Service correctionnel et le Canada, la Commission nationale des libérations conditionnelles, la Gendarmerie royale du Canada et les institutions du Service canadien du rattachement de sécurité. Les dépenses du Ministère continuent pour 27 millions en 1988-1989, tandis que les services dispensés par le Service correctionnel du Canada et la Commission nationale des libérations conditionnelles reçoivent respectivement 815 millions et 18 millions. On applique les 1,033 millions de dollars à la GRC pour appliquer les lois fédérales, offrir les services policiers prévus dans les marchés avec les provinces, les territoires et les municipalités, et appuyer les autres forces policières canadiennes. Ces crédits comprennent une somme supplémentaire de 80 millions destinée aux services de protection en général et au Service de protection dans les aéroports, fonction dont la responsabilité financière combat auparavant au ministère des Transports. En outre, 149 millions de dollars sont affectés au Service canadien de renseignement de sécurité, alors que le Comité externe d'examen reçoit 1 million.

Les prévisions budgétaires de la Société canadienne d'hypothèques et de logement s'élèvent à 1,704 millions de dollars pour l'année 1988-1989, dont 1,590 millions seront consacrés au logement social, une augmentation de 44 millions par rapport au Budget principal de 1987-1988.

Le gouvernement a pour autre priorité importante de préserver et de renforcer l'identité canadienne. Cette priorité est appuyée par le travail des agences culturelles et du Secrétaire d'État.

Le Budget principal comprend 1,536 millions de dollars destinés aux organismes qui relèvent du ministre des Communications. De cette somme, 907 millions sont alloués à la Société Radio-Canada, ce qui représente près de 60 p. 100 des dépenses fédérales à l'endroit des arts et de la culture.

Pour sa part, le Secrétaire d'État se voit affecter 3,330 millions de dollars, dont 2,382 millions représentent des paiements aux provinces à l'égard de l'enseignement postsecondaire (paiements effectués en vertu de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces et sur les contributions fédérales en matière d'enseignement postsecondaire et de santé) et 385 millions, des paiements effectués en vertu de la Loi canadienne sur les prêts aux étudiants. Par ailleurs, 218 millions de dollars iront appuyer les langues officielles dans l'enseignement.

Une autre somme de 15 millions de dollars est versée au Fonds de la politique de subventions de contrepartie pour la recherche universitaire qui sert à accorder des subventions et bourses pour promouvoir la recherche et le développement universitaires; 11 millions seront ad-ministrés par le Conseil de recherches en sciences humaines, par le Conseil de recherches en sciences humaines. Le budget du ministre de l'Environnement totalise 796 millions de dollars, dont 335 millions pour l'exploitation et la mise en valeur des parcs nationaux et des sites historiques. Une somme de 207 millions est consacrée au Service de l'environnement atmosphérique tandis que 215 millions vont à la conservation et à la protection de l'environnement.

Les dépenses budgétaires de l'enveloppe du Développement social s'élèvent à 50,254 millions de dollars en 1987-1988, soit plus de 2 milliards de dollars de plus que le montant prévu en 1987-1988. Cette augmentation est surtout due aux grands programmes législatifs comme la sécurité de la vieillesse, le Régime d'assistance publique du Canada, le soutien aux provinces dans les domaines de la santé et de l'enseignement ainsi qu'aux programmes destinés aux autochtones.

Les dépenses du ministère de la Santé nationale et du Bien-être social représentent 61 p. 100 des sorties de fonds totales de cette enveloppe. La grande majorité de ces dépenses sont de nature législative et comprennent principalement 15,530 millions de dollars qui seront consacrés aux programmes de versements aux personnes âgées; 4,472 millions au Régime d'assistance publique du Canada, qui paie la moitié des coûts des programmes provinciaux de services sociaux, familiaux et d'aide à l'enfance; 7,031 millions aux paiements de transfert aux gouvernements provinciaux pour les services de santé assurés en vertu de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces et sur les contributions fédérales en matière d'enseignement postsecondaire et de santé; et 2,586 millions aux allocations familiales. Cette dernière somme ajoute aux quelque 2,1 milliards de dollars versés aux familles sous forme de crédit d'impôt pour enfants. Les engagements apportés aux programmes susmentionnés sont à l'origine de la presque totalité de l'augmentation de 69 millions des prévisions budgétaires du Ministère.

Des ressources supplémentaires de 2 millions de dollars sont affectées au Centre canadien d'hygiène et de sécurité au travail pour lui permettre de répondre à la demande accrue de renseignements découlant de la récente adoption de la législation relative à la mise en place du système d'information sur les matières dangereuses utilisées au travail.

L'aide aux personnes les plus démunies, notamment les autochtones, les anciens combattants et les chômeurs, les autochtones, les anciens combattants et ceux qui ont besoin d'une aide pour se loger, représente une part importante des dépenses de l'enveloppe du Développement social.

Les prévisions budgétaires de 1988-1989 d'Emploi et Immigration s'élèvent à 4,535 millions de dollars et comprennent 1,393 millions pour la Planification de l'emploi,

2,656 millions en contributions législatives au Compte d'assurance-chômage et 200 millions destinés aux assistés sociaux. L'enveloppe comprend également des dépenses de 180 millions relatives à la création d'emplois d'été, que l'on retrouve sous un crédit central du Secrétaire du Conseil du Trésor. Les dépenses du Programme d'immigration sont portées à 194 millions, par suite de l'adoption de mesures intéressant les réfugiés.

Les prévisions du ministère des Affaires indiennes et du Nord, qui sont de 2,996 millions de dollars, comprennent 2,005 millions consacrés au Programme des affaires indiennes et inuit. De ce montant, 634 millions iront à l'éducation, 449 millions au développement social, 520 millions à des immobilisations et des services communautaires, et 192 millions à l'aide aux bandes indiennes pour l'administration des programmes. Ne figure pas dans ce programme, même si elle profite indirectement aux autochtones, une somme de 825 millions de dollars en paiements de transfert aux gouvernements territoriaux afin de les aider à assurer des services aux résidents du Nord, dont un bon nombre sont des autochtones. Une part de l'augmentation des dépenses prévues du Ministère trouve sa source dans le transfert de responsabilités de nature provinciale au Gouvernement des Territoires du Nord-Ouest au titre de l'aménagement forestier, de services de santé et de services aux jeunes contrevenants.

Une somme de 1,649 millions de dollars est affectée au ministère des Affaires des anciens combattants en 1988-1989, dont 835 millions pour les pensions et 349 millions pour les allocations des anciens combattants. Des dépenses de 175 millions sont de plus allouées aux services médicaux achetés pour le compte des anciens combattants qui touchent une pension ou des allocations d'invalidité ou de ceux qui toucheraient des allocations s'ils ne percevaient pas les paiements prévus dans la Loi sur la sécurité de la vieillesse. Ces services concernent les traitements médicaux donnés hors des établissements ministériels et comprennent les services professionnels et les frais des hôpitaux non ministériels qui ne sont pas assujettis aux régimes d'assurance-maladie provinciaux.

On retrouve dans cette enveloppe les programmes gouver-
nementaux conçus pour répondre aux préoccupations des
Canadiens dans les domaines sociaux, culturels, environ-
nementaux et de l'application des lois.

Au cours de 1988-1989, le gouvernement poursuivra
les efforts des années précédentes pour renforcer la justice
sociale en accordant une haute priorité, dans le domaine de
la politique sociale, aux programmes d'aide destinés aux
personnes défavorisées sur le plan économique, notam-
ment les chômeurs, les autochtones, les femmes, les
minorités culturelles, les personnes handicapées et les per-
sonnes âgées. Les politiques et programmes gouvernement-
aux continueront de promouvoir l'accès équitable aux
avantages de la société canadienne et porteront encore sur
la protection et l'enrichissement de la culture canadienne.

Comme dans les années précédentes, les dépenses
consacrées à l'enveloppe du Développement social cons-
titueront, à elles seules, l'élément le plus important des
dépenses du gouvernement. En 1988-1989, le gouverne-
ment fédéral consacrera 59,359 millions de dollars (dont les
réserves), soit 45 p. 100 de son budget total, à cette en-
veloppe qui comprend des transferts aux gouvernements
provinciaux et territoriaux, des transferts aux particuliers
et des services directs au public.

Les transferts aux particuliers versés aux personnes
âgées, aux familles, aux chômeurs et aux anciens comb-
tants, qui s'élèvent à plus de 29 milliards de dollars, so-
l'élément le plus important de l'enveloppe, représenta-
plus de 49 p. 100 des ressources qui y sont affectées.

Viennent au second rang les transferts aux provin-
ces et aux territoires se rapportant à l'enseignement postsec-
daire, aux services de santé, au bien-être social, à l'aide au
personnes handicapées et au fonctionnement de l'ali-
mentaire, auxquels représentent environ 15 milliards de dol-
lars ou près de 25 p. 100 de l'enveloppe.

Le reste de l'enveloppe, qui couvre des program-
mes liés à l'environnement, à l'emploi, à la santé, au logem-
ent, aux habitants du Nord, aux autochtones, à la mise en ap-
plication des lois et aux services correctionnels, représen-
te environ 8,5 milliards de dollars sont reliés à des ajus-
tements de la valeur de l'actif et des comptes à fins d'au-
tisme, principalement celui de l'assurance-chômage, au-
fins de la présentation des dépenses budgétaires. De plus,
quelque 577 millions sont présentement réservés pour la
budgétaires des dépenses supplémentaires.

Le gouvernement fédéral effectue par ailleurs d
transferts fiscaux aux provinces au titre de l'aide
l'enseignement et aux services de santé et, dans le cas d
Québec, au titre de l'aide sociale. Ces transferts fiscaux, qu
s'ajoutent aux dépenses directes indiquées dans le Budget
des dépenses, s'élèvent à quelque 8,9 milliards de dollars e
1988-1989.

Remplace la Commission canadienne des transports à compter de 1988-1989.

ministère des transports et l'Office national des transports, présente environ 30 p. 100 des prévisions de l'enveloppe. Les prévisions du Ministère ont trait à l'exploitation des aéroports, des systèmes de navigation aérienne, des ports publics ainsi que de la Garde côtière canadienne. Elles traitent aussi aux activités découlant de l'entretien des voies ferrées, de la sécurité routière, dont le transport des marchandises dangereuses et la réglementation des véhicules à moteur, ainsi qu'aux paiements versés à diverses sociétés d'Etat, comme VIA Rail Canada Inc. et Marine-Atlantique S.C.C., pour des services de transport ferroviaire (voyageurs), de transport par voie navigable et autre nature. La majeure partie des prévisions de l'Office national des transports se rapportent aux paiements versés aux compagnies ferroviaires en vertu de la Loi sur le transport du grain de l'Ouest et d'autres lois.

Le Ministère voit augmenter ses dépenses de 165 millions de dollars par rapport à 1987-1988, augmentation résultant essentiellement de la hausse des paiements à diverses sociétés d'Etat, dont 112 millions de dollars supplémentaires à VIA Rail Canada Inc. et 28 millions additionnels à Marine Atlantique S.C.C.

La réduction de 53 millions prévue dans le cas de l'Office national des transports est surtout due à une diminution des paiements versés en vertu de la Loi sur le transport du grain de l'Ouest.

Les programmes du ministère de l'Agriculture comprennent le Programme du Service canadien des forêts) et du ministère des Pêches et Océans représentent environ le quart des prévisions de l'enveloppe.

Les prévisions budgétaires du ministère de l'Agriculture comprennent les affectations au titre du Programme spécial canadien pour les grains, lequel prévoit des versements de 1 milliard de dollars pour la récolte de céréales et de graines oléagineuses de 1986; pour la récolte de 1987, les versements prévus s'élèvent à 1,1 milliard. La somme couvrant la récolte de 1986 était constituée d'une affectation de 300 millions contenue dans le Budget supplémentaire (B) de 1986-1987 et d'une affectation de 700 millions prévue au Budget supplémentaire (A) de 1987-1988, déposé au même moment que le Budget principal de 1987 se compose des autorisations suivantes: crédits de 804 millions de dollars dans le Budget supplémentaire (D) de 1987-1988, et affectation de 296 millions de dollars dans le présent Budget principal. Les

déboursés effectués en vertu du Programme de stabilisation concernant le grain de l'Ouest, qui sont intégrés au cadre des dépenses depuis 1986-1987, devraient conserver approximativement le même niveau en 1988-1989 qu'au cours de l'exercice précédent. Les autres programmes d'aide aux producteurs de grains, découlant essentiellement de la Loi sur la stabilisation des prix agricoles, et aux producteurs de tabac se traduiront par une hausse d'environ 100 millions de dollars des prévisions budgétaires de l'Agriculture.

Les prévisions du ministère des Pêches et Océans sont en hausse de 128 millions de dollars, principalement en raison des mesures prises par le gouvernement en 1987-1988 afin de donner plus d'ampleur au Programme d'amélioration des salmonides et au Programme des ports pour petites embarcations.

Dans le secteur de l'énergie, les prévisions du ministère de l'Énergie, des Mines et des Ressources contiennent pour la première fois les dépenses relatives au Programme canadien d'encouragement à l'exploration et à la mise en valeur, que compensera en partie l'élimination du Programme d'encouragement du secteur pétrolier. Les déboursés effectués à même les fonds de développement des ressources en mer de Terre-Neuve et de la Nouvelle-Écosse contribuent pour beaucoup à l'augmentation des dépenses dans le secteur. Les prévisions de l'Énergie atomique du Canada Limitée sont réduites de 27 millions de dollars, suite aux mesures de restriction découlant du Budget de 1985. Les dépenses totales du secteur de l'énergie représentent pour leur part environ 10 p. 100 du total de l'enveloppe.

Enveloppe du Développement économique et régional

Objet des dépenses

Les programmes que le gouvernement fédéral finance à même cette enveloppe ont plusieurs buts, dont promouvoir les investissements du secteur privé et régulariser la mise en valeur, la production et l'écoulement des principales ressources naturelles du Canada; encourager la mise au point des nouvelles techniques et l'augmentation des activités de R et D, ainsi que le développement industriel et régional; enfin, établir un climat propice à la création d'entreprises et à leur expansion.

Dans ce secteur de dépenses, on met l'accent sur la croissance économique et la création d'emplois, tant à l'échelle nationale que dans des régions précises. On y favorise à ces fins les initiatives des entreprises privées et l'amélioration de l'efficacité du gouvernement, tout en tenant compte de l'objectif global de réduction du déficit.

Faits saillants de 1988-1989

La réduction des dépenses totales de l'enveloppe du Développement économique et régional est plus qu'attribuable au devancement des paiements versés aux producteurs céréaliers de l'Ouest en vertu du programme spéciale d'aide. Au cours de la première année du programme, le Parlement a été invité à approuver une affectation supplémentaire au moment même du dépôt du Budget principal. Cette mesure s'imposait afin que le processus normal d'adoption des crédits dans le cadre du Budget principal ne retarde pas les paiements aux cultivateurs. Cette année, le gouvernement a pu mettre en oeuvre son programme plus rapidement et a ainsi évité que se reproduise la situation survenue l'an dernier relative-

ment au versement des paiements avant les semaines printemps. Si l'on exclut la réserve de 1,5 milliard de dollars créée en 1987-1988 et les 296 millions contenus dans le Budget principal à l'égard du Programme spécial canadien pour les grains, les prévisions budgétaires de l'enveloppe accusent une hausse de 1,4 milliard et ses réserves, le contraire.

Le financement accru à l'égard du développement régional, comprenant l'inclusion, pour la première fois, de crédits affectés à l'Agence des perspectives de l'Atlantique, au Bureau de diversification de l'économie de l'Ouest ainsi qu'à l'endroit du Programme canadien d'encouragement à l'exploration et à la mise en valeur sont à l'origine de la majeure partie de la hausse du Budget principal ainsi que de la baisse des réserves par rapport à 1987-1988.

Les dépenses prévues dans cette enveloppe peuvent être classées dans les cinq catégories suivantes: transport; soutien à l'agriculture et à la pêche; soutien industriel; technologies, énergie, et dépenses diverses, cette dernière étant relativement modeste.

Dans le secteur des transports, deux nouvelles lois sont entrées en vigueur le 1er janvier 1988: la Loi nationale sur les transports ainsi que la Loi sur le transport par véhicule à moteur. L'adoption de ces lois marquait le début d'une nouvelle ère de réglementation économique pour l'industrie nationale des transports. La concurrence et les forces du marché sont désormais les principaux facteurs qui déterminent la manière dont des services rentables, efficaces et suffisants de transport peuvent être fournis au public à faible coût d'ensemble. L'Office national des transports nouvellement créé est adapté à la réglementation adoptée par le remplace l'ancienne Commission canadienne des transports. Le secteur des transports, qui comprend

Chapitre 3

Le plan de dépenses par enveloppe

Le plan de dépenses du gouvernement présente au chapitre 3 le plan de dépenses par enveloppe, ou *enveloppes*, qui établit des niveaux de dépenses, ou *enveloppes*, dans les limites des dépenses totales, pour huit secteurs de dépenses. Les programmes ont été répartis par enveloppe de manière à mettre en relief les options divergentes dans un secteur donné, tout en tenant compte du fait que les responsabilités ministérielles des titulaires de portefeuilles ne doivent pas être éparpillées en un trop grand nombre de secteurs et de comités d'orientation connexes du Cabinet. Le présent chapitre traite de chacune des huit enveloppes décrites en termes généraux l'objet des dépenses qui y sont contenues ainsi que les principaux programmes figurant dans le Budget principal. Le tableau 3.1 présente le plan de dépenses en fonction de ses composantes

* Ces chiffres correspondent aux niveaux des années-personnes contrôlées par le Conseil du Trésor. Celui-ci contrôle directement la taille des ministères et organismes énumérés à l'annexe 1, parties 1 et 2 de la Loi sur les relations de travail dans la Fonction publique (L.R.T.F.P.), sauf quelques exceptions dont le Bureau du Vérificateur général. Les chiffres des années antérieures ont été rajustés pour tenir compte des années-personnes qui étaient auparavant, mais ne sont plus, sous le contrôle du Conseil du Trésor, ou qui sont soumises à un contrôle distinct, par exemple le Commissaire aux langues officielles, l'Inspecteur général des banques, le Département des Assurances, et les constables spéciaux, les membres réguliers et les membres civils de la GRC.

Principales variations par ministère

La plus forte augmentation d'années-personnes est

autorisée pour le ministère des Travaux publics. L'augmentation de 750 années-personnes traduit le transfert, d'un certain nombre de ministères, des ressources affectées aux services d'architecture et de génie. Cette hausse est entièrement compensée par des réductions équivalentes dans d'autres ministères.

L'Agence des perspectives de l'Atlantique et le Bureau de diversification de l'économie de l'Ouest, les deux nouveaux organismes créés par le gouvernement pour faire la promotion du développement économique dans ces deux régions, sont à l'origine d'une augmentation de 507 années-personnes. De ce nombre, 358 années-personnes sont compensées par une diminution correspondante au ministère de l'Expansion industrielle régionale, les autres étant de nouvelles années-personnes requises pour l'exécution des programmes.

L'augmentation de 154 années-personnes survenant au ministère des Communications est principalement attribuable au transfert de l'activité Programmes nationaux qui relevait auparavant des Musées nationaux du Canada.

L'augmentation nette de 109 années-personnes que connaîtra le ministère de l'Énergie, des Mines et des Ressources représente les ressources nécessaires à l'administration du Programme canadien d'encouragement à l'exploration et à la mise en valeur et à d'autres activités, ressources partiellement compensées par des réductions prévues ailleurs au sein du Ministère.

Tous les autres principaux changements apportés aux années-personnes autorisées représentent des diminutions. La baisse de 737 années-personnes de l'effectif du ministère des Affaires indiennes et du Nord découle de la poursuite du Plan global de décentralisation, qui prévoit le transfert de programmes et de responsabilités aux Indiens, du transfert des services d'architecture et de génie au ministère des Travaux publics, et de la rationalisation des programmes.

public.

Des 623 années-personnes en moins prévues au ministère des Transports, plus de 300 traduisent l'incidence continue des restrictions budgétaires. Le reste est surtout lié au transfert de certaines responsabilités au ministère des Travaux publics.

Les années-personnes civiles autorisées au ministère de la Défense nationale ont été réduites de 442, ce qui contribue la contribution du Ministère à l'atteinte des objectifs annuels de réduction des années-personnes.

Le transfert, aux Travaux publics, de 230 années-personnes des services d'architecture et de génie est l'un des principaux facteurs qui expliquent la baisse des années-personnes autorisées au ministère de l'Environnement. La majeure partie des autres baisses dans les années-personnes ressortit à la rationalisation des programmes et découle de l'exigence de réduire la taille de la fonction publique.

1986-1987 et 3,072 en 1987-1988, on assiste à une diminution totale de 10,524 années-personnes au cours des trois premiers exercices, ce qui fixe l'objectif des compressions à quelque 4,500 années-personnes pour les deux derniers. Le gouvernement a toujours la ferme intention d'atteindre ces objectifs de réduction qu'il s'est fixés et entend le faire de façon ordonnée, en continuant de répondre véritablement aux besoins des Canadiens et d'assurer la prestation des services publics essentiels. De nouvelles réductions d'environ 1 p. 100 par année au cours des deux prochaines années devraient permettre d'atteindre l'objectif annoncé.

Même en période de restriction budgétaire, certains ministères requièrent des années-personnes supplémentaires pour faire face à l'accroissement obligatoire de leur charge de travail et mettre en oeuvre des mesures que le gouvernement juge prioritaires. Par conséquent, certains ministères et organismes connaissent des augmentations de leurs niveaux autorisés, lesquelles, cependant, sont plus que compensées par les baisses survenant dans d'autres organismes contrôlés par le Conseil du Trésor, où les années-personnes autorisées diminuent sensiblement dans certains cas. Le tableau 2.4 résume les principaux changements apportés en 1988-1989 aux niveaux des années-personnes autorisées de 1987-1988.

dépenses principal, et comme il demeure fermement vo-
à gérer dans un esprit de restriction les imprévus q-
peuvent survenir au cours de l'année, les réserves pour les
budgets supplémentaires de l'exercice 1988-1989 so-
moins imposantes que les estimations courantes du plan
des dépenses de 1987-1988. Pour cette raison, le total des dé-
ses prévues pour l'année à venir augmente moins que
total du Budget des dépenses principal. Ainsi, s'il est vi-
que ce dernier croît de 7.7 p. 100, les sommes moins élevées
réservées aux budgets supplémentaires n'entraînent qu'une
augmentation de 5.5 p. 100 du plan de dépenses du gouver-
nement.

Années-personnes

L'année-personne est l'unité de contrôle des ressources
humaines et correspond à l'emploi d'une personne dura-
une année entière ou l'équivalent, par exemple deux per-
sonnes pendant six mois. Dans le Budget de mai 1985,
gouvernement a annoncé une réduction de la taille de
fonction publique contrôlée par le Conseil du Trésor
réduction de l'ordre de 15,000 années-personnes étalée sur
une période de cinq ans se terminant en 1990-1991.

En réduisant le nombre et le coût des employés pe-
manents de la fonction publique, le gouvernement a po-
principal objectif de se doter d'un effectif moins importa-
et plus productif, en mesure d'assurer la prestation
programmes et de services publics de la plus grande quali-
possible et au coût le moins élevé possible pour les co-
tribuables canadiens. Le gouvernement fédéral continue
de procéder à la réduction de sa main-d'oeuvre p-
l'accroissement de la productivité, la privatisation des a-
tivités qui s'y prêtent et, si cela est justifié, par l'impartiti-

Les réserves pour les budgets supplémentaires consistent le second volet du total des dépenses budgétaires. Elles-ci trouvent leur raison d'être dans la dynamique du processus de gestion des dépenses. À quelque moment que ce soit, les ministères ont des programmes, des programmes pour lesquels les demandes de financement sur le point d'être étudiées par le gouvernement et des programmes dont les coûts sont encore incertains. Le budget des dépenses principal tient compte des niveaux approuvés tandis que les montants que le gouvernement met en réserve lui permettront de gérer le reste. Dans la mesure où les ajustements en cours d'exercice peuvent être partis par secteur, une partie des réserves est affectée à l'enveloppe en question. Cependant, les réserves n'étant pas réparties totalement au début d'un nouvel exercice financier, la répartition par enveloppe présentée au tableau 2 pourra faire l'objet de rajustements en cours d'exercice, selon les ressources supplémentaires accordées aux divers secteurs de dépenses.

Outre le total du budgetaire du Budget des dépenses principal et les réserves pour les budgets supplémentaires, ensemble, constituent le *Total des prévisions budgétaires*, les dépenses finales tiennent compte de trois autres facteurs: la consolidation des dépenses de divers comptes à fins déterminées avec d'autres dépenses; l'évaluation de l'actif et du passif; et les pérémpctions, ou différences entre les dépenses totales et les dépenses budgétaires totales en fin d'année de tous les ministères et organismes et les dépenses autorisées par le Parlement pour l'exercice financier. Il arrive que des autorisations ne soient pas utilisées du fait que les ministères et organismes ne peuvent légalement dépenser plus que le Parlement ne les y autorise et qu'en pratique, les gestionnaires prudents ont tendance à dépenser un peu moins que les montants autorisés.

Le graphique D illustre les principales composantes des plans de dépenses des exercices 1987-1988 et 1988-1989. Pour rendre la comparaison plus significative, le crédit de 700 millions de dollars pour le Programme spécial canadien pour les grains — présente au Parlement dans le Budget supplémental (A) déposé l'an dernier simultanément avec le Budget des dépenses principal — a été ajouté aux 110,1 milliards de dollars du budgetaire du Budget des dépenses principal de l'exercice 1987-1988. Ce rajustement pris en compte, l'augmentation annuelle de cette composante, la plus importante du plan des dépenses, est de 7,7 p. 100. Le gouvernement ayant, cette année, cerné les nouveaux besoins relativement tôt dans le processus d'établissement du Budget, il les a inclus dans le Budget des

tains comptes à fins déterminées et de l'évaluation de l'actif et du passif du gouvernement, de même que des pérémp-tions prévues dans les dépenses autorisées. Chacun de ces éléments du plan de dépenses est présenté au tableau 2.3 et expliqué ci-dessous. Étant donné que le plan contient des réserves pour les budgets supplémentaires, il ne change pas nécessairement au cours de l'année lorsque de nouvelles autorisations de dépenses sont demandées au Parlement. Cependant, si des événements nécessitent la révision de l'approche financière, le ministre des Finances peut présenter un cadre des dépenses révisé dans un exposé financier ou économique, augmentant ou diminuant au be- soin le niveau des réserves.

Comme il est illustré au tableau 2.3, le budgétaire du Budget des dépenses principal comprend deux genres de dépenses. Les premières sont les dépenses législatives, c'est-à-dire les dépenses qui sont autorisées de façon per- manente en vertu de lois approuvées par le Parlement ac- tuel ou un Parlement antérieur. Elles s'élèvent cette année

Le dépôt du Budget des dépenses principal constitue la première étape de la mise en oeuvre du plan de dépenses pour l'année à venir. Le Budget présente récemment par le ministre des Finances décrit ce plan en termes généraux. Le tableau 2.3 présente les prévisions budgétaires en fonc- tion du plan ou cadre des dépenses et indique leur réparti- tion et celle des budgets supplémentaires et des autres éléments du cadre des dépenses dans les dépenses totales du gouvernement.

Le budgétaire du Budget des dépenses principal cons- titue l'élément le plus important du plan de dépenses du gouvernement, représentant plus de 90 p. 100 du total des dépenses budgétaires. Outre les 119,4 milliards de dollars prévus à ce poste, le total des dépenses budgétaires tient compte de montants prévus pour les budgets des dépenses supplémentaires au cours de l'exercice financier ainsi que pour les provisions découlant de la consolidation de cer-

Croissance des enveloppes
(en milliards de dollars)

Pour cette période, la croissance annuelle moyenne de trois enveloppes importantes, la Défense, l'Aide et les affaires extérieures et le Développement social, s'établit à au moins 10 p. 100. Les frais de la dette publique, dont la croissance représente le quart de la croissance totale des dépenses par rapport à 1987-1988, et qui doivent augmenter de 9,7 p. 100 en 1988-1989, continuent d'être la composante des dépenses budgétaires qui croît le plus rapidement, au taux moyen de 15,9 p. 100 par année. L'augmentation des dépenses au titre du service de la dette publique représente près de la moitié de la croissance totale du niveau des enveloppes de 1979-1980 à 1988-1989.

L'augmentation automatique, par des dispositions statutaires, des importants paiements de transferts sociaux qui dominent l'enveloppe du Développement social contribue à la croissance des dépenses dans ce secteur. En raison de la taille importante de cette enveloppe, qui représente approximativement 45 p. 100 de l'ensemble des dépenses budgétaires, et de son taux de croissance annuel élevé, on peut lui attribuer plus de 40 p. 100 de la croissance de l'ensemble des dépenses pour la période.

Environ la moitié du reste de la croissance de l'ensemble des dépenses de 1979-1980 à 1988-1989 découle de nos efforts accrus d'aide aux pays en développement et des vastes programmes d'immobilisations destinés à appuyer nos engagements internationaux en matière de défense.

La part des dépenses qu'occupent les autres enveloppes, soit celles du Développement économique et régional, des Arrangements fiscaux, des Services gouvernementaux et du Parlement, qui englobent des dépenses se rapportant davantage au fonctionnement, a diminué au cours de la période. Cette diminution traduit les efforts déployés par le gouvernement pour restreindre la croissance des dépenses liées à son administration et à l'exécution de ses programmes.

Le tableau supplémentaire 2.15, à la fin de ce chapitre, présente l'évolution de la taille relative des enveloppes.

fin de renforcer les liens entre le processus d'élaboration des politiques et le processus de planification des dépenses à long terme, et pour accroître le rôle des ministres dans le processus décisionnel, les dépenses du gouvernement sont réparties par secteur de dépenses, ou *enveloppe*. Le tableau 2.2 présente cette répartition pour la période s'étendant de 1985-1986 à 1988-1989.

au cours des quatre dernières années contraste fortement avec les hausses moyennes de plus de 15 p. 100 enregistrées au cours de la période précédente de cinq ans.

La croissance des dépenses fédérales dépend en grande partie des tendances fondamentales de l'économie. Ainsi, au cours de la période s'étendant de 1979-1983 à 1984-1985, le rendement de l'économie canadienne, marqué par une croissance inférieure à la moyenne et par une inflation supérieure à la moyenne, a influé directement sur le taux de croissance des dépenses de programmes, indirectement, sur le taux de croissance des frais de la dette publique, dont l'augmentation a été rapide.

Depuis 1984-1985, le gouvernement a pris plusieurs mesures pour réduire à la fois le déficit et la croissance des dépenses budgétaires. En novembre 1984, une stratégie de plusieurs volets au nombre desquels on retrouve la diminution des programmes, le recouvrement accru des coûts dans le but de réaliser des économies de quelque 4 milliards de dollars en 1985-1986. Cette initiative a été suivie d'autres mesures de restriction présentées dans le Budget de mai 1985 du ministre des Finances dont, entre autres, la réduction de la taille de la fonction publique de 15,000 personnes d'ici 1990-1991, d'autres mesures de recouvrement des coûts et de privatisation ainsi qu'un programme amélioré de cession des biens et de gestion de la trésorerie. Ces mesures ont été suivies par d'autres restrictions budgétaires totalisant 500 millions de dollars annoncées dans le Budget de février 1986.

Le climat de restriction a été appuyé au cours des dernières années par plusieurs mesures complémentaires. Mentionnons à ce chapitre le maintien de la politique adoptée en 1984, en vertu de laquelle les ministères doivent absorber, dans la plus grande mesure possible, les hausses des coûts de fonctionnement non salariaux; le gel visant les dépenses discrétionnaires en fin d'exercice annoncé en février 1986; et les efforts déployés dans des domaines tels que la gestion des biens immobiliers, la réforme de la réglementation et les méthodes de gestion.

dépenses passées et prévues

Le plan financier du gouvernement, présenté récemment par le ministre des Finances, englobe les prévisions de dépenses, les dépenses prévues, la situation budgétaire résultante, ainsi que les opérations financières non budgétaires. Pour un certain nombre d'exercices financiers.

Le tableau 2.1 présente les variations récentes des principaux éléments du plan de dépenses, lequel se compose d'une somme de 32 milliards de dollars affectés aux frais de la dette publique et de 100 milliards destinés aux dépenses de programmes. L'augmentation prévue des frais de la dette publique s'établit à 9,7 p. 100 et celle des dépenses de programmes à 4,3 p. 100.

La Partie I décrit les liens qui existent entre le Budget des dépenses principal et le volet *dépenses budgétaires* du plan financier. Du fait qu'il est le plus important élément des prévisions de dépenses budgétaires, le Budget des dépenses principal (Partie II) fournit énormément de détails sur l'ensemble des projets de dépenses du gouvernement pour l'exercice financier à venir qui commence le 1^{er} avril. Outre la description des autorisations de dépenses demandées par l'entremise du Budget des dépenses principales, le plan de dépenses annuel indique aussi les besoins qui pourraient devenir nécessaires au cours de l'exercice financier et qui seraient alors soumis individuellement au Parlement par l'entremise de budgets des dépenses supplémentaires.

Pour la quatrième année consécutive, les dépenses budgétaires devraient diminuer en pourcentage du produit intérieur brut (PIB), traduisant la volonté du gouvernement fédéral de continuer de restreindre les dépenses. Cette baisse, amorcée en 1985-1986, mettrait fin à une hausse ininterrompue pendant cinq ans de la proportion des dépenses budgétaires par rapport au PIB. Le graphique A illustre l'évolution des dépenses budgétaires totales, calculées en pourcentage du PIB, de 1979-1980 à 1988-1989. Entre 1979-1980 et 1984-1985, les dépenses budgétaires sont passées d'environ 19 p. 100 à près de 25 p. 100 du PIB. Elles ont descendu à moins de 23 p. 100 du PIB de 1985-1986 à 1987-1988 et on s'attend à ce que cette tendance se poursuive au cours de l'exercice à venir. L'augmentation annuelle moyenne de 4,9 p. 100 des dépenses budgétaires

Le chapitre 3 présente le plan de dépenses du point de vue plus détaillé des secteurs de dépenses et des enveloppes correspondantes. Les enveloppes y sont décrites par catégories de dépenses et programmes principaux. Plutôt que de présenter uniquement les changements affectant les niveaux de dépenses d'une année à l'autre, ce chapitre explique où et comment les fonds sont dépensés, en soulignant cependant les changements les plus importants qui se sont produits.

Le chapitre 4 présente les totaux, pour l'ensemble du gouvernement, des différentes catégories de paiements de transfert, des paiements aux sociétés d'État et des dépenses de fonctionnement et en capital. Il décrit également les principales composantes de chacune de ces catégories.

Le chapitre 5 traite des éléments contenus dans la Partie II du Budget des dépenses qui ne font pas partie du plan de dépenses. Ces articles, bien qu'ils requièrent l'approbation du Parlement, diffèrent des dépenses budgétaires en ceci qu'ils représentent plutôt des placements que des paiements de transfert ou des dépenses pour des travaux exécutés, des biens reçus ou des services rendus.

Budget des dépenses indique au Parlement le niveau et l'exercice à venir. Il a pour objet de renseigner les députés, à qui il incombe de comprendre et d'évaluer les révisions de dépenses et de demander des comptes au gouvernement. La Partie I fournit au Parlement un aperçu des prévisions qu'elle situe dans le contexte du cadre des dépenses globales, ou plan de dépenses.

Elle présente aussi des renseignements sur les enveloppes établies par le gouvernement pour divers secteurs de dépenses. Chaque enveloppe comprend le niveau de ressources allouées pour toutes les activités ministérielles dans le secteur de dépenses et établit les ressources affectées à la mise en oeuvre et à l'application des politiques et des programmes de ce secteur. D'autres fonds peuvent être affectés aux enveloppes tout au cours de l'année, à même les provisions pour éventualités (ou les réserves) non encore allouées aux enveloppes.

La Partie I du Budget des dépenses comprend cinq chapitres. Le chapitre 2 présente un aperçu du plan de dépenses et l'évolution des dépenses totales au cours des années, en soulignant la croissance relative des enveloppes. Il décrit les éléments qui composent le plan de dépenses de 1988-1989. Il traite en dernier lieu des années-personnes et donne un aperçu de l'ensemble des années-personnes reconnues pour 1988-1989 en mentionnant les objectifs con-

Plan de dépenses du gouvernement

Les documents budgétaires

Le Budget des dépenses du gouvernement du Canada est divisé en trois parties. Commençant par un aperçu des dépenses totales du gouvernement dans la Partie I, les documents deviennent de plus en plus détaillés. Dans la Partie II, les dépenses sont décrites selon les ministères, les organismes et les programmes. Cette partie renferme aussi le libellé proposé des conditions qui s'appliquent aux pouvoirs de dépenser qu'on demande au Parlement d'accorder. Dans les documents de la Partie III, on fournit des détails supplémentaires sur chacun des ministères ainsi que sur leurs programmes surtout axés sur les résultats attendus en contrepartie de l'argent dépensé.

Les instructions sur la façon de se procurer ces documents se trouvent sur le bon de commande qui accompagne la Partie II.

The Estimates Documents

The Estimates of the Government of Canada are structured in three Parts. Beginning with an overview of total government spending in Part I, the documents become increasingly more specific. Part II outlines spending according to departments, agencies and programs and contains the proposed wording of the conditions governing spending which Parliament will be asked to approve. The Part III documents provide additional detail on each department and its programs primarily in terms of the results expected for the money spent.

Instructions for obtaining each volume can be found on the order form enclosed with Part II.

Statutory Items in Main Estimates 1-54

Introduction

The purpose of these Estimates is to present to Parliament the budgetary and non-budgetary (loans, investments and advances) expenditure proposals of the government for the fiscal year 1988–89. These Estimates include items, referred to as Votes, which Parliament is asked to approve through an Appropriation Act, as well as other Statutory items, for which the required expenditures have already been approved through existing legislation and which are included only for information purposes. The proposals with respect to Voted items are conveyed formally in these Estimates in the wording and amount of the Votes which, when included in an Appropriation Act, become the governing conditions under which the expenditures may be made.

These Main Estimates (referred to as Part II of the Estimates) result from an extensive review of the form of the Estimates that began in 1980. The review was initiated in response to suggestions for simplifying information in Estimates as well as providing more information on the actual performance of government programs. Leading proponents for change included the Auditor General, the Public Accounts Committee and the Royal Commission on Financial Management and Accountability. Various needs were identified ranging from an aggregate multi-year expenditure plan, developed within the context of the overall fiscal plan and highlighting expenditure priorities over future years, to detailed information for all departmental and agency programs including, where possible, estimates of measurable results for money spent.

In response to these needs, a review of the Estimates was initiated resulting in the development of a three part concept. Extensive discussions were held with the Public Accounts Committee as well as individual Members of Parliament, culminating in a report tabled in the House of Commons by the Public Accounts Committee that strongly endorsed the three part concept and recommended that implementation proceed with priority. The report and its recommendations received unanimous consent.

Estimates are divided into three parts, with each part providing successively more information on government expenditure plans. Part I, tabled in Parliament for the first time in 1981–82, is titled the Government Expenditure Plan and provides an overview of federal spending. It examines the government's expenditure plan and situates the Main Estimates within that plan. It represents the point of accountability for the government for adherence to the expenditure plan.

Part II, the Main Estimates, is the document that directly supports the Appropriation Act, and was first tabled in this format in 1985–86. A description of its contents is provided later in this preface.

Concurrent with Parts I and II, Part III, titled Department Expenditure Plan, is tabled annually in Parliament by the President of the Treasury Board on behalf of the Ministers responsible for individual departments and agencies. The structure of each expenditure plan is modular, allowing access to increasing levels of detail on programs. It provides information on the objectives and results of individual programs, including linkages between resource requirements; results (both planned and realized); and objectives. This includes analysis by Object of Expenditure, the distribution of person-years by occupational category, a listing of major capital projects and derivation of the net program cost.

The basic structural units of the Main Estimates are the Votes and Statutory items which total the proposed expenditures under each departmental or agency program (defined as a collection of activities having the same objective or set of objectives). The following paragraphs outline the approach followed in presenting the Main Estimates.

All Estimates data shown for the previous year in Part II are taken from the Main Estimates for that year. This approach was adopted to ensure that all previous year numbers were displayed on a consistent basis, both across all departments and agencies as well as within the current year Main Estimates. In a number of cases, adjustments have been made to the 1987–88 Main Estimates amounts to reflect changes in organizational components, transfer of responsibility, or revised displays. This technique provides a more relevant basis for comparison.

1988–89 Main Estimates in Summary

There are five government-wide summary tables included in the Introduction. The first table identifies budgetary and non-budgetary Main Estimates by department and agency and by type of Parliamentary authority. Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures of government departments and agencies; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations. Loans, investments and advances, or non-budgetary expenditures, are outlays which represent changes in the value of the financial assets of the Government of Canada. Type of Parliamentary authority distinguishes between expenditures which are Statutory and those requiring annually Voted appropriations.

The second summary table shows the distribution of budgetary Main Estimates by department and agency and Standard Object of Expenditure. The twelve Standard Objects of Expenditure are described in the Appendix to this Preface.

The third summary table shows authorized person-years, by department and agency, for those departments and agencies whose person-years are subject to Treasury Board control. A person-year is the unit of control for personnel resources and refers to the employment of one person for one full year or the equivalent thereof (for example, the employment of three persons for four months each). A person-year may consist of regular time personnel (whether in Canada or abroad), continuing and non-continuing, full-time, part time, seasonal, term or casual employees as well as ministerial staff, Governor in Council appointees, and other types of employees. With few exceptions, the Treasury Board directly controls the person-years of departments and agencies listed in Schedule I, Parts I and II, of the Public Service Staff Relations Act.

The fourth table is the Proposed Schedule to the Appropriation Bill. This includes the Vote wording and Main Estimates amounts for all Votes that will be proposed to Parliament for approval.

The final table is titled "Statutory Items in Main Estimates". This table includes the current forecast of expenditures for each statutory authority within a program for which a financial requirement has been identified for inclusion in the Estimates. The purpose of this table is to provide Parliament with a comprehensive listing of all statutory expenditure forecasts that are included in these Estimates.

The Presentation by Ministry, Department and Agency

The programs for the departments and agencies for which a Minister is responsible or reports to Parliament are grouped together to provide a total ministry presentation. The ministries are then arranged in alphabetical order to make up the complete Main Estimates. The Ministries of State, which may be formed under authority of the Government Organization Act, 1970, involve a more restrictive meaning of the term Ministry than that used here. Ministries of State are treated as departments for presentation purposes in these Estimates.

Each ministry presentation will begin with a ministry summary table that shows, by Vote or Statutory item, the amount included in the Main Estimates for all programs comprising that Ministry. Abbreviated wordings are used in this table.

In general, the individual program presentation is made up of four sections, as explained below. Where a section is inappropriate to the nature of a program it does not appear in the presentation for that program.

Objectives

A statement of the Objectives for each program is provided.

Activity Descriptions

The program is then explained through a description of the work carried on in each activity in pursuit of program objectives.

The Program by Activities Table

This table is designed to show in one place the total financial and person-year resources proposed for the program. The amounts of Voted and Statutory authorities are combined and distributed across the activities of each program. Activities are presented vertically with expenditures for each activity under the headings of Operating, Capital, Transfer Payments (Grants and Contributions) and Loans, investments and advances displayed horizontally on the table. Revenue credited to the Vote, for those departments and agencies authorized to do so, and revenue associated with Revolving Funds is also included in this Table.

Receipts credited to general non-tax revenue and services provided without charge by other government departments are included in Part III.

Transfer Payments ⁵

The transfer payments related to the program are specified. A transfer payment is a grant, contribution, or other transfer payment for which no goods and services are received, made for the purpose of furthering program objectives. Grants contributions and other transfer payments differ in five respects. First, contributions are conditional transfer payments whereas grants are unconditional. Second, contributions are subject to audit, while grants are not. Third, contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing the payment, while grants do not. Fourth, other transfer payments are payments based on legislation or an arrangement which normally include a formula or schedule of payments as one element used to determine the annual amount; however, once a payment is made the recipient may redistribute the funds among the several categories of expenditure identified in the legislation or arrangement. Finally, the words shown in the Estimates describing a grant have a legislative character while those describing contributions and other transfer payments have only an informative character. The meaning of the word contributions in the vote wording is considered to include other transfer payments because of the similar characteristics that apply to each payment.

Revolving Funds

A Revolving Fund is a continuing or non-lapsing authorization by Parliament to make payments out of the Consolidated Revenue Fund up to a stipulated limit. As part of this authorization, these expenditure requirements can be offset, to the extent possible, by revenues generated.

There are two related but different measures of financial activity over the fiscal year in a Revolving Fund. The first measures profit or loss in a manner similar to any commercial enterprise. The second involves the level of cash necessary to meet the capital and operating requirements of the Fund. This relates to the use of the authorizations provided by Parliament. In order to reconcile these two items, it is necessary to adjust the calculated profit or loss for any entries, such as depreciation, that do not involve the outlay of cash. It is also necessary to include transactions that require cash but are not part of the profit or loss calculations. The normal items to be considered in this respect include the financing of net assets (working capital), new capital acquisitions and, in some cases, accumulated operating deficits. Because of its relationship to the Parliamentary authorization, it is this use of cash that is the primary focus of the display in Estimates.

Revolving Funds may be used to finance programs, activities within programs or parts of activities. If an entire program is funded through a Revolving Fund, the basic Program by Activities Table is supplemented by another table that shows the operating profit or loss of each activity of the program. A footnote to this table will reconcile the overall profit or loss to the Estimates cash requirement and make reference to Part III for further information.

If an activity of a program is entirely financed through a Revolving Fund, that activity will be shown on a cash basis in the Program by Activities Table. This display will then be footnoted to relate the expected operating loss or profit to the Estimates cash requirements and make reference to Part III for further information. When part of an activity is funded through a Revolving Fund, a footnote to the table will disclose the expected operating profit or loss, relate that balance to the Estimates cash requirement or make reference to Part III for further information.

Crown Corporations

The general principle followed in Part II of the Estimates is to provide information related to operations being funded through appropriations, rather than the corporate financial plan in its entirety. The Summaries of corporate plans and budgets, tabled separately, are intended to be the source of more detailed information for the use of parliamentarians in their review of Crown Corporations' spending.

Crown corporations for which appropriations are being requested can be displayed in one of two ways:

- (i) in some cases, the funding for a Crown Corporation forms part of a Program for a Department;
- (ii) in other cases, the Crown Corporation is treated separately, as an organization within a Department or Ministry.

In all cases, a separate presentation is provided for Crown Corporations displays (although in the case of (i) above the display is for information only and is entitled "further details"). Each Crown Corporation display consists of three standard sections:

- (a) Objective(s)
- (b) Description of Funding Through Appropriations
- (c) Summary of Funding Through Appropriations.

Objective(s)

This section describes the objectives of the Crown Corporation.

Description of Funding through Appropriations

This section outlines the major businesses and activities for which funding through appropriations is needed. The section also describes, to the extent disclosed in the Summary of Funding Through Appropriations, major categories of expenses.

Summary of Funding through Appropriations

This table provides details of financial requirements to be met through appropriations. Formats may vary according to the circumstances of individual corporations and the form of disclosure adopted in their summaries of corporate plans and budgets and their annual financial statements. The presentation:

- (i) separates budgetary and non-budgetary funding according to the major business and activities of the corporation;
- (ii) identifies the amount of budgetary funding required for operating purposes, acquisition of fixed assets and other non-current assets;
- (iii) if budgetary funds are required for operating purposes, identifies the planned expenses, revenues and non-cash or other adjustments upon which the request is based.

This table also shows person-year resources if they are controlled.

Vote Structure

In general, the program and Vote structure correspond in that there is usually only one Vote for each program. The wording of a Vote and its amount are included in an Appropriation Act which provides the authority and the limit for payments to be charged against the Vote; it does not create a commitment to spend the entire amount. There are, however, certain exceptions to the normal Vote structure as outlined in the following paragraphs.

Capital and Grants and Contributions

The most frequent departures from this concept occur when the capital or grants, contributions and other transfer payments expenditures for a program are large. Where capital expenditures within a program equal or exceed \$5 million, there is a "capital expenditures Vote" and where the total of transfer payments equals or exceeds \$5 million, there is a "transfer payments Vote", in addition to any Vote for operating expenditures. Capital expenditures are defined as those falling under Standard Objects 8 and 9, which cover the construction and acquisition of lands, buildings, works, machinery and equipment. Where a department expects to draw upon its own labour or supplies and materials or employs consultants for purposes of creating capital assets, the expected outlays under these headings are also included in capital expenditure Votes where such Votes are required. The inclusion of a grant, contribution or other transfer payment item in Estimates imposes no requirement to pay any or all of the amount, nor does it give a projective recipient any right to the funds.

Special Votes

Crown Corporation Deficits and Separate Legal

Entities – The one Vote to one program concept does not apply in situations where a separate Vote is established to cover the appropriation necessary for a payment to a Crown corporation or the expenditures of a legal entity where such expenditures are included in a larger program. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.

Occasionally, there are unique circumstances calling for special approaches to Vote structures. These include the Medical Services Program of National Health and Welfare, the two Treasury Board centrally financed Votes – Treasury Board Contingencies Vote and Treasury Board portion of the Employment Strategy, and the Canadian Security Intelligence Service.

Medical Services Program – The payments made for medical assistance to Indian bands and Indian and Inuit associations or groups under the Medical Services Program of the Department of National Health and Welfare are all in the contributions category which, since they exceed \$5 million in total, would ordinarily be included in a separate grants and contributions Vote. An exception is made in this case and the contributions under this program are carried in the operating expenditures Vote so as to allow the department flexibility to provide the required assistance in the most effective manner throughout the year, whether through contributions or through measures normally financed in the operating expenditures Vote.

Treasury Board Contingencies Vote – This Vote provides funds to meet expenditures of a miscellaneous character which cannot be foreseen when the Estimates are developed and to meet additional payroll costs, such as those arising out of collective bargaining agreements that come into effect in the Estimates Year and which exceed the provision for these costs included in individual Votes of departments and agencies. Allotments made from the Contingencies Vote in the course of the fiscal year are subsequently recouped through the Supplementary Estimates except for allotments for payroll purposes which do not reflect changes in the content or level of activity of the program to which they are made; these usually provide for increased rates of pay arising out of collective bargaining agreements. Following an approach similar to that used for the other non-salary allotments would require the inclusion in Supplementary Estimates of items in identical terms for most departments and agencies and would result in an inordinate increase in the size of the Supplementary Estimates document without a corresponding increase in its informative character. It is for this reason that allotments for payroll purposes are not recouped.

Treasury Board portion of the Employment Strategy – This Vote provides for the supplementing of other Votes for portions of the Employment Strategy Program which could not be included in the appropriate Votes of the departments or agencies at the time the Estimates were prepared. Treasury Board supplements Votes in other departments or agencies on the basis of component programs whose levels are determined annually.

Canadian Security Intelligence Service – For administrative purposes, all operating and capital expenditures have been combined in a single Program Expenditures Vote.

Summary

In summary, the following kinds of Votes occur in the Estimates in addition to Statutory items and with the exceptions noted above.

(a) Program Expenditures Votes – This type of Vote occurs where there is no requirement for either a separate “capital expenditures” Vote or a “grants and contributions” Vote because neither of these proposed expenditures equals or exceeds \$5 million. In these cases, all expenditures of the program will be charged to the program expenditures Vote.

- (b) Operating Expenditures Votes – This type of Vote will be used to cover operating expenditures when there is at the same time a requirement for either a capital expenditures Vote or a grants and contributions Vote or both. When an operating expenditures Vote is used and there is no requirement for a capital expenditures Vote, that is when capital expenditures do not equal or exceed \$5 million, capital expenditures will be included in the operating expenditures Vote. Where an operating expenditures Vote is used and there is no requirement for a grants and contributions Vote, that is when grants and contributions do not equal or exceed \$5 million, grants and contributions will be included in the operating expenditures Vote.
- (c) Capital Expenditures Votes – This type of Vote will be used when the capital expenditures in a program equal or exceed \$5 million.
- (d) Grants and Contributions Votes – This type of Vote will be used when the amount of grants and contributions in a program equals or exceeds \$5 million.
- (e) Non-Budgetary Votes – This type of Vote, preceded by the letter L, is used for non-budgetary items such as loans or advances to and investments in Crown Corporations; loans or advances for specific purposes to other governments and international organizations or persons or corporations in the private sector.

The words “the grants listed in the Estimates and contributions/other transfer payments” will be added to the standard Vote wording where grants, contributions and/or other transfer payments are included in the Vote. Where there are contributions/other transfer payments only, the words “the grants listed in the Estimates” are eliminated, and where there are grants only, the words “and contributions/other transfer payments” are eliminated. Should the need arise in the course of the year for contributions/other transfer payments in a program where the Vote wording in Estimates does not mention these types of expenditure, they could be charged to the program expenditures Vote or the operating expenditures Vote, depending on the type of Vote that had been used for the program, provided that the expenditure falls within the ambit of the Vote.

Changes in 1988–89 Estimates

The purpose of this section is two-fold. As in previous years, it will describe changes in Vote, program and other presentations in order to permit reconciliation of the 1987–88 Main Estimates with the 1988–89 Estimates. In addition, this section will detail those Votes that contain specific authority that differs from that included in the previous year's Main Estimates as well as new expenditure authorities appearing for the first time. In light of the Speaker's rulings, the government has made a commitment that the only legislation that will be amended through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts. Specific changes in format or authority and any new authorities are detailed below:

Agriculture— Payments associated with Special Grains program in the Grains and Oilseeds Program are forecast to be \$292.3 million which requires the introduction of a specific Transfer Payments Vote in the Estimates.

Farm Credit Corporation— The 1987–88 Main Estimates contained a budgetary vote for payments to the Farm Credit Corporation. This authority is not required in the 1988–89 Main Estimates.

Atlantic Canada Opportunities Agency— This agency was established during the 1987–88 fiscal year and is appearing in the Main Estimates for the first time. Three votes are provided for the agency: two votes are associated with budgetary expenditures while the third seeks authority to make loans to specified Cape Breton industries.

National Archives of Canada— The National Archives of Canada Act was passed by Parliament during the 1987–88 fiscal year. This agency, in effect, replaces the former Public Archives and is appearing in the 1988–89 Main Estimates for the first time. Similarly a vote for the Public Archives is not required in these Main Estimates.

National Museums of Canada— The Operating expenditures vote wording is amended to provide authority for transfer payments. The National Programs Activity of the corporation was transferred to the Department of Communications during 1987–88. A large part of the transfer included resources associated with transfer payments which has caused the level of transfer payments requirements to fall below \$5 million.

Accordingly a separate transfer payments vote is not required in these Estimates.

Canada Post Corporation— The 1987–88 Main Estimates included a vote to provide for payments to the Corporation for capital equipment and other costs which will benefit future users of postal services. The vote is not required in these Estimates.

Hazardous Materials Information Review

Commission— This agency is appearing in the Main Estimates for the first time.

Employment and Immigration— The vote wording in the 1988–89 Main Estimates Immigration Program has been amended to delete the authority for grants.

Energy Mines and Resources— The 1987–88 Main Estimates provided authority for payments under the Petroleum Incentives Program Act. The name of the Act has been changed to the Canadian Exploration and Development Incentive Program Act.

Canadian International Development Agency— The 1987–88 Main Estimates provided authority to issue non-interest bearing, non-negotiable demand notes to the African Development Bank, the Inter-American Development Bank, the Asian Development Bank and the Caribbean Development Bank. In the 1988–89 Estimates, the only authority requested relates to the African Development Bank.

Finance— The 1987–88 Main Estimates provided authority to make a payment to the International Finance Corporation in accordance with the Breton Woods and Related Agreements Act. The 1988–89 Main Estimates seeks authority under the Act to make payments to the International Bank for Reconstruction and Development and the International Finance Corporation.

Finance— The Inspector General of Banks Program was terminated during 1987–88 and does not appear in the 1988–89 Main Estimates.

Department of Insurance— This department was terminated in 1987–88.

Superintendent of Financial Institutions— This agency was created by legislation during 1987–88 with a mandate that includes the responsibilities of the former Department of Insurance and the Inspector General of Banks Program. It is appearing in the Main Estimates for the first time.

Governor General— The vote wording has been extended to provide authority for the payment of grants.

Indian Affairs and Northern Development— The Indian and Inuit Affairs Program contains a new non-budgetary vote which seeks authority to make loans to the Council of Yukon Indians. The vote last appeared in the 1986–87 Main Estimates in the former Native Claims Program.

Northern Canada Power Commission— A new non-budgetary vote is included in the 1988–89 Main Estimates to provide loans to the corporation. A similar authority appeared in the 1986–87 Main Estimates.

Western Diversification Office— This agency was established during the 1987–88 fiscal year and is appearing in the Main Estimates for the first time. Two votes are provided for the agency: one seeks authority for operating expenditures while the other seeks authority for transfer payments.

National Health and Welfare— The vote wording of the XV Olympic Winter Games Program has been amended to delete the authority for contribution payments.

Public Works—The 1987–88 Main Estimates for the Services Program of Public Works contained a vote to reimburse the Public Works Revolving Fund for indirect expenditures that it could not charge its client departments and agencies and a vote to provide for capital expenditures. With the advent of a total revenue dependency posture in the Services Program, these votes are no longer required.

Public Works—The 1987–88 Main Estimates for the Government Realty Assets Support Program contained a budgetary vote for payments to Canada Lands Company (Vieux-Port de Québec) Inc. This authority is not required in the 1988–89 Main Estimates.

Public Works—A new vote to provide for payments to the Canada Lands Company (Le Vieux-Port de Montréal) Limited to provide for operating and capital expenditures is included in the 1988–89 Main Estimates for the Government Realty Assets Support Program. This authority appeared previously in the 1986–87 Main Estimates.

Public Works—The 1987–88 Main Estimates contained a budgetary vote to provide payments to Defence Construction (1951) Limited. This authority is not required in the 1988–89 Main Estimates.

Regional Industrial Expansion—The 1987–88 Main Estimates contained a non-budgetary vote to provide payments pursuant to the Atlantic Fisheries Restructuring Act. This authority is not required in the 1988–89 Main Estimates.

Cape Breton Development Corporation—The 1987–88 Main Estimates contained a vote to provide for payments related to operating and maintenance losses of the Corporation related to properties acquired under the Cape Breton Development Corporation Act. This authority is not required in the 1988–89 Main Estimates.

Royal Canadian Mounted Police External Review Committee—This agency is appearing as a separate Program in the Main Estimates for the first time in 1988–89. Resources associated with this activity in 1987–88 were included as part of the Solicitor General (Department) Program.

Transport—The 1987–88 Main Estimates contained a vote to provide payments to the St. Lawrence Seaway Authority to provide for an enhanced maintenance program of the Welland Canal. The 1988–89 vote wording has been adjusted to remove certain words which merely restated an authority that Parliament has already delegated to the Treasury Board in the Financial Administration Act.

Transport—The 1987–88 Main Estimates contained a vote to provide for a loan to the St. John's Port Corporation in accordance with terms and conditions to be approved by the Governor in Council. The terms and conditions of the loan have been approved; accordingly reference to the Governor in Council is not required in the 1988–89 Main Estimates.

Canadian Transport Commission/National Transportation Agency—Pursuant to the National Transportation Act 1986, the activities of the Canadian Transport Commission were terminated and a new agency with a more widespread mandate was created. Accordingly the National Transportation Agency is appearing for the first time in the 1988–89 Main Estimates.

Treasury Board—As part of the Master Agreement concluded between the Treasury Board and most unions representing employees for whom Treasury Board is the employer, a new Public Service Dental Plan was introduced in 1987. Part of this agreement provides that the employee's share of the premium reduction under Section 64(4) of the Unemployment Insurance Act 1971 will be paid directly to the dental plan insurer.

Accordingly a minor change to the vote wording in the Employer Contribution to Insurance Plans Program has been made to provide for these amounts to be paid directly to the insurer.

Veterans Affairs—The Veterans Appeal Board was established as a new Program in the Veterans Affairs Ministry. Part of the mandate for the Board includes the activities of the former War Veterans Allowance Board Program and the Pension Review Board Program. Accordingly a new vote for the Veterans Appeal Board has been established in the 1988–89 Main Estimates and the votes associated with the two former Boards are no longer required.

Budgetary estimates can be distributed across the following twelve Standard Objects of Expenditure:

1. Personnel
2. Transportation and Communications
3. Information
4. Professional and Special Services
5. Rentals
6. Purchased Repair and Maintenance
7. Utilities, Materials and Supplies
8. Construction and/or Acquisition of Land, Buildings, and Works
9. Construction and/or Acquisition of Machinery and Equipment
10. Transfer Payments
11. Public Debt Charges
12. Other Subsidies and Payments

There is, in addition, a revenue object, number 13, to cover revenues that may be credited to a Vote. In certain specific situations, Parliament authorizes departments or agencies to spend revenues generated from their operations in the same manner as any funds appropriated through that Vote. A brief explanation of each Standard Object follows.

1. Personnel

Includes salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown Corporations, as well as members of the military and the RCMP. Also included are Judges' salaries, those of the Governor General, the Lieutenant-Governors and the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees, such as Living, Terminable, Foreign Service, Isolated Post, and board and subsistence allowances, shift differential allowances for assistants, and other such allowances. In addition, it includes Minister's Motor Car Allowances, and the Expense Allowances to Senators and Members of the House of Commons.

Also included in this group are the government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Public Service Death Benefit Account and the Unemployment Insurance Account), the Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account; and Government's contribution to provincial and other medical and hospital insurance plans. Also includes supplementary personnel costs for various purposes.

2. Transportation and Communications

Includes travelling and transportation expenses of government employees, Members of the Defence Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependents, and living and other expenses of such persons on travel status; Judges' travelling expenses, and travelling expenses and allowances payable to Senators and Members of the House of Commons. Also includes transportation of persons by contract and chartered facilities or by other means, including travelling expenses of persons engaged in field survey work, inspections and investigations. Also includes travelling and transportation of non-Government employees such as travel costs of veterans who are applicants for treatment or pensions.

Includes ordinary postage, air mail, registered mail, parcel post special delivery mail, post office box rentals, and any other postal charges.

Also includes the expenditures for transportation of goods other than initial delivery cost on a purchase (which is included in the Standard Object covering the cost of the purchase itself) including charges for courier services provided by outside carriers.

Includes all costs of telecommunication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

3. Information

This Standard Object contains three main categories of expenditures.

Advertising services 9

Includes advertising services acquired for publicity and general purposes from advertising agencies or directly for time on broadcast media or for space in print media or on outdoor posters or billboards. It includes advertising and creative work services such as graphic artwork.

Publishing, printing and exposition services

Includes publishing services for commissioning, marketing, distribution and sales of publications sponsored by the department, and for the acquisition of related government publications. Also included are printing services for printing, duplicating, photocopying, text editing, design of graphics, art work, technical and advisory services such as computerized text processing and mass transmission of printed material. In addition, it includes exposition services such as exhibits and associated audio-visual services related to exhibitions and displays.

Public Relations and Public Affairs Services.

Includes services for attitude surveys, sales promotion, marketing, export marketing, public relations and publicity. Services for speech writing, press releases, briefing, press conferences and special events. Public Affairs Services for attitude surveys, opinion polls, service assessment survey, contracts to organize and operate focus groups and media monitoring services.

4. Professional and Special Services

Includes provision for all professional services performed by individuals or organizations such as payments in the nature of fees, commissions etc. for the services of accountants, lawyers, architects, engineers, scientific analysts, reporters, and translators; for teachers at various levels of educational institutions; for doctors, nurses and other medical personnel; for management, data processing and other research consultants; and for other outside technical, professional and other expert assistance.

Includes payments for hospital treatment, care of veterans and welfare services, payments for the provision of services at computer service bureaus, payment of tuition for Indians at non-federal schools, purchase of training services under the Adult Occupational Training Act, and payments made to the Public Service Commission for training.

Includes payments for Corps of Commissionaires services and for other operational and maintenance services performed under contracts, such as armoured cars, laundry and dry cleaning, cleaning of buildings, temporary help, hospitality, storage and warehousing, and other business services, as well as payments made to DSS for contract administration.

5. Rentals

Includes provision for rentals of all kinds: rental of properties required for special purposes by the various departments and for the accommodation of government offices and services by the Department of Public Works; hire and charter – with or without crew – of vessels, aircraft, motor vehicles and other equipment; and rental of telecommunication and office equipment including computers. Storage and warehousing services is however in Standard Object 4 even though it involves the rental of space.

6. Purchased Repair and Maintenance

Provision is made in this Standard Object for the repair and upkeep under contract of the durable physical assets provided for in Standard Object 8 and of equipment provided for in Standard Object 9. Also included in this object are payments to Public Works for tenant services. Materials, supplies and other charges entering into the cost of such repairs undertaken by a department directly are coded to other objects, according to the nature of the purchase.

7. Utilities, Materials and Supplies

Included here is the provision for all payments for services of a type normally provided by a municipality, or public utility service such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, school fees, and payment for such services whether obtained from the municipality or elsewhere.

It also includes provision for materials and supplies required for normal operation and maintenance of government services such as gasoline and oil purchased in bulk; fuel for ships, planes, transport, heating, etc.; feed for livestock; food and other supplies for ships and other establishments; livestock purchased for ultimate consumption or resale; seed for farming operations; food, clothing and other supplies for sick and indigent Indians; text books and school supplies purchased for Indian schools; books and other publications purchased for outside distribution; uniforms and kits; photographs, maps and charts purchased for administrative and operational purposes; laboratory and scientific supplies, including samples for testing; drafting, blueprinting and artists' supplies; supplies for surveys, investigations, etc.; chemicals; hospital, surgical and medical supplies; works of art for exhibits, and historical material for galleries, museums and archives; char service supplies; coal and wood; electrical supplies; repair parts other than parts normally acquired with equipment at the time of purchase for aircraft, ships, road vehicles, and for communication and other equipment; and all other materials and supplies.

Machinery and equipment, and attachments and accessories for such machinery costing less than \$500 are included here. Those costing more than \$500 are included in Standard Object 9.

8. Construction and/or Acquisition of Land, Buildings, and Works

Includes provision for all expenditures pursuant to contracts for new construction of buildings, roads, irrigation works, canals, airports, wharves, bridges and other such types of fixed assets, and reconstruction of such types of physical assets, improvements involving additions or changes of a structural nature, and also for installing fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment, etc. It includes all such projects performed under contract or agreement. The purchase of land is also included. Expenditures for casual employees hired or continuing employees assigned to work full or part time on specified projects, and of materials purchased directly for use on such projects are, however, charged to Standard Objects 1 or 7 respectively.

9. Construction and/or Acquisition of Machinery and Equipment

Includes expenditures for all machinery, equipment, office furniture and furnishings, E.D.P. and electronic or other office equipment; microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment; motor vehicles, aeroplanes, tractors, road equipment, telecommunications and related equipment, laboratory and other scientific equipment, vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; includes ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts and supplies as are normally acquired with that equipment at the time of purchase.

Machinery and equipment, and attachments and accessories for such machinery costing more than \$500 are included here. Those costing less than \$500 are included in Standard Object 7.

10. Transfer Payments

Transfer payments comprise grants, contributions, subsidies and all payments made by government for which no goods or services are received.

This category includes the major social assistance payments made to persons such as Old Age Security benefits and related allowances, Family Allowances, Veterans' pensions and allowances; subsidies and payments to the provinces and territories under the Constitution Acts, the Federal-Provincial Fiscal Arrangements and Federal-Post Secondary Education and Health Contributions Act, 1977 and other statutes for medicare, hospital insurance, and official languages and for the Canada Assistance Plan; subsidies and capital assistance to industry including the oil import compensation payments; research grants and other assistance towards research carried on by non-governmental organizations; scholarships; sustaining grants to many national non-profit organizations; payments to municipalities for grants in lieu of taxes; contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the UN.

Most of the payments in this Object are identified in the Estimates Details as "Grants" or "Contributions". The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose; the latter are conditional and subject to audit and are not so restricted.

11. Public Debt Charges

Includes interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds. It also includes cost of issuing new loans, amortization of bond discount, premiums and commissions, and the costs of servicing the Public Debt.

12. Other Subsidies and Payments

Includes payments to Crown and some other government corporations or organizations, and to certain non-budgetary accounts, as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as "Sundries". Payments made to Crown corporations include those made to provide for operating deficits as well as other transfers paid to Crown corporations; payments to other government controlled corporations or organizations include those made to entities such as the National Arts Centre. Payments made to non-budgetary accounts include the government contributions to the unemployment insurance, western grain stabilization and agricultural commodities stabilization accounts as well as benefits under the Veterans Land Act.

Miscellaneous expenditures includes licences, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees, loss of personal effects, and expenditures for small miscellaneous articles and services. Also included are many small items and services which do not lend themselves to identification under specific headings detailed in this summary.

13. Revenues Credited to the Vote

Revenues credited to the Vote in accordance with Parliamentary authority, are coded in this Standard Object. Major items include rentals received on government-owned buildings and equipment; receipts from the provision of police services to other levels of government; receipts of revolving funds; as well as recoveries of costs from provincial governments, other national governments, and from other departments and agencies.

Agriculture

Canadian Dairy Commission

Objective

To provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers with a continuous and adequate supply of dairy products of high quality.

Description of Funding Through Appropriations

Administration and Operations

Determination of Target Price for manufacturing milk and cream, coordination of National Supply Management of industrial milk production, product price support through nation wide offer to purchase butter and skim milk powder, payment of subsidy to milk producers on eligible milk and cream shipments, domestic and international marketing of certain dairy products, economic analysis and evaluation, expenses of the commissioners and the administrative support staff in managing these programs.

The federal government covers, in the Agri-Food Program of Agriculture Canada, the funding of subsidies and the carrying charges associated with the financing of the purchase, handling and storage of skim milk powder associated with the production of milk to meet domestic requirements on a butterfat basis. Producers are responsible for the carrying charges associated with butter and all other production surplus to domestic requirements and production for the export quota.

Note: The Government Telecommunications Agency activity is funded through the use of a Revolving Fund. The Estimates shown on this table refer to the cash requirements for the Fund over the fiscal year. These do not directly reflect the operating profit or loss that the Fund will realize since the latter is calculated on an accrual accounting basis. Therefore, some cash expenditures included in the Estimates do not impact upon the operating balance and certain other items that must be taken into consideration in calculating the profit or loss do not require a direct cash expenditure. The two can be reconciled as follows:

Canadian Broadcasting Corporation

Objective

To develop and provide a national broadcasting service for all Canadians in both official languages, in television and radio, and an international service, both of which should be primarily Canadian in content and character.

Description of Funding Through Appropriations

The main activities of the Corporation in the attainment of its objectives are set out below under the main captions of National Broadcasting Service and Capital Activities.

National Broadcasting Service

Programs: This activity includes all broadcasting services, whether radio or television, French or English national, regional, or local. It embraces:

- the planning of individual broadcasts and the broadcast schedules to meet the objectives outlined,
- the procurement of programs from other production agencies which assist in meeting the objectives, and
- production of programs live, on film, or on magnetic tape, or other such broadcast recording techniques as may be appropriate.

Distribution: The distribution of the national broadcasting service to all possible parts of Canada through corporations or privately-owned outlets. The methods of delivery include satellite, microwave, landlines, and the shipping of film and tapes. Included in this activity is the provision of the signal that delivers the service to the individual radio and television receiver through Corporation-owned transmitters, payments to privately-owned affiliates carrying Corporation programs, low power transmitters to serve sparsely populated areas, and facilities to delay or pre-release broadcasts as required in the time zones throughout the nation.

Operational Management and Services: This activity embraces those support services located at the various production/transmission centres, such as local management, program supervision, engineering services and the necessary personnel, financial and administration services.

Selling Expenses (including commissions to agencies and networks): The sales and marketing effort necessary to program and time sales to advertisers. It also includes commissions paid to other broadcasting networks for programs or to advertising agencies for sales of network air time or programs.

Radio Canada International: This activity embraces English, French and foreign language program production for, and the transmission to, foreign countries as a direct means of projecting abroad a Canadian image, the development of interest in Canada in potential immigrants and tourists, and the maintenance of a personal link between Canadians and their relatives and countrymen abroad, as an indirect promotion aid for foreign policy, trade, etc.

Corporate Engineering Services: This activity includes applied research, development, and training in the fields of broadcast production and distribution technology; the provision of architectural and design services; establishment of technical standards; and supervision over and/or installation of major capital projects.

Corporate Management Services: Those functions which must be discharged on a corporate basis are included in this activity. These comprise executive direction; policy and standards formulation; corporate planning co-ordination and external relations. Also included are some support services which remain centralized for economic reasons, such as payroll, legal services, program research, statistics, etc.

National Film Board

Objective

To produce and distribute films for Canadian audiences and foreign markets, to enhance knowledge of Canadian social and cultural realities and, by so doing, to contribute to the development of a flourishing film industry.

Activity Description

National Film Board Operations

The main activity of the Board is divided into five basic functions to achieve its objective:

- Programming includes development, production and marketing of films and other visual material for Canadian audiences and foreign markets.
- Distribution provides the Canadian public with maximum access to NFB productions as well as to a selection of films produced by other Canadian organizations and to films sponsored by government departments, through the Board's national film library network and agreements signed with public institutions.
- Technical Research initiates and develops projects to advance the art and technology of cinematography.
- Training applies solely to training in filmmaking skills for filmmakers and technicians outside the Board either through training periods or support to film training programs or organizations.
- Administration includes executive management and the provision of personnel, finance and general administration services.

Employment and Insurance Program

Objective

To develop and apply a framework of policies and programs necessary for the efficient functioning of the Canadian labour market consistent with national, social and economic goals in a manner which promotes:

- a labour force which meets national occupational requirements;
- an economy capable of growth and adaptation without undue burden on individuals, groups and regions; and
- equality of opportunity to compete for and have access to jobs.

Activity Description

Human Resource Development Programs

To increase the marketability and employability of Canadians, expand employment opportunities, and to meet the needs of the labour market, by developing, and adapting the skill base through a combination of work-experience and training, mobilization of community resources, and human resource planning and adjustment measures necessary for the efficient functioning of the Canadian labour market.

National Employment Services

Provide workers, client employers and institutions with the necessary information on which to base labour market decisions; match job opportunities with available workers so that employers get the skilled workers they need in a timely and effective manner; encourage private sector human resource planning and provide counselling and advice so that enterprises and individuals make appropriate adjustment to changing labour conditions; and promote and support equity in employment for all residents of Canada.

Unemployment Insurance

To determine eligibility to receive temporary income to qualified workers during periods of unemployment; to protect the integrity of the U.I. Account through the prevention, deterrence or detection of abuse, misuse and fraud; to maintain the legislative base for Unemployment Insurance and the development of appropriate policies and procedures for its administration. This activity also includes the Government's Contribution to the U.I. Account and the Government's Contribution in respect of Fishermen's Benefits.

Program Management and Joint Services

The Management of the delivery of services to the public, the delivery of joint program services to the public and the development of requisite legislative, regulatory and program policies.

Department/Commission

Immigration Program

Objective

To contribute to the economic, social, humanitarian and cultural interests of Canada and to meet our international responsibilities through the administration and admission of immigrants and visitors to Canada, settlement of immigrants in Canada, and the provision of effective control of persons seeking to come into or remain in Canada, taking into account the health, safety and security of Canada.

Activity Description

Program Operations

To admit, manage and control immigrants, temporary foreign workers, foreign students and other visitors; to develop and establish procedures, guidelines and instructions so that officers of the Department of External Affairs, officers of Revenue Canada Customs and Excise, officers of the Royal Canadian Mounted Police, and Immigration officers can differentiate among non-Canadians who should be admitted to, denied admission to, allowed to remain in, or removed from Canada.

Settlement

To facilitate the settlement and adaptation of recently arrived permanent residents (i.e. immigrants and refugees) so they may become fully participating members of Canadian society as quickly as possible, within reasonable and practical resource parameters.

Adjudication

To adjudicate cases with respect to admission to Canada or removal therefrom, and detention or release during the inquiry and removal process.

Refugee Status Advisory Committee

To administer, in conjunction with the Immigration Sector (EIC), Canada's international legal obligations with respect to Convention refugees as outlined in Sections 45–48 of the Immigration Act, 1976 and to provide advice to the Minister of State on matters relating to the protection of Convention refugees in Canada.

Management and Policy Development

To provide the direction, planning, control and coordination necessary to ensure the effective and efficient use of Immigration program resources, and develop policies and programs for the admission and control of immigrants, temporary workers, foreign students and other visitors, including the management of immigration levels and provision of policy direction to the Department of External Affairs which is responsible for Immigration operations abroad.

Immigration Appeal Board

Objective

To make available to persons who have been ordered removed from Canada or to persons in Canada whose relatives have been refused admission to Canada, an independent court to which they may appeal such decisions, not only on legal grounds, but also on discretionary grounds; and to permit the redetermination of refugee claims.

Activity Description

The Immigration Act, 1976, provides the Board, which is a court of record, with broad discretionary powers to permit the temporary or permanent admission of individuals, notwithstanding contrary provisions of the Immigration Act.

Immigration Appeal Board

Provides for the operation of an Immigration Appeal Board as authorized by the Immigration Act, 1976, and in particular for the legal and administrative processes involved in: appeals by individuals against removal; application for release from detention; redetermination of refugee claims; and the refusal of admission of sponsored relatives ordered under the provisions of the Immigration Act or Regulations.

Energy, Mines and Resources

Department

Energy Program

Objective

To establish and maintain effective policies, strategies and programs for the adequate supply and efficient use of energy resources, with due respect for other social and economic goals.

Activity Description

Energy Policy

Provides energy strategy analyses to determine economic, social, regional and environmental costs and benefits of energy policy alternatives preparatory to making policy recommendations; provides financial and fiscal analyses directed in particular to policies pertaining to corporations and energy projects; initiates special studies covering all energy policy aspects of major sectors of the energy economy; undertakes macroeconomic appraisals of the economy in relation to energy; participates in international energy analysis and liaison, multilaterally and bilaterally, program co-ordination; and monitors and analyses developments related to the petroleum industry.

Energy Commodities

Assesses Canada's oil, gas, uranium, nuclear energy and hydroelectric resources and requirements along with those for alternative transportation fuels; the conditions of their utilization and development; the requirement for foreign oil to meet Canadian needs; the adaptation of the refining, petrochemical, transportation, marketing and electric generation sectors of the energy industry to changing circumstances; the condition of energy markets, domestic and foreign, and the analysis of factors affecting these markets. Prepares, maintains and tests contingency plans for the control and regulation of energy production, distribution and use in an emergency.

Conservation and Renewable Energy

Analyzes energy demand in various sectors of the economy to determine the potential for improvements in energy efficiency; analyzes the need for research, product development, industrial capability and financial incentives to achieve that potential; develops policies and programs which encourage energy conservation and efficiency through the dissemination of information and the provision of advice, grants and contributions, research and demonstration projects; develops and implements policies and programs to promote the orderly development of renewable energy technologies to ensure long term energy supply for Canada.

Petroleum Ownership, Control and Incentives

Administers the Petroleum Incentives Program (PIP) Act during its phase-out, and the Canadian Ownership and Control Determination Act including support for PIP applications and audits.

Canadian Exploration and Development Incentive

Provides payments under the Canadian Exploration and Development Incentive Program Act, to qualified persons (corporations, trusts and individuals) who incur eligible exploration and development expenses in Canada

Administration of Frontier Oil and Gas Lands

Prepares regulations and legislation; negotiates, disposes and manages oil and gas rights; approves development and production plans; supervises and regulates oil and gas activities; evaluates oil and gas potential, negotiates and monitors Canada benefits; sets environmental conditions, including oil spill contingency plans, promotes applied research on oil and gas matters related to the approval process; and co-ordinates interdepartmental and intergovernmental co-operative resource management efforts.

Program Support

Provides direct financial and personnel support services to the organizations carrying out the activities of the Energy Program.

Energy, Mines and Resources Department

Minerals and Earth Sciences Program

Objective

To ensure the timely availability of mineral policies, strategies and programs designed to maximize the contribution of the minerals and metals sector to the Canadian economy, and to provide timely scientific knowledge, data, technologies and expertise in the earth- and mineral-related sciences, with emphasis on the mineral and energy resources of the Canadian landmass and offshore areas.

Activity Description

Mineral Policy and Programs

Develops and implements an integrated approach to mineral policy and mineral program planning; provides policy advice to the Minister, Minister of State, senior officials, other federal departments, other governments and industry on mineral products, markets, economics and environmental impacts; negotiates, co-ordinates and administers mineral development agreements with the provinces and territories; and manages commodity-specific programs.

Administration of the Canada Explosives Act

Regulates throughout Canada, the manufacture, importation, storage, and sale of explosives by inspecting and licensing factories and magazines; tests and authorizes explosives; provides technical advice to other governmental agencies (international, federal and provincial); and provides training courses on explosives safety.

Mineral and Energy Technology

Conducts research and engineering development in mineral and energy technology, including mining, mineral extraction and processing, metallurgy, utilization of metals and materials, and the supply, conversion and utilization of heavy oil, oil sands, coal, uranium and other fuels, together with selected areas of energy conservation and energy fuels transportation; promotes, co-ordinates and supports R & D in industry, universities and research institutes in the mineral and energy fields; identifies technological opportunities in mining, metallurgy, and in energy; and transfers technology to the private sector.

Geological Surveys

Conducts geological, geophysical and geochemical research and surveys; operates national networks of geophysical observatories; estimates mineral and non-renewable energy resources; investigates geological phenomena posing hazards to human activities and the environment; develops geophysical and other technologies; develops national geoscience standards; fosters Canadian geoscience and Canadian participation in international geoscience; co-operates with the provinces; provides advice to governments; and produces and disseminates maps and reports.

Polar Continental Shelf

Provides co-ordinated logistic support to public and private sector groups conducting scientific studies in the Arctic; provides professional, technical and managerial advice and support to clients; and provides information about scientific operations in the Arctic to the scientific community and to the local inhabitants.

Surveying and Mapping

Establishes and maintains a national network of accurately positioned horizontal and vertical reference monuments; acquires and maintains topographical and geographical information on the Canadian landmass; prepares, publishes and distributes topographical and electoral maps, aeronautical charts and publications, aerial photographs, gazetteers and the "National Atlas of Canada"; regulates and manages property surveys on federal lands; and maintains international boundaries.

Energy, Mines and Resources

Department

Minerals and Earth Sciences Program

Remote Sensing

Revises, processes, archives and disseminates data from remote sensing satellites; provides airborne remote sensing for research and demonstration projects; develops the full range of satellite and airborne remote sensing technology from sensor to image analysis systems; transfers the resulting technology to Canadian industry; supports the technology and applied R&D by industry, universities and governmental agencies; and provides technical assistance to operational users of remote sensing for resource management and environmental monitoring.

Program Support

Provides direct financial, personnel, facilities and technical field support services to the organizations carrying out the activities of the Minerals and Earth Sciences Program. Develops federal R&D policies to support national energy strategy options; develops and implements plans for R&D activities in response to the policies previously noted; collects, analyses and disseminates information on research, development and demonstration activities in federal and provincial departments and agencies, industry, universities, and internationally, provides advice on allocation of federal R&D resources.

Atomic Energy Control Board

Objective

To control atomic energy in the interests of health and safety and national security.

Activity Description

Administration of Atomic Energy Control Regulations and Participation in Measures for International Control of Atomic Energy

The making of regulations for developing, controlling, supervising and licensing the production, application and use of atomic energy; the regulating of the mining, refining, production, processing, import, export, transport, possession, ownership, use or sale of prescribed substances; the defining of standards to be met, the assessing of the capabilities of licence applicants to meet these standards and to assure their maintenance, and the inspecting to ensure compliance; the conducting of mission-oriented research and development to obtain data essential for the effective implementation of licensing and compliance activities; and the designating, under the Nuclear Liability Act, of nuclear installations and the prescribing of the basic insurance to be carried by the operators of such installations; the developing of specialized safeguards techniques and equipment in respect of CANDU reactors in Canada and abroad, in co-operation with Atomic Energy of Canada Limited and the International Atomic Energy Agency in accordance with the Treaty on the Non-Proliferation of Nuclear Weapons.

Energy, Mines and Resources

Atomic Energy of Canada Limited

Objective

To develop the utilization of atomic energy for peaceful purposes.

Description of Funding Through Appropriations

Nuclear Research and Development

Operates national nuclear laboratories at Chalk River and Whiteshell to provide the multi-disciplinary technology base underlying the Canadian atomic energy program.

Undertakes applied research and development on existing and future nuclear power reactors, fuel cycles and systems, environmental protection, radioactive waste management and safeguards systems to:

- (i) secure for Canada a safe, reliable, long-term energy supply;
- (ii) increase the utilization of atomic energy to overcome future energy shortages;
- (iii) secure the CANDU option by improving reactor efficiency, integrity, and safety;
- (iv) demonstrate the safe management of radioactive wastes and other by-products.

Undertakes underlying research on the fundamental physics of matter, on the properties of materials, on chemistry including that fundamental to fuel development and waste management, and on the effects of radiation on man, animals and the environment. Does advanced-systems research to gain a better understanding of new methods of producing energy.

Actively searches for new products and industries which can be developed from its broad technological base.

The above programs require major facilities such as reactors, experimental loops, accelerators, hot cells, waste management plants, and support services including financial, administrative, engineering and maintenance.

Decommissioned Facilities

Provides for the decommissioning, maintenance and surveillance of the Gentilly 1 and Douglas Point prototype nuclear stations and heavy water plants in Cape Breton and Quebec.

Note: The Corporation also carries on self-sustaining commercial operations engaged in nuclear power engineering and design, project management, nuclear support services, manufacturing of medical and industrial radiation equipment and radioisotopes and investments.

Energy, Mines and Resources

National Energy Board

Objective

To ensure that the best interests of Canada are served in the safe and environmentally sound construction and operation of gas and oil pipelines and power lines subject to federal jurisdiction, in the exportation of electrical power, gas and oil and in the importation of gas and oil.

To ensure that tolls of pipelines under federal jurisdiction are just and reasonable and that pipeline services are provided on a continuing basis, without unjust discrimination and in a cost-efficient manner.

To advise on the control, supervision, conservation, use, marketing and development of energy and sources of energy.

To fulfill specific responsibilities under the Northern Pipeline Act and the Energy Administration Act.

Activity Description

Energy Regulation and Advice

Economic and market analysis; financial analysis of pipeline companies; engineering analysis of pipeline and power line construction proposals; certification of construction and operation of pipelines and power lines subject to federal jurisdiction; regulation of tolls and tariffs; safety inspection of pipelines; conduct of public hearings; providing advice to the Minister; and administrative services to the Board.

Energy, Mines and Resources

Petro-Canada International Assistance Corporation

Objective

To assist developing countries to reduce or eliminate their dependence on imported oil by undertaking exploratory and related activities to assess and develop hydrocarbon potential of the recipient country.

Description of Funding Through Appropriations

Project Investigation and Preparation

Assessment of oil and gas project proposals, including preliminary studies, on site missions and related activities.

Exploration Activities and Technical Co-operation

Participation in exploration for hydrocarbon resources and exploration related projects in developing countries and the provision of technical assistance, including aspects of technology transfer and training of personnel from developing countries.

Administration

Provision of resources for the Board of Directors and general administrative support, including legal, financial and administrative services.

Administration Program

Objective

To provide policy direction, management and services to the Department and to provide for environmental assessment review.

Activity Description

Federal Environmental Assessment Review Office

Administration of the Environmental Assessment and Review Process (E.A.R.P.), the provision of advice, policy guidelines and administrative procedures for process implementation to participating agencies, the establishment of independent panels for the public review of federal projects that are likely to have significant adverse environmental effects, the evaluation of the overall performance of E.A.R.P., and recommendations for appropriate adjustments in policy.

Administration

Office of the Minister of Environment, the Deputy Minister and the Canadian Environmental Advisory Council; policy development systems and advice, integrated planning system, and co-ordination of research and intergovernmental affairs; policy and functional direction and co-ordination of financial management and budgeting, personnel services, information, management improvement services, biometric and computer services, materiel and property management, and emergency planning.

Environmental Services Program

Objective

To promote and undertake programs to protect and enhance the quality of the environment, and programs designed to improve the management and sustained economic utilization of the wildlife and inland water resources of the nation.

Activity Description

Conservation and Protection

The provision of policy, plans, information and agreements for the management of water, wildlife and land resources, on a sustainable basis; monitoring and the provision of data on the quantity, quality and uses of water, land and wildlife resources; research on chemical, physical, biological and socio-economic processes to identify trends and problems, to predict future impacts and to mitigate deleterious impacts on the environment; negotiation and protection of Canada's interest in transboundary waters, migratory birds and other wildlife; regulation and enforcement of international and federal-provincial agreements as well as federal legislation for the protection and apportionment of water, land and wildlife resources; prevention of environmental threats arising from human activities; inspection, analysis and enforcement to ensure effective application of chemicals control legislation and pollution control regulations; development of joint legislation and pollution control activities with provincial and other governments; development and demonstration of pollution control technologies; review of pollution abatement proposals; coordination of national responses to environmental crises; abatement of pollution; socio-economic impact assessment and interpretation of the relative significance of environmental threats; and the coordination and management of programs to resolve environmental issues.

Atmospheric Environment

Provides historical, current and predictive meteorological, sea state and ice information for all areas of Canada, and contiguous waters; provides advice and consultation on the impact of meteorological, sea state and ice conditions on human activities and on the applications of meteorological knowledge to weather sensitive operations; provides assessments of the impact of human activities on the atmospheric environment; conducts research in the behaviour of the atmosphere and its inter-environmental reactions, in wind-wave mechanisms and in the dynamics of ice in navigable waters; develops, tests and calibrates standard meteorological instruments; formulates national ambient air quality objectives; conducts research and provides information, advice and consultation on the meteorological aspects of air quality and of noise intensity and propagation; develops and conducts professional and technical meteorological training programs; provides meteorological library services; participates in international scientific and operational programs and undertakes special field surveys in support of Canadian programs to assist individual nations.

Parks Program

Objective

To protect those places which are significant examples of Canada's natural and cultural heritage for the benefit, understanding and enjoyment of the people of Canada, in ways which leave that heritage unimpaired for future generations.

Activity Description

Park Operation

The protection, resource management, operation and maintenance of National Parks, Historic Parks and Sites, Canals and other heritage areas; the delivery of interpretation, information and visitor service programs to the public.

Park Development

The development and implementation of legislation, policy, research and planning; the establishment and development of new protected heritage areas and resources; the completion or enhancement of existing parks and heritage areas.

Program Management and Technical Services

The provision of management direction to the Program; the provision of engineering and architectural services; and the provision of general administrative services.

Note: The Passports activity is funded through the use of a Revolving Fund. The Estimates shown on this table refer to the cash requirements for the Fund over the fiscal year. These do not directly reflect the operating profit or loss that the Fund will realize since the latter is calculated on an accrual accounting basis. Therefore, some cash expenditures included in the Estimates do not impact upon the operating balance and certain other items that must be taken into consideration in calculating the profit or loss do not require a direct cash expenditure. The two can be reconciled as follows:

	(thousands of dollars)
Expected operating loss	206
Less:	
Non-cash items included in the calculation of the operating loss	615
Plus:	
Cash expenditures not included in the calculation of the operating loss:	
Change in working capital	128
New capital acquisitions	467
Total Estimates (net cash required)	186

International Centre for Ocean Development

Objective

To initiate, encourage and support cooperation between Canada and developing countries in the field of ocean resource development.

Description of Funding Through Appropriations

International Centre for Ocean Development

ICOD's mandate is to initiate, encourage and support cooperation between Canada and developing countries in the field of ocean resources development and management. This is accomplished through the provision of technical assistance, information, and training programmes.

The Technical Assistance Division assists in creating or strengthening national or regional ocean management and development institutions and expertise through programmes directed at all levels of resource use and management from village level extension services and small-scale projects to larger fisheries and marine management programmes. The Information Division assists developing countries and regions to establish and manage their own information systems required to develop marine management policies and programmes. The Division also provides information services for other Programme Divisions and is responsible for producing and distributing information products and for public relations activities within Canada and overseas.

The Training Division designs and delivers training programmes related to all aspects of marine resources management. The Division also manages a multi-faceted scholarship programme for study at Canadian and selected international institutions.

The Finance and Administration Division provides support to the Board of Directors and general financial and administrative services to the Programme Divisions.

Fisheries and Oceans

Objective

To undertake policies and programs in support of Canada's economic, ecological and scientific interests in the oceans and inland waters, and to provide for the conservation, development and sustained economic utilization of Canada's fisheries resources in marine and inland waters for those who derive their livelihood or benefit from these resources; and to coordinate the policies and programs of the Government of Canada respecting Oceans.

Activity Description

Science

Research and the provision of reliable scientific advice for the management of fisheries and fish habitat; research and the description of the climate of the ocean and its influence on fish stocks and the atmosphere; description, quantification and communication of marine environmental factors relating to marine engineering and transportation; hydrographic surveying and charting of Canadian waters for the purpose of safe navigation; development and refinement of methodology and technology needed for the department's scientific role and transfer of technology to Canadian industry; coordination of the Government of Canada's marine science program.

Atlantic Fisheries

All federal fisheries and habitat management and development functions in the Atlantic zone and the waters adjacent to Newfoundland, Nova Scotia, New Brunswick, Prince Edward Island and Quebec, and within and adjacent to Canada's 200-mile fisheries zones on the Atlantic coast, including the river systems and lakes in all of those provinces except Quebec; the planning and execution of those functions through which the department manages the fisheries resource and the primary sector of the Atlantic fishing industry.

Pacific and Freshwater Fisheries

All federal fisheries and habitat management and development functions in the Pacific and Arctic Oceans, British Columbia, the Yukon and the Northwest Territories and the provinces of Alberta, Saskatchewan, Manitoba and Ontario, including management in Canadian portions of transboundary rivers, shared management in international fisheries, and management of the Native, recreational and commercial fishing effort, except where authority has been delegated to the provinces for the management of inland fisheries. It also includes the direction of the department's national habitat management functions.

Inspection Services

Inspection Services include the development, formulation and implementation of national policies, regulations and programs to ensure that Canadian produced fish and fish products meet appropriate grade, handling, identity, process, quality and safety standards; and that imported fish and fish products meet minimum standards of identity, quality and safety.

International

Making international arrangements to advance Canada's fisheries conservation and trade interests, in cooperation with other Government departments; the negotiation and administration of international treaties and agreements affecting bilateral and multilateral fisheries relations with other countries; and formulation and representation of fisheries trade positions.

Corporate Policy and Program Support

Executive direction of the Program, corporate and regional management, capital asset management and provision of policy and administrative services; the overall coordination of federal policies and programs relating to oceans; and the development and promulgation of the department's national regulations and the direction of the department's enforcement activities.

Indian Affairs and Northern Development Department *Northern Affairs Program*

Objective

To promote the political, economic, social and cultural development of the northern territories and in collaboration with the territorial governments and other federal departments, to effectively manage the orderly use, development and conservation of the North's natural resources and to protect the northern natural environment, for the benefit of all Canadians, northerners in particular.

Activity Description

Political, Social and Cultural Development

Management of Departmental/Territorial Governments relations in the areas of political development, devolution of responsibilities and fiscal relations, the support of Inuit art and artists, the support of Inuit culture and language, financial assistance to native organizations to enable them to develop positions in regard to economic development and social issues, and financial assistance to territorial governments to meet hospital, medical and housing (Yukon) costs of status Indians and Inuit.

Economic Planning and Development

Provides for the continuing analysis of the northern economy and progressive development of an overall economic strategy, planning and analysis in regard to the Northern Canada Power Commission (NCPC) and northern energy subsidies, negotiation and implementation of Economic Development Agreements in each territory, maximization of benefits to northerners from resource development projects, promotion and support of native businesses, planning for a northern transportation infrastructure, construction of northern roads and coordination of federal government review and regulation of major resource development projects.

Renewable Resources Management and Environmental Protection

Provides in a quasi-provincial manner, for the management of the water, forest and land resources of the North, and for protection of the northern natural environment. Management of renewable resources, owned by the Crown in right of Canada, is achieved through administration of Acts and Regulations, which involves processing of applications from companies, communities and individuals for legal rights to resource use, administration of rights in good standing, and inspections to ensure compliance with terms and conditions of use. In addition, resources management requires the Program to undertake inventories of the quantity and quality of renewable resources, so as to have a sufficient information base with which to deal effectively with applicants. The Planning Element also includes the preparation for and fighting of forest fires, the development of land use plans to accommodate diverse land use and deal with use conflicts, implementation of the Federal Environmental Assessment and Review Process (EARP) in the North, the regulation of environmental impacts of land use on vacant Crown lands and of offshore operations, and the conduct of applied environmental research. It also includes the administration for DIAND of the Environmental Studies Research Fund, which conducts social and environmental research to ensure informed decision making on oil and gas activities and is entirely financed by levies on oil and gas interest owners on Canada Lands.

Non-Renewable Resources Management

Provides in a quasi-provincial manner, for the management of the mineral resources of the North, through the administration of legislation governing mineral rights acquisition, maintenance and recording, through provision of geological services and through maintenance of policies designed to encourage mining in the North. Northern interests and concerns respecting oil and gas exploration and development are factored into the operational activities of COGLA. The Northern Oil and Gas Action Program (NOGAP) of research in preparation for major hydrocarbon developments in the North is coordinated, and the Norman Wells Proven Area Agreement is administered.

Indian Affairs and Northern Development Department *Northern Affairs Program*

Canada Oil and Gas Lands Administration

Preparation of regulations and legislation; negotiation, disposition and management of oil and gas rights; approval of development and production plans; supervision and regulation of oil and gas activities; evaluation of oil and gas potential; negotiation and monitoring of Canada benefits; setting of environmental conditions, including oil spill contingency plans, promoting applied research on oil and gas matters related to the approval process; and co-ordination of interdepartmental and intergovernmental co-operative resource management efforts.

Program Management

Responsibility for the management and executive direction of the Northern Affairs Program, the coordination and development of Program wide policies (i.e. those that affect more than one Planning element), the provision of financial, administrative, communications, personnel and management services for the Program, the development of knowledge and information on issues in circumpolar countries of significance to Canada, and support of northern science, and the coordination of all activities to implement the Western Arctic (Inuvialuit) final agreement.

Offices of the Information and Privacy Commissioners of Canada

Objective

Information Commissioner:

- to ensure that the rights of complainants under the Access to Information Act are respected and that heads of federal government institutions and any third parties affected by a complaint are given a reasonable opportunity to make representations to the Information Commissioner;
- to persuade federal government institutions to adopt information practices in keeping with the Access to Information Act; and
- to bring appropriate issues of interpretation of the Access to Information Act before the Federal Court.

Privacy Commissioner:

- to ensure that the rights of complainants under the Privacy Act are respected and that the privacy of individuals with respect to personal information about themselves held by a federal government institution is protected; and
- to encourage the growth of fair information practices by government institutions.

Activity Description

Information Commissioner

Investigates, reports and makes recommendations to the heads of government institutions, based on complaints from individuals who allege non-compliance with the Access to Information Act or based on self-initiated complaints. The Commissioner appears on behalf of complainants, with their consent, or as a party, in applications before the Federal Court, on review of decisions of federal government institutions to refuse access under the Act. The Commissioner reports to Parliament annually and may make special reports.

Privacy Commissioner

Investigates, reports and makes recommendations to the heads of government institutions and, in the case of complaints, reports findings to the complainant. The Commissioner reviews personal information held in government information banks and investigates the institutions' collection, use, retention and disposal of personal information. The Commissioner may, with a complainant's consent, appear on his or her behalf in an application for Federal Court review of an institution's decision to deny access. The Commissioner reports annually to Parliament and may initiate special reports at any time. The Commissioner may also be requested to undertake special studies for the Minister of Justice.

National Defence

Objective

To deter the use of force or coercion against Canada and Canadian interests and to be able to respond adequately should deterrence fail.

Activity Description

Maritime Forces

This element encompasses the creation and maintenance of general-purpose Regular and Reserve maritime forces designed primarily to fulfil the missions of defending, in conjunction with U.S. and NATO forces, the maritime approaches to North America and the sea areas vital to NATO; and conducting in conjunction with U.S. Forces, surveillance to detect, track and identify strategic submarine forces threatening North America. The forces raised for these purposes have the inherent capabilities necessary to fulfil the other missions assigned, namely: protecting Canadian territory, rights and interests against external maritime challenges; assisting other government departments and agencies in enforcing Canadian laws and regulations in maritime areas under Canadian jurisdiction; contributing maritime forces to international arrangements to prevent or contain conflicts outside the NATO area; and contributing to national development.

Land Forces in Canada

This element encompasses the creation and maintenance of general-purpose Regular and Reserve land forces designed primarily to fulfil, concurrently, the two missions of defending, in conjunction with U.S. Forces, against hostile military lodgement in North America; and providing, in an emergency, additional land forces for the defence of Europe within the framework of agreed NATO commitments. The forces raised for these purposes have the inherent capabilities necessary to fulfil the other missions assigned, namely: promoting international stability by contributing to peacekeeping activities in co-operation with other members of the international community; supplementing and supporting the civilian authorities in maintaining surveillance and preserving control over and security within the national territory of Canada; assisting civilian authorities in the event of emergency or disaster; and contributing to national development.

Air Forces in Canada

This element encompasses the creation and maintenance of general-purpose Regular and Reserve air forces designed primarily to fulfil, concurrently, the two missions of defending, in conjunction with U.S. Forces against aerospace attack on North America; and providing in an emergency additional general-purpose air forces for the defence of Europe within the framework of agreed NATO commitments. It includes, as well, the provision of an air transport system to support military commitments in Canada and abroad, tactical helicopter forces to support the needs of the land forces in Canada, maritime air forces to support Canada's maritime forces, and search and rescue forces. The forces raised for these purposes have the inherent capabilities necessary to fulfil the other missions assigned, namely: supplementing and supporting the civilian authorities in maintaining surveillance and preserving control over the Canadian airspace, assisting civilian authorities in the event of emergency or disaster and contributing to national development.

Canadian Forces in Europe

This element encompasses the creation and maintenance of military forces in Europe in order to prevent or contain armed attack against the European NATO area. It involves the three missions of providing land forces, air forces and national command and support of all Canadian forces which would, in an emergency, serve in Europe.

Communication Services

This element encompasses the creation and maintenance of forces designed to provide information handling services in the form of strategic communications in support of the Canadian Forces and Emergency Government (EMGOV) tasks. In addition, communications research and high frequency direction-finding facilities are provided.

National Defence

Personnel Support

This element encompasses the provision of services required for the personnel development (recruitment, individual training, education), personnel management (administration, career assignment, spiritual, morale, comfort support), and health services (medical, dental) as appropriate for military and civilian members of the department.

Materiel Support

This element encompasses the provision of supply, transportation, equipment engineering and maintenance, real property management, and research and development.

Policy Direction and Management Services

This element encompasses the formulation and recommendation of defence objectives and policy options and the development of clear authoritative expressions of government approved defence policy to provide overall direction for developmental planning in the Department and the management of the Defence Services Program. Equally important, is the Command and Control function, within which the detailed operational, materiel, personnel and financial preparations are made for times of crisis or war. This function also embodies the exercise of command and control of the "day-to-day" operations of the Canadian Forces by the Chief of Defence Staff or delegated subordinate commanders. With respect to the more general management services, this element includes the development, and general direction of management information systems, consulting, audit, evaluation, financial and accounting services within the Department, that are consistent with legislative and regulatory requirements and authority.

National Health and Welfare Department *Health Services and Promotion Program*

Objective

To develop, promote and support measures designed to preserve and improve the health and well-being of Canadians.

Activity Description

Health Insurance

Provides payments to provinces and territories in respect of the cost of insured health services, and certain extended health care services as provided under the Federal-Provincial Fiscal Arrangements and Federal Post-Secondary Education and Health Contributions Act, 1977; monitors compliance of provincial and territorial health care insurance plans in accordance with the program criteria and conditions of payment of the Canada Health Act.

Health Services

Provides leadership and co-ordination and gives technical and financial support to the provinces and territories, professional associations, and international organizations in the development and maintenance of health services and facilities. Financial support and consulting services are also provided to national voluntary health organizations to assist their development and improve the efficiency and effectiveness of health services. Information collection and dissemination in addition to collaborative efforts with the provinces and territories play an important and integral role in this activity.

Extramural Research

Fosters and supports public health research and related scientific activities, through the National Health Research and Development Program, which complement departmental programs and hold the potential to advance national health goals. Encompasses research projects, studies and demonstrations, the training and career development of research manpower in relevant disciplines, and forums for the development of research strategies and approaches and for the communication of research outcomes.

Health Promotion

Develops and implements, in co-operation with provincial and territorial governments and non-governmental organizations, health promotion programs directed to all Canadian residents and to special target groups including those at high risk and those responsible for the planning or provision of health and social services.

Program Administration

Provides program direction, program planning and policy development.

Public Service Staff Relations Board

Objective

To provide the framework within which the various rights and responsibilities of participants to collective bargaining in the Public Service are to be exercised and to provide information to participants on rates of pay and other conditions of employment in Canada.

Activity Description

Staff Relations Administration

The Public Service Staff Relations Board is the quasi-judicial statutory tribunal responsible for the administration of the Public Service Staff Relations Act which established a system of collective bargaining and grievance adjudication in the Federal Public Service. Its mandate as a neutral third party is to resolve, by assistance or determination, disputes over the negotiation, application and interpretation of collective agreements, the imposition of discipline, and disputes over all other manner of proceedings falling under the purview of the Act.

The Board also provides physical premises and administrative support services to the National Joint Council which is a consultative body of representatives of the employer and employees for the negotiation of terms and conditions of employment that do not lend themselves to unit by unit bargaining.

Pay Research Bureau

The Pay Research Bureau conducts research and carries out surveys on rates of pay, benefits and conditions of employment primarily as they relate to those units of employees in the Public Service to whom the system of collective bargaining established by the Public Service Staff Relations Act applies. The Bureau also engages in similar activities in respect of groups that are excluded from that process.

Secretary of State Public Service Commission

Objective

To assist in the maintenance of a competent Public Service by ensuring that the best qualified persons are recruited to or promoted within the Public Service, that qualified employees are deployed to meet operational requirements and that certain training services are provided on behalf of the Treasury Board.

Activity Description

Staffing Programs

The Staffing Programs activity encompasses activities in support of delegated and non-delegated staffing, including policy development, resourcing of the Management Category, administration of staffing delegation, establishment of tests and standards for selection, administration of staffing priorities and services in support of recruitment and promotion. This Activity also encompasses the administration of affirmative action programs, special development programs in support of the Management Category and co-ordination of parts of the Official Languages Program for which the PSC is responsible.

Audit

The Audit activity reviews departmental and PSC staffing practices and procedures in order to determine that appointments conform with the Public Service Employment Act and Regulations and Commission policy. It reviews the manner in which departments administer selected aspects of their personnel services for which Treasury Board has policy responsibility. This latter activity is governed by an agreement between Treasury Board Secretariat and the Public Service Commission.

Appeals and Investigations

The Appeals and Investigations activity, through the establishment of independent boards, hears appeals by public servants against alleged breaches of the Public Service Employment Act and Regulations in such matters as appointment, demotion and release. In addition, complaints of alleged irregularities in staffing processes and matters of personal harassment in the workplace are investigated. Training, advice and assistance are provided to departments, unions and other interested individuals.

Training Programs

The Training Programs activity encompasses two sub-activities:

The Language Training sub-activity provides language training in both official languages and related language training service, in conformity with government policy, to meet the needs of departments and agencies in the federal Public Service, and occasionally those of outside clients. It provides second language courses designed to meet the job-related linguistic requirements of departments and a range of advisory, informational and co-ordinating services related to language training.

The Staff Development and Training sub-activity provides executive, managerial, supervisory and professional training and training services to federal public servants across Canada in response to Treasury Board policies and departmental demands. It provides courses and training events designed to meet the job-related training requirements of departments and a range of advisory, informational and co-ordinating services related to training.

Parliament has previously authorized a total drawdown of \$4,500,000 for the Staff Development and Training Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Authority as of April 1, 1988	4,500
Projected balance April 1, 1988	3,305

National Parole Board

Objective

To exercise statutory and regulatory powers to grant and to control the conditional release of persons undergoing sentences of imprisonment and to make recommendations for pardons and the exercise of the Royal Prerogative of Mercy.

Activity Description

Parole Board Operations

In accordance with the provisions of the Parole Act, and other relevant statutes, the National Parole Board is an independent administrative body which grants, denies and controls the conditional release of inmates of federal penitentiaries, and recommends the exercise of the Royal Prerogative of Mercy and the granting of pardons. In addition, the National Parole Board exercises the same powers and responsibilities, with the exception of the granting of temporary absences, for provincial inmates in provinces without provincial parole boards.

Supply and Services
Department

Objective

To provide Receiver General programs in the areas of payment and banking services, maintenance of the central government fiscal accounts and associated reports; certain services in the area of compensation and personnel; and common services on a revenue dependent basis, for the supply of goods and certain services required by departments and agencies, and the disposal of Crown owned material; all designed to enhance Government efficiency, effectiveness and economy, taking into account the contribution of these activities to the support of national objectives.

Activity Description

Supply Operations

The provision of goods and services of both a commercial and technically complex nature. The provision of specialized printing, film and video, exhibit and advertising services to Parliament and government departments. The effective, efficient and economical management on behalf of departments and agencies of the procurement aspects of Major Crown Projects. The financing, as required, on a cost reimbursable basis, of the acquisition and stockpiling of defence supplies or strategic materials, and the provision of supply support initiatives which contribute to departmental programs.

Parliament has previously authorized a total drawdown of \$200,000,000 for the Supply Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 1988	56,458
Less:	
1988-89 Main Estimates (net cash required)	7,534
Anticipated unused authority as of April 1, 1989	48,924

The total drawdown previously authorized by Parliament for the Defence Production Revolving Fund is \$100,000,000. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 1988	95,812
Add:	
1988-89 Main Estimates Working Capital decrease	381
Anticipated unused authority as of April 1, 1989	96,193

For further information on the Defence Production Revolving Fund, refer to the departmental Part III of the Estimates.

Regional Operations

The operation of the Receiver General payments, production and delivery systems; the production of and delivery of payment, pension and other benefit plan systems for the public service, the Canadian Forces and the Royal Canadian Mounted Police, the procurement of goods and services, locally, in Canada and abroad and the provision of disposal services for surplus material in the custody of government departments, agencies, and Crown corporations.

Management and Operational Services

The management of the Consolidated Revenue Fund; the maintenance of the central accounts of Canada and preparation of the Public Accounts reports. The administration of systems required for payment, pension and other benefit plan systems for the public service, the Canadian Forces and the Royal Canadian Mounted Police. The provision of accounting, advisory and data processing services on request from departments to the government as a whole.

Supply and Services Department

Reciprocal Taxation

The remittance by the federal government (directly or indirectly) to participating provinces, payments in lieu of provincial taxes and fees (includes provincial general sales taxes, motor fuel, tobacco and amusement taxes, and motor vehicle registration fees) on its consumption or use of goods and services. In return, the participating provincial governments pay federal sales and excise taxes on their purchases of goods.

Program Administration

The provision of direction and control for the efficient and effective delivery of the supply and services program, also including the provision of support services, e.g., development and operation of financial management systems, development and operation of management information systems, development of strategic plans; allocation and monitoring of resources; formulation and maintenance of policies; coordination of effective customer and supplier relations; human resources planning and development; and the development and maintenance of security policies.

Objective

To provide statistical information and analysis on the economic and social structure and functioning of Canadian society as a basis for the development, operation and evaluation of public policies and programs, for public and private decision-making, and for the general benefit of all Canadians; and to promote the quality, coherence and international comparability of Canada's statistical system through collaboration with other federal departments and agencies, with the provinces and territories, and in accordance with sound scientific standards and practices.

Activity Description

International and Domestic Economic Statistics

The provision of statistical information and analysis relating to the measurement of the international and domestic components of Canadian economic performance; and the coordination of data collection and aggregation activities with other federal departments and with provinces and territories to minimize response burden on the business community.

Socio-Economic Statistics

The provision of statistical information and analysis relating to economic phenomena commonly perceived as having a major impact on conditions of individuals and families; and the coordination of statistical activities on socio-economic issues with other federal departments and agencies and with the provinces and territories.

Census and Social Statistics

The provision of statistical information and analysis on the Canadian population, its demographic characteristics, and its conditions, including the census of population, and the coordination of statistical activities on social issues with other federal departments and agencies and with the provinces and territories.

Institution Statistics

The provision of statistical information and analysis on the nature and operation of the public and institutional sector; the development and promotion of common concepts and systems; and the coordination of federal, provincial and territorial government statistical activities concerning institutions.

Technical Infrastructure

The provision of an infrastructure of centralized and specialized services, including research and analysis, marketing and information services, classification systems, statistical methods, operations and regional services, and informatics to efficiently support and deliver the agency's statistical products.

Corporate Management Services

The provision of central direction and management services including management practices, finance, personnel, and administrative services in support of the agency's program.

Objective

To attend to the development and operation of a safe and efficient national transportation system that contributes to the achievement of government objectives, and to operate specific elements of this system.

Activity Description

Policy and Coordination

The Policy and Coordination activity is responsible for coordination of transportation policy, involving the marine, air and surface modes and Crown corporations; provision of secretariat services; compliance with Access to Information/Privacy/Human Rights Act; short and long-term strategic policy planning and development; economic analysis; research and development; management of provision of financial support for marine, air and surface transportation systems including VIA Rail, the Branch Line Rehabilitation/Hopper Car Program, Economic and Regional Development Agreements (ERDAs), Newfoundland Railway Containerization Program, ferry services consisting of Marine Atlantic, private operators and provincial authorities, Newfoundland Dockyard Company, Canada Ports Corporation, and the St. Lawrence Seaway Authority (Jacques Cartier and Champlain Bridges).

Marine/Canadian Coast Guard

Marine Transportation activities encompass the provision of marine navigation systems including short and long range navigational aids, waterways, vessel traffic services, safety and public correspondence communication; provision of route assistance through ice-infested waters; monitoring and control of potentially hazardous ice conditions; provision of facilities and services in support of other departments and agencies; coordination of the resupply of northern settlements; support of arctic research and development, direct services as part of the Federal Government's commitment to marine search and rescue enhanced by the use of the Canadian Marine Rescue Auxilliary organizations; promotion of boating safety; development, promulgation and enforcement of policies, regulations and standards relative to marine transportation; emergency planning and pollution clean-up; the development, administration and maintenance of public harbours and ports.

Also included and enabled through Crown Corporations and other entities are the provision of pilotage services within Canadian waters; the development, operation and maintenance of nine commission harbours; and the operation of the vessel M.V. Arctic.

Aviation

The Aviation activity is responsible for the development and operation of essential air navigation facilities and services including provision of policies, plans and procedures, flight calibration/inspection services and aeronautical information; provision of reliable air navigation facilities, electronic systems and equipment; maintaining the safe, orderly and expeditious flow of air traffic through control and guidance of aircraft movement in airspace and on airport manoeuvring areas; regulation and control of civil aviation activities including detection of unsafe conditions; promotion of safety; and provision of aircraft services to Transport Canada and other federal departments and agencies.

Transport Department

Airports Authority Group

The Airports Authority Group is responsible for the development, maintenance and operation of essential civil airport facilities and services in Canada, applying a commercially-oriented management approach to lead to system self-sufficiency. Airport operations involve provision of services to passengers and aircraft such as passenger and baggage security screening, policing, airport crash, firefighting and rescue, and the maintenance and upkeep of airport facilities including terminals, parking garages, runways, roads, mechanical and electrical equipment. Airports operated by the Transport Canada involve 9 major airports and 97 national, regional and local airports.

Parliament has previously authorized a total drawdown of \$80,000,000 for the Self-Supporting Airports and Associated Ground Services Revolving Fund. The projected use of this authority as related to these Estimates is as follows:

	(thousands of dollars)
Anticipated unused authority as of April 1, 1988	220,928
Add:	
1988-89 Main Estimates (net cash increase to the Revolving Fund Authority)	48,453
Anticipated unused authority as of April 1, 1989	269,381

Surface

The Surface Group is responsible for the development, implementation and monitoring of policies and programs concerning railway safety, road safety and motor vehicle regulation, and transport of dangerous goods, and for the development, preparation and maintenance of emergency plans and procedures for the surface modes during national emergencies.

Departmental Administration

The Departmental Administration activity provides direction and management to the department and Crown corporations through the Executive Offices of the Minister, Minister of State and Deputy Minister. The Assistant Deputy Minister (ADM) Finance centrally controls and provides services to the department in areas of finance, planning and programming, cost recovery and economic evaluation, general administrative services, management systems, communications and informatics, and materiel and contracting. The ADM Personnel centrally controls and provides personnel and training services to the Department. Other services include internal audit, program evaluation and review, public affairs, legal counsel, safety and security and emergency planning.

Notes:

The Policy and Coordination activity includes payments to the following Crown Corporations: The Jacques Cartier and Champlain Bridges Inc. (\$7,693,000 Vote 20); Canada Ports Corporation (\$457,000 Vote 25); Marine Atlantic Inc. (\$133,185,000 Vote 30); VIA Rail Canada Inc. (\$603,100,000 Vote 35); St. Lawrence Seaway Authority (\$25,400,000 Vote 40) and Canadian National Railways (\$116,000 Vote 45). Although Vote 35 seeks a total authority of \$611,925,000, the remaining \$8,825,000 is for labour assistance to railway companies of which VIA is a qualified recipient. Further details concerning the operation of these corporations are displayed on the pages following the Transfer Payments table.

The Marine/Canadian Coast Guard activity includes payments to Canarctic Shipping Company Limited (\$4,751,000 Vote 15). For further details on the expenditures and revenues of the company, refer to the departmental Part III of the Estimates.

The Airports Authority Group activity is partly funded through the use of a Revolving Fund (Self-Supporting Airports and Associated Ground Service Revolving Fund). The Estimates shown in this table include the cash provided to the Fund over the fiscal year. For further details on the expenditures and revenues of this revolving fund, refer to the departmental Part III of the Estimates.

Further Details – The Jacques Cartier and Champlain Bridges Inc.

Objective

To provide the public with a safe and efficient transit over the Jacques Cartier Bridge, the Champlain Bridge and a portion of the Bonaventure Autoroute in Montreal, Quebec; to continue efforts to make the Corporation financially self-sufficient.

Description of Funding Through Appropriations

The Jacques Cartier and Champlain Bridges Inc.

The Corporation manages, controls, operates and maintains the Jacques Cartier Bridge and the Champlain Bridge, the latter including a portion of the Bonaventure Autoroute in Montreal, Quebec. It earns most of its revenues from tolls charged to the users of the Champlain Bridge. The Jacques Cartier Bridge has been toll-free since 1962.

Budgetary payments are required to cover the excess of cash expenditures over revenues in the operation of the bridges, roadways and autoroute under the jurisdiction of the Corporation.

Objective

To operate safe, reliable and efficient marine transportation and related services in Atlantic Canada that contribute to the achievement of government objectives.

Description of Funding Through Appropriations

Marine Atlantic Inc.

Financial assistance is provided to Marine Atlantic Inc. on the basis of budgeted costs less user revenues for certain coastal and ferry services for which Canada has accepted responsibility, particularly those under the Terms of Union and Confederation. The Crown corporation provides the following services:

- (a) to meet constitutional obligations (North Sydney – Port aux Basques services; Borden – Cape Tormentine services; and Newfoundland (including Labrador) coastal services;
 - (b) to provide an alternative to the constitutional services (North Sydney – Argentia); and
 - (c) to provide services having developmental opportunities (Digby – Saint John; Yarmouth – Bar Harbor).
- In addition, the Corporation carries out other related transportation activities.

Comptroller General

Objective

To see to the establishment and maintenance of sound management practices in the federal government by developing policies and standards for financial and operational planning, reporting and controls, and by promoting and monitoring improvements in the practice of financial and operational management, in departments and agencies.

Activity Description

Financial and Management Accounting and Reporting

Has as its objective the establishment and maintenance of sound financial and management accounting and reporting in the federal government. This is accomplished by developing and maintaining financial, accounting and reporting policies, including guidelines on the form and content of the Estimates and Public Accounts, and specifications for the development of financial systems; providing interpretative services and implementation assistance to departments and agencies; participating in the recruitment and development of financial officers; and assisting other central agencies in the development of legislation and policies affecting the control and accountability of departments and Crown Corporations in order to ensure their compatibility with the government's stated accounting and reporting policies.

Management Practices and Processes

Has as its objective the establishment and maintenance by departments and agencies of sound management processes and systems for strategic and operational planning and review. This involves the conduct of surveys and assistance in the development and implementation of departmental action plans for improvements in management practices; the elaboration of policies, guidelines and standards for program evaluation and internal audit; the provision of assistance to departments and agencies in the implementation of evaluation and audit policies; the monitoring of evaluation and audit practices; participation in the training and development of managers and practitioners of program evaluation and internal audit; and the development, in conjunction with other central agencies, of government-wide procedures in order to ensure the demand for, and appropriate use of evaluative information.

Administration

Includes management and support work for the above activities; and financial, personnel and administrative services.

Bureau of Pensions Advocates Program

Objective

To ensure that persons seeking to establish claims under the Pension Act and related statutes or an appeal under the War Veterans Allowance Act have access to an independent professional legal service providing a solicitor and client relationship.

Activity Description

Pensions

This Bureau provides legal aid to persons seeking to establish claims under the Pension Act, R. S. , c. 207, s. 1, and allied statutes and orders or an appeal to the Veterans Appeal Board. This service is provided by professional advocates and support staff in 19 locations throughout Canada. The Bureau must accept all requests for assistance from eligible veterans or dependants of deceased veterans. The services of the Bureau are free but applicants may employ a private lawyer at their own expense or be represented by a service officer of an accredited veterans' organization.

travail centre canadien d'hygiène et de sécurité au travail

objectif

fournir aux Canadiens des renseignements sur les questions d'hygiène et de sécurité au travail. Cette information doit être complète, intelligible et fiable, de manière à faciliter les prises de décisions, favoriser des changements sur les lieux de travail, sensibiliser le public à la nécessité de jouer d'un environnement de travail sain et sécuritaire et encourir les activités d'éducation et de formation dans ce domaine.

Description des activités

Conseil des gouverneurs et Bureau exécutif

représentant les gouvernements fédéral et provinciaux de même que les travailleurs et les employeurs en général, le Conseil définit les objectifs, les politiques et le champ d'activité du Centre et établit les priorités et l'affectation d'ensemble de ses ressources. Il facilite la collaboration entre les divers intéressés et le maintien de normes élevées d'hygiène et de sécurité des personnes au travail.

Le Bureau exécutif du Centre, présidé par le président et administrateur en chef, est composé de neuf gouverneurs, élus pour un an par le Conseil des gouverneurs et représentant ces derniers sur une base tripartite. Le Bureau exécutif est autorisé à agir au nom du Conseil entre les réunions de celui-ci.

Président et personnel du Centre

Mettre en œuvre les politiques et programmes établis par le Conseil des gouverneurs et le Bureau exécutif et assumer les fonctions d'ordre scientifique et technologique du Centre.

Objectif

Favoriser la mise en oeuvre de la politique nationale des transports par la réglementation économique des transporteurs et des modes de transport qui relèvent de la compétence du gouvernement fédéral et par la réglementation des services de transport par chemin de fer pour en assurer l'exploitation sûre et réduire ainsi au minimum les risques de blessures pour les employés et le public ainsi que les dommages matériels.

Description de l'activité

Subventions pour le transport

L'établissement des prix et le paiement de subventions pour les services de transport, ainsi que l'évaluation et l'approbation des projets de rationalisation des réseaux ferroviaires.

Entrée sur le marché et analyse du marché

La délivrance de licences aux transporteurs canadiens et étrangers à l'égard des services qu'ils exploitent au Canada, et l'application des conditions des licences; la participation à la négociation et à la mise en oeuvre d'accords internationaux de service aérien; le contrôle et l'analyse des répercussions de la réglementation économique sur le secteur des transports.

Règlement des différends

Règlement des différends relatifs aux prix et au service, entre les transporteurs et les expéditeurs ou les voyageurs, au moyen de divers mécanismes parmi lesquels figurent les enquêtes officielles, la médiation et l'arbitrage des enquêtes; l'examen et le dépôt de divers tarifs et documents connexes exigés aux termes de diverses lois et divers règlements du gouvernement fédéral.

Sécurité des chemins de fer

La formulation de règlements sur la sécurité de l'exploitation des chemins de fer, de l'infrastructure ferroviaire et du matériel roulant et la vérification de la conformité avec ces règlements; les enquêtes sur les causes des accidents ferroviaires; la formulation de règlements sur le transport des marchandises dangereuses par chemin de fer et la vérification de la conformité avec ces règlements.

Gestion et administration

Les fonctions du Conseil de direction, de l'exécutif et de la haute direction ainsi que les services administratifs nécessaires aux activités de l'Office.

Objetif

Assurer, en ce qui a trait à des aspects précis du système de manutention et de transport des céréales, le transport rapide, efficace et organisé à destination des céréales produites dans l'Ouest canadien à l'intérieur du pays et aux divers points d'exportation.

Description des activités

Administrateur de l'Office du transport du grain
Coordination et gestion de la manutention et du transport des céréales afin d'assurer le transport rapide, efficace et organisé des céréales pour servir le mieux possible les intérêts des céréaliculteurs. Ces activités comprennent notamment: l'affectation de wagons aux expéditeurs de céréales; la définition, l'élaboration et la mise en oeuvre de mesures visant à assurer l'efficacité du système; l'élaboration et la mise en oeuvre d'un système conceptuel d'évaluation des objectifs de rendement pour les participants au système; la gestion de la flotte de wagons-trémies du gouvernement; l'administration des ententes sur le transport routier; la prestation de fonctions de secrétariat, de services de recherche et de soutien au Comité supérieur du transport du grain; la mise sur pied d'un programme d'information publique à l'intention des céréaliculteurs et d'autres parties intéressées en ce qui a trait à l'évaluation et à la performance du système.

Objectif

exploiter des services sûrs, fiables et efficaces de transport maritime et des services connexes dans la région atlantique
du Canada pour contribuer à la réalisation des objectifs gouvernementaux.

Description du financement par voie de crédits

Marine Atlantique S.C.C. assure une aide financière à Marine Atlantique S.C.C. à partir des coûts budgétés moins les recettes des usagers pour certains services côtiers et de traversier pour lesquels le Canada a accepté la responsabilité, notamment les services prévus dans l'Acte de l'Union et par la Confédération. La société d'Etat assure les services suivants:

- (1) respecter les engagements constitutionnels (services entre North Sydney et Port-aux-Basques, services entre Borden et Cap-Tourmentin et services côtiers de Terre-Neuve (y compris le Labrador));
- (2) assurer d'autres services que ceux prévus par la Constitution (entre North Sydney et Argentina); et
- (3) assurer des services qui offrent des possibilités de développement économique (entre Digby et Saint-Jean et entre Yarmouth et Bar Harbor).

De plus, la société mène d'autres activités liées aux transports.

Objetif

Planifier et coordonner l'aménagement des 15 ports qui étaient sous l'autorité du Conseil des ports nationaux, afin de réaliser les objectifs de la politique sur les ports nationaux et d'appuyer les objectifs du Canada en matière de commerce international ainsi que d'autres objectifs sociaux et économiques. La Société a également pour mandat d'administrer, de régir et de contrôler directement les ports non constitués en sociétés de port locales.

Description du financement par voie de crédits

La Société canadienne des ports
La Société canadienne des ports est financièrement autonome, mais reçoit des crédits budgétaires pour certaines initiatives qui ne sont pas financièrement viables, bien qu'elles poursuivent l'un des objectifs énoncés.

Objetif
Fournir au public des voies sûres et efficaces sur les ponts Jacques Cartier et Champlain et sur une section de l'autoroute Bonaventure à Montréal (Québec); continuer les efforts visant à rendre la Société financièrement autonome.

Description du financement par voie de crédits
Société Les Ponts Jacques Cartier et Champlain Incorporée
La Société administre, contrôle, exploite et entretient le pont Jacques Cartier et le pont Champlain qui inclut une partie de l'autoroute Bonaventure, à Montréal (Québec). La Société tire la majorité de ses recettes des péages imposés aux usagers du pont Champlain. Depuis 1962, aucun péage n'est imposé sur le pont Jacques Cartier. Les paiements budgétaires sont requis pour couvrir l'excédent des déboursés sur les recettes de la Société provenant de l'exploitation des ponts, des chaussées et de la section de l'autoroute relevant de sa compétence.

gestion des aéroports

Le Groupe de la gestion des aéroports est chargé d'élaborer, de maintenir et d'exploiter les services et les installations essentielles aux aéroports civils du Canada, en appliquant une gestion commerciale pour éventuellement atteindre l'autonomie. Les opérations aéroportuaires portent sur la prestation de services aux passagers et aux aéronefs comme le contrôle de sécurité des passagers et des bagages, les services de police, les services de sauvetage et d'extinction des incendies d'aéronef et la maintenance et l'entretien des installations aéroportuaires dont les aéronefs, les garages de rangement, les pistes, les routes et l'équipement mécanique et électrique. Transports Canada exploite 9 grands aéroports et 97 aéroports nationaux, régionaux et locaux.

Le Parlement a autorisé précédemment un prélèvement total de \$80,000,000 au titre du fonds renouvelable des aéroports autonomes et des services au sol connexes. Voici comment il est prévu d'utiliser cette autorisation du budget des dépenses principal:

Militaire général

Commission nationale des libérations conditionnelles

Objectif

exercer des pouvoirs légaux et des pouvoirs de réglementation pour accorder et contrôler la mise en liberté sous condition des personnes qui purgent des peines d'emprisonnement et présenter des recommandations en vue de l'accroissement de pardons et de l'exercice de la prérogative royale de clémence.

Description de l'activité

Prévisions de la Commission

conformément aux dispositions de la Loi sur la libération conditionnelle de détenus et d'autres lois pertinentes, la Commission nationale des libérations conditionnelles est un organisme administratif autonome qui accorde, refuse et dirige la mise en liberté sous condition accordée à des détenus incarcérés dans les pénitenciers fédéraux, et elle commande l'exercice de la prérogative royale de clémence ainsi que l'octroi de pardons. En outre, la Commission nationale des libérations conditionnelles exerce les mêmes pouvoirs et responsabilités, à l'exception de l'octroi d'absences temporaires aux détenus sous juridiction provinciale incarcérés dans les provinces qui n'ont pas de commission provinciale de libération conditionnelle.

Nota: L'activité Programmes de formation est financée en partie au moyen d'un fonds renouvelable (Fonds renouvelable du perfectionnement et de la formation du personnel). Les prévisions de dépenses qui figurent dans le tableau ci-dessous démontrent les besoins de trésorerie pour le fonds durant l'exercice financier. De plus, elles font concorder les besoins de trésorerie avec le bénéfice ou le déficit de fonctionnement que produira le fonds qui fonctionne selon la méthode de la comptabilité d'exercice.

Administration
L'activité Administration englobe les activités de la présidente et des commissaires, la planification politique et stratégique de l'organisme, les systèmes et politiques de gestion, la vérification interne et l'évaluation de programmes, ainsi que les services financiers, du personnel et autres services administratifs et de soutien de la Commission.

Objectif

Aider au maintien d'une fonction publique compétente en s'assurant que les personnes les mieux qualifiées sont recrutées à la fonction publique ou y obtiennent des promotions, que des employés qualifiés sont déployés pour satisfaire aux besoins des opérations et que certains services de formation sont fournis au nom du Conseil du Trésor.

Description des activités

Programmes de dotation

L'activité Programmes de dotation englobe les activités de soutien à la dotation déléguée et non déléguée, y compris l'élaboration des politiques, le ressourcement de la catégorie de la gestion, l'administration de la délégation des pouvoirs de dotation, la création de postes et la détermination de normes de sélection, l'administration des priorités en dotation, et les services de soutien au recrutement et aux promotions. Cette activité comprend aussi l'administration des programmes d'action positive et des programmes spéciaux de perfectionnement se rapportant à la catégorie de la gestion et la coordination de certaines parties du programme des langues officielles dont la responsabilité incombe à la CFP.

Vérification

L'activité Vérification comprend l'examen des pratiques et procédures de dotation dans les ministères et à la Commission de façon à déterminer si les nominations sont conformes à la Loi et au Règlement sur l'emploi dans la Fonction publique ainsi qu'aux politiques de la Commission. Elle comprend aussi l'examen des méthodes d'administration des ministères pour certains aspects de leurs services de personnel dont le Conseil du Trésor est responsable en matière de politiques. Cette dernière activité est régie par un accord entre le Secrétariat du Conseil du Trésor et la Commission.

Appels et enquêtes

L'activité Appels et enquêtes, grâce à la mise sur pied de comités indépendants, comprend l'audition d'appels interjetés par les fonctionnaires à propos de présomées infractions à la Loi et au Règlement sur l'emploi dans la Fonction publique en ce qui concerne notamment les nominations, les rétrogradations et les renvois. Elle comprend aussi la tenue d'enquêtes sur des plaintes de présomées irrégularités dans les processus de dotation et de harcèlement personnel en milieu de travail. Elle vise enfin à dispenser aux ministères, syndicats et personnes intéressées la formation, les conseils et l'aide nécessaires.

Programmes de formation

L'activité Programmes de formation comprend deux sous-activités:

La sous-activité Formation linguistique assure la formation linguistique dans les deux langues officielles et des services connexes de formation linguistique, conformément à la politique gouvernementale, pour répondre aux besoins des ministères et organismes fédéraux et, occasionnellement, aux demandes de clients de l'extérieur. Elle assure la prestation de cours de langue seconde conçus en fonction des besoins linguistiques reliés au travail des ministères, ainsi qu'un éventail de services de consultation, d'information et de coordination relatifs à la formation linguistique.

La sous-activité Perfectionnement et formation du personnel englobe la formation des cadres, des gestionnaires, des superviseurs et des spécialistes fédéraux dans l'ensemble du pays, ainsi que la prestation de services connexes, conformément aux politiques du Conseil du Trésor et aux besoins des ministères. Elle offre des cours et des activités de formation adaptées aux besoins professionnels précis des ministères ainsi qu'une gamme de services ayant trait à la formation, notamment les services de consultation, d'information et de coordination.

Objetif

porter à l'attention du gouvernement et du public des questions qui intéressent et préoccupent les femmes.

Description de l'activité

Conseil consultatif sur la situation de la femme
Formuler des recommandations au gouvernement sur les lois et les programmes qui sont de nature à améliorer la situation de la femme; entreprendre des recherches sur la situation de la femme au Canada; fournir des enseignements au public sur des secteurs d'intérêt particulier pour la femme et publier un rapport annuel sur les progrès réalisés relativement à l'amélioration de la situation de la femme.

Multiculturalisme

Instance chargée de l'application de la politique de multiculturalisme adoptée en 1971 par le gouvernement fédéral mise en œuvre et coordination de programmes et d'activités liés au multiculturalisme, de concert avec d'autres ministères et organismes fédéraux, d'autres administrations et le secteur privé; activités de promotion destinées à sensibiliser davantage le public à la diversité culturelle et raciale du Canada et aux objectifs de la politique de multiculturalisme; octroi d'une aide financière à des groupements, des établissements et des particuliers pour des activités favorisant la poursuite des objectifs de la politique de multiculturalisme.

Culture canadienne

Promotion de la connaissance et de l'appréciation du Canada, de sa culture, de son histoire et de ses traditions; la Fête du Canada; organisation de visites royales et exercice de responsabilités se rapportant à la Couronne et au cérémonial d'État

Droits de la personne

Promotion des droits de la personne dans tous les secteurs de la société canadienne par l'organisation de colloques et de conférences sur la question aux niveaux gouvernemental et non gouvernemental et la participation à ces manifestations; rédaction et diffusion de documents d'information; prestation de conseils relatifs aux droits de la personne à divers ministères, organismes et organisations qui élaborent des politiques, des programmes et d'autres mesures; aide financière pour des activités entreprises par des organismes bénévoles et non gouvernementaux et par des particuliers dans le domaine des droits de la personne; aide financière pour la saisie devant les tribunaux de causes types relativement aux droits linguistiques énoncés dans la constitution en plus des actions en justice consistant des lois, des politiques ou des pratiques fédérales reliées à la charte canadienne des droits et libertés; coordination fédérale-provinciale-territoriale et rédaction de rapports sur l'exécution des engagements nationaux et internationaux pris par le Canada en matière de droits de la personne.

Opérations régionales

Gestion de toutes les activités du Ministère dans les diverses régions du pays en accordant une attention spéciale aux besoins particuliers de chaque région; représentation des intérêts régionaux auprès des organismes privés et publics; compris les cours régionales de la citoyenneté.

Administration

Assurer une haute direction par l'intermédiaire des cabinets du secrétaire d'État, ministre responsable du Multiculturalisme, et du bureau du sous-secrétaire d'État, coordination de systèmes de gestion et de services dans les domaines de la planification, de l'information de gestion, des finances, de l'administration, des communications, du soutien ministériel, du personnel et des services juridiques; comprend l'évaluation de programmes, la vérification interne et l'amélioration de la gestion.

renforcer le sentiment d'appartenance chez les Canadiens, d'aujourd'hui comme de demain, en les encourageant à assumer pleinement leur citoyenneté et en leur permettant de participer davantage, dans l'une ou l'autre langue officielle, aux dimensions éducatives, sociales et multiculturelles de la vie canadienne.

Description des activités

Langues officielles — Enseignement

aide financière aux provinces et aux territoires pour les services d'éducation dans la langue de la minorité de langue officielle et pour l'enseignement de l'autre langue officielle à tous les niveaux du système scolaire, y compris bourses pour les cours d'été de langue seconde, moniteurs de langues officielles, bourses d'études supérieures et bourses provenant du Fonds de dotation de la reine Elisabeth, aide financière à des établissements, associations et organismes pour la collecte et la diffusion de renseignements sur les méthodes d'enseignement dans la langue de la minorité ou d'enseignement de l'autre langue ou pour la mise au point de ces méthodes.

Langues officielles — Promotion

Promotion de l'égalité de statut des deux langues officielles parmi les Canadiens; prestation d'une aide financière et technique aux organismes qui revendiquent l'égalité de statut des deux langues et l'adoption de politiques de bilinguisme. Prestation d'une aide financière et technique aux établissements, entreprises et organismes du secteur public non fédéral et du secteur privé, pour la mise en place d'établissements et pour la prestation de services dans la langue de la minorité.

Langues officielles — Services

Prestation de services de traduction, d'interprétation et de terminologie, dans toutes les langues, au Parlement, au Cabinet, à la fonction publique, au judiciaire et à tous les organismes créés par le Parlement ou le gouverneur en conseil; coordination et gestion du développement des services linguistiques ainsi que de la recherche et des enseignements terminologiques; coordination et élaboration de politiques et de projets à l'appui du Programme.

Aide à l'enseignement

Coordination et élaboration des politiques et programmes du gouvernement fédéral dans le domaine de l'éducation; administration des fonds versés aux provinces et aux territoires au titre de l'enseignement postsecondaire en vertu de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces et sur les contributions fédérales en matière d'enseignement post-secondaire et de santé; application de la Loi canadienne sur les prêts aux étudiants (1964), y compris les paiements d'intérêts aux provinces et l'exemption d'intérêts à l'intention des emprunteurs en chômage; coopération avec le ministère des Affaires extérieures afin d'assurer l'efficacité de la participation du Canada à des tribunes et à des activités internationales dans le domaine de l'enseignement.

Enregistrement de la citoyenneté et promotion du civisme

Prestation de services et d'installations, pour l'octroi de la citoyenneté canadienne et la délivrance de certificats de citoyenneté, et promotion de la citoyenneté canadienne par des activités destinées à la faire apprécier et à encourager l'acquisition et la conservation.

Développement de la citoyenneté

Prestation d'une aide financière et technique ainsi que de conseils à des particuliers, à des organismes bénévoles et à des établissements publics et privés, afin de permettre aux Canadiens de jouir pleinement de leur pouvoir d'action individuelle et collective, de les encourager à affirmer et à renforcer leur identité culturelle, et, enfin, de concert avec les institutions et les pouvoirs publics, à rechercher des solutions et la création d'un climat social, culturel, économique et politique qui s'accorde avec leurs besoins et leurs aspirations; on porte actuellement une attention particulière aux femmes, aux autochtones et aux personnes handicapées. Promotion et coordination au plan fédéral et auprès des institutions et du secteur privé, touchant certaines questions sociales, afin de favoriser l'évolution des attitudes sociales et de réduire la discrimination.

Objectif

Créer et acquérir des connaissances et de l'information scientifiques, techniques et en génie, et en promouvoir l'application pour répondre aux besoins canadiens en matière de développement économique, régional et social.

Description des activités

Compétences nationales dans les domaines des sciences naturelles et du génie
Recherche axée sur la création et le maintien de compétences nationales en sciences naturelles et en génie ainsi que sur l'acquisition de connaissances essentielles aux futures applications scientifiques et techniques.

Recherches portant sur des problèmes d'importance économique et sociale

Réalisation et encouragement de la recherche et du développement appliqués à la solution de problèmes d'importance économique et sociale dans des domaines tels que le bâtiment et la construction, l'énergie, l'état de l'environnement, l'alimentation, la santé, la sécurité publique et les transports.

Recherches en appui direct de l'innovation et du développement industriels

Réalisation et encouragement de la recherche, du développement et d'activités connexes axés sur l'avancement technologique nécessaire à l'expansion industrielle par l'emploi de divers moyens incluant le transfert de technologie, l'aide financière, des projets conjoints et des services techniques susceptibles de renforcer directement la capacité de recherche, de développement et d'innovation de l'entreprise industrielle au Canada.

Services nationaux

Établissement d'installations nationales de recherche et de développement en vue d'assurer des services à l'intention de l'entreprise industrielle, des gouvernements et des universités.

Recherches et services relatifs à la normalisation physique

Recherche et services incluant le soutien d'activités nationales et internationales en matière de normalisation physique.

Information scientifique et technique

Sélection, acquisition, analyse, stockage, recherche et transfert d'informations scientifiques et techniques publiées et ordinolingues; établissement de bases de données numériques scientifiques validées; établissement et maintien d'un réseau canadien de services d'information scientifique et technique; élaboration de méthodes, de procédés et de normes d'échanges informatiques avec d'autres réseaux et services nationaux et internationaux; amélioration des procédés par l'emploi de techniques propres à accroître l'efficacité et la productivité; publication de journaux scientifiques canadiens.

Services de soutien administratif et spéciaux

Soutien administratif, y compris les services financiers et les services du personnel; services spéciaux, y compris l'exploitation et l'entretien des immeubles et installations du Conseil national de recherches; services de l'ordinateur central; tous les services nécessaires aux programmes du Conseil; et subventions en vue des affiliations à des activités et organismes scientifiques internationaux.

(lectif

L'objectif d'avancement et l'utilisation des sciences et de la technologie au service des objectifs nationaux.

description des activités

Elaboration des politiques
Le but des politiques destinées au soutien des sciences et de la technologie; élaborer et formuler des politiques et recommandations en vue de la meilleure application possible des ressources scientifiques et technologiques dans l'élaboration et la mise en œuvre de la politique gouvernementale; prévoir un mécanisme de révision et d'évaluation des politiques et des programmes; fournir des services de secrétariat aux comités chargés de projets.

Objectif

Maintenir et améliorer la sécurité du revenu des Canadiens.

Description des activités

Allocations familiales
Fournir une aide financière aux familles ayant des enfants à charge et aux organismes de bien-être social, ministères gouvernementaux et établissements qui subviennent aux besoins d'enfants, afin de les aider à faire face aux dépenses qu'entraînent leur soin et leur éducation.

Sécurité de la vieillesse
Fournir aux Canadiens âgés de 65 ans ou plus un revenu de base auquel peut s'ajouter un autre revenu de retraite, ainsi qu'une aide sous forme de supplément du revenu aux bénéficiaires de la Sécurité de la vieillesse, à leurs conjoints âgés de 60 à 64 ans et aux personnes veuves âgées de 60 à 64 ans dont les autres revenus sont limités.

Administration du Programme
Élaborer des plans et fournir des conseils en matière de politique au Ministère et aux hauts fonctionnaires; déterminer l'admissibilité aux prestations et les paiements aux bénéficiaires, tenir à jour des renseignements relatifs au Régime de pensions du Canada, aux programmes des Allocations familiales et de la Sécurité de la vieillesse et les diffuser au grand public et aux particuliers qui ont ou qui pourraient avoir droit aux prestations et fournir une orientation en matière de gestion. Toutes ces activités devront se dérouler de manière efficace et efficiente, en accord avec les droits des individus et conformément à la législation pertinente.

Programme de la protection de la santé

Objectif

Réduire les risques de maladie et de décès prématuré des Canadiens qui pourraient être imputables à des facteurs écologiques, soit naturels, soit artificiels.

Description des activités

Innocuité et qualité des aliments et nutrition

Réalisation de recherches et évaluation de données scientifiques sur les aliments existants et éventuels, les constituants alimentaires, les micro-organismes et les toxines microbiennes, les additifs, les produits chimiques agricoles et les contaminants par rapport à leur usage réel ou proposé et leur fréquence dans l'alimentation au Canada, création de normes et de lignes directrices sur la fabrication des denrées, les denrées elles-mêmes et les apports en principes nutritifs; promotion et mise en vigueur de ces normes auprès de l'industrie alimentaire canadienne et étrangère; communication de renseignements afin de sensibiliser l'industrie à l'innocuité et à la valeur nutritive des aliments; et d'inciter le grand public à les manipuler et à les consommer d'une façon qui ne présente pas de dangers

Innocuité, qualité et efficacité des médicaments

Réalisation de recherches sur les dangers pour la santé liés à l'usage des médicaments; création de normes et de règlements sur leur innocuité, leur qualité et leur efficacité; évaluation des produits par rapport aux normes avant leur mise sur le marché; surveillance et promotion de la conformité des industries et des produits aux normes et règlements; et application des moyens coercitifs nécessaires; prestation de services d'analyse à l'intention du solliciteur général; communication de renseignements aux professionnels de la santé afin d'analyser la sécurité et l'efficacité d'emploi des produits pharmaceutiques; et aux consommateurs relativement à l'innocuité des médicaments; surveillance de l'usage des drogues dangereuses et détection des abus; limitation des fuites de drogue dangereuses du circuit licite vers le marché illicite.

Qualité et risques environnementaux

Évaluation et étude des effets des polluants de l'environnement sur la santé; évaluation et contrôle des équipements liés à l'usage de matériels médicaux et de produits dangereux; et, de concert avec d'autres unités organisationnelles du Ministère, évaluation des effets des contextes sociologique et technologique sur la santé.

Surveillance de la santé nationale

Évaluation et étude de la santé et de la morbidité chez les Canadiens, et prestation de services consultatifs dans ce domaine; prestation d'un service national de référence et prestation de réactifs de diagnostic pour l'identification de bactéries, virus et parasites pathogènes; et, de concert avec d'autres unités organisationnelles du Ministère, évaluation et amélioration de la qualité des techniques de diagnostic mises en œuvre dans les laboratoires hospitaliers.

Administration du Programme

Prestation des services liés à l'orientation du Programme, à sa planification, à l'élaboration de la politique et au soutien administratif et scientifique.

Programme des services et de la promotion de la santé

Objectif

Etablir, promouvoir et appuyer des mesures visant à préserver et à améliorer la santé et le bien-être des Canadiens.

Description des activités

Assurance-santé

Verser aux provinces et aux territoires la contribution du gouvernement fédéral relative aux coûts des services de santé assurés ainsi qu'à certains services complémentaires de santé aux termes de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces et sur les contributions fédérales en matière d'enseignement postsecondaire et de santé; surveiller la conformité des régimes provinciaux et territoriaux d'assurance-santé aux critères du programme et aux conditions de paiement énoncées dans la Loi canadienne sur la santé.

Services de santé

Assurer la direction et la coordination, ainsi qu'un soutien technique et financier aux provinces, aux territoires, aux associations professionnelles et aux organisations internationales pour l'expansion et l'entretien des services et des installations de santé. L'aide financière et des services de consultation sont également fournis à des organismes bénévoles nationaux œuvrant dans le domaine de la santé, afin de les aider à se développer et d'améliorer la capacité de rendement et l'efficacité des services. Outre qu'elles entraînent une étroite collaboration avec les provinces et les territoires, la collecte et la diffusion d'information font partie intégrante de cette activité et y jouent un rôle important.

Recherche extra-muros

Favoriser et appuyer, par l'intermédiaire du Programme national de recherche et de développement en matière de santé, des recherches portant sur des questions de santé publique et d'autres entreprises scientifiques connexes. Lesquelles comprennent les programmes ministériels et constituent éventuellement autant de pas vers la réalisation de objectifs nationaux en matière de santé. Les activités comprennent des projets de recherche, des études et des projets pilotes, la formation et le perfectionnement du personnel de recherche dans des disciplines pertinente ainsi que l'organisation de colloques dans le but de mettre au point des stratégies et des approches, et de faciliter la diffusion des résultats de la recherche.

Promotion de la santé

Élaborer et mettre en vigueur, en coopération avec les gouvernements provinciaux et les administrations territoriales et des organismes non gouvernementaux, des programmes de promotion de la santé destinés à tous les résidents du Canada ainsi qu'à des groupes cibles particuliers, notamment ceux qui sont considérés comme vulnérables et ceux qui sont responsables de la prestation de services sanitaires et sociaux.

Administration du Programme

Orienter et planifier le Programme et élaborer des politiques.

Objectif

Évaluer et percevoir équitablement les impôts sur le revenu ainsi que les paiements au titre des régimes de pension et de l'assurance-chômage, y compris certaines parties du Régime de pensions du Canada et de la Loi de 1971 sur l'assurance-chômage ainsi que de divers régimes de crédits d'impôt provinciaux.

Description des activités

Traitement des déclarations d'impôt des contribuables

La promotion de l'autoévaluation chez les contribuables et le traitement de déclarations comprenant, entre autres, communication de renseignements et la distribution de formules nécessaires à l'établissement de leur déclaration d'impôt ou de renseignements; l'examen et l'établissement des cotisations des déclarations; le traitement des versements; l'envoi des avis de cotisation, y compris les chèques de remboursement ou les avis d'impôt à payer; le classement et l'entrecroisement de ces déclarations; de même que le traitement des demandes de redressement ou de modification des déclarations provenant des contribuables.

Vérification des déclarations d'impôt des contribuables

Il s'agit des fonctions qui font suite à l'établissement de la cotisation initiale et ont pour objet de veiller à ce que les contribuables respectent les dispositions de la Loi de l'impôt sur le revenu concernant la production d'une déclaration et la déclaration du revenu.

Recouvrements

Les fonctions ayant trait à la perception des impôts non payés identifiés à la suite du traitement initial ou de la vérification des déclarations d'impôt.

Avis d'opposition et appels

L'examen indépendant d'une cotisation ou d'une nouvelle cotisation contestée par un contribuable.

Administration

Haute direction du bureau principal et des cinq bureaux régionaux. Le personnel du bureau principal établit la politique et assure les services en matière de gestion financière, de ressources humaines et de soutien administratif.

faire en sorte que tous les droits, toutes les taxes et tous autres frais et prélèvements connexes soient correctement imposés, perçus et, s'il y a lieu, remboursés; contrôler, afin de protéger l'industrie et la société canadiennes, le placement des personnes, des marchandes et des moyens de transport qui entrent au Canada ou qui en sortent, pour veiller au respect de la loi; protéger l'industrie canadienne des préjudices réels ou éventuels causés par l'importation efficace ou prévue de marchandises sous-évaluées ou subventionnées et par le recours à d'autres formes de concurrence injuste de la part d'exportateurs étrangers.

Description des activités

appliquer la Loi sur l'accise, la Loi sur la taxe d'accise et les autres lois pertinentes afin de voir ainsi à ce que les droits, les taxes et tous les autres prélèvements applicables soient imposés, perçus, et, le cas échéant, remboursés le plus économiquement possible pour le public et d'une manière qui assure, chez celui-ci, la plus haute confiance dans l'intégrité, l'efficacité et l'équité de la démarche de l'accise.

Douanes
appliquer la Loi sur les douanes, le Tarif des douanes, la Loi sur les mesures spéciales d'importation et d'autres lois et règlements pertinents et ainsi contrôler, pour la protection de l'industrie et de la société canadiennes, la circulation des gens, des marchandises et des moyens de transport qui entrent au Canada ou qui en sortent, et protéger l'industrie canadienne contre tout préjudice réel ou éventuel que peut causer l'importation efficace ou envisagée de marchandises sous-évaluées ou subventionnées, ainsi que d'autres genres de concurrence étrangère déloyale.

<ul style="list-style-type: none"> ● Commissaire à l'information: <ul style="list-style-type: none"> ● s'assurer que les droits que la Loi sur l'accès à l'information accorde aux plaignants sont respectés et que les responsables des institutions fédérales ainsi que les tiers visés par une plainte ont des possibilités raisonnables d'obtenir leur point de vue devant le Commissaire à l'information; ● convaincre les institutions fédérales d'adopter, en matière d'information, des méthodes conformes à la Loi sur l'accès à l'information; et ● soumettre à la Cour fédérale les questions d'interprétation de la Loi sur l'accès à l'information; ● Commissaire à la protection de la vie privée: <ul style="list-style-type: none"> ● s'assurer que les droits que la Loi sur la protection des renseignements personnels confère aux plaignants sont respectés et que les renseignements personnels que détiennent les institutions fédérales sur les individus sont bien protégés; et ● inciter les institutions fédérales à adopter des méthodes équitables en matière de divulgation de l'information. 	

Commissaire à l'information

Mène des enquêtes, rédige des rapports et formule des recommandations à l'intention des responsables d'institutions fédérales, et ce, sur la foi de plaintes déposées par des individus qui soutiennent que des infractions à la Loi sur l'accès à l'information ont été commises ou sur la foi de plaintes dont le Commissaire prend lui-même l'initiative. Le Commissaire comparait au nom des plaignants avec leur accord, ou à titre de partie, devant la Cour fédérale en cas de recours en révision de décisions des institutions fédérales qui ont refusé la communication de renseignements aux termes de la Loi. Le Commissaire rend compte directement de ses activités au Parlement chaque année et, à l'occasion, peut présenter des rapports spéciaux.

Commissaire à la protection de la vie privée

Mène des enquêtes, rédige des rapports et formule des recommandations à l'intention des responsables d'institutions fédérales et, dans le cas de plaintes, fait part de ses conclusions au plaignant. Le Commissaire examine les renseignements personnels contenus dans les fichiers de renseignements du gouvernement et enquête sur les méthodes de collecte, d'utilisation, de conservation et d'élimination des renseignements du gouvernement et enquête sur les plaignants. Il peut comparaitre au nom de ce dernier devant la Cour fédérale en cas de recours en révision de la décision d'une institution de refuser l'accès à certains documents. Le Commissaire rend compte de ses activités au Parlement tous les ans et peut présenter des rapports spéciaux lorsqu'il le juge utile. Le Commissaire peut également effectuer des études spéciales pour le compte du ministre de la Justice.

Administration

Fournir des services de soutien administratif centralisés au bureau du Commissaire à l'information et au bureau du Commissaire à la protection de la vie privée.

conseiller le gouvernement du Canada, ses ministères et ses organismes sur les questions juridiques; surveiller l'administration de la justice au Canada dans tous les domaines qui ne relèvent pas de la compétence des provinces; et proposer de nouvelles mesures et de nouveaux programmes dans ce contexte.

Description des activités

Services juridiques

fournir une gamme de services juridiques au gouvernement du Canada, à ses ministères et à un grand nombre d'organismes, à l'exclusion des services fournis par le secteur des services des contentieux et par celui des services égisatifs.

Services des contentieux

occuper ou diriger les litiges auxquels Sa Majesté ou un ministre fédéral sont parties, dans les affaires qui relèvent de la compétence fédérale.

Services législatifs

fournir des services législatifs au gouvernement par la rédaction et l'examen des projets de loi et des règlements, et par la révision et la codification des lois et des règlements fédéraux d'intérêt public.

Elaboration de la politique et des programmes en matière juridique

Elaborer et administrer, dans le cadre des objectifs du Programme de la justice, des programmes et des politiques qui sont conformes à l'évolution des besoins de la population canadienne, dans la mesure où ces besoins concernent les lois fédérales, le système de droit ainsi que les activités, les pratiques et les politiques juridiques du gouvernement canadien.

Administration

Diriger et coordonner les activités du ministère de la Justice en matière de gestion et d'élaboration de politiques; fournir des services administratifs centraux au ministère de la Justice et à la Commission de réforme du droit du Canada; administrer le Bureau central d'enregistrement des divorces du Canada.

Programme Parcs

environnement

Objectif : Sauvegarder les endroits qui constituent d'importants exemples du patrimoine naturel et culturel du Canada, pour le bénéfice, l'instruction et le plaisir des Canadiens, de manière à léguer ce patrimoine intact aux générations à venir.

Description des activités

Exploitation des parcs : La gestion des ressources, l'exploitation et l'entretien des parcs nationaux, des parcs et lieux historiques, des canaux et d'autres aires d'importance nationale, ainsi que la réalisation de programmes d'interprétation, d'information et d'accueil à l'intention du public.

Aménagement des parcs : L'élaboration et la mise en œuvre de la législation, de la politique, de la recherche et de la planification; la création, l'aménagement et la protection de nouvelles aires et ressources du patrimoine; l'achèvement ou l'amélioration des aires du patrimoine et des parcs existants.

Gestion du Programme et Services techniques : Direction administrative du Programme et prestation de services en génie et en architecture ainsi que de services administratifs généraux.

Environnement Programme des services de l'environnement

Objectif

Promouvoir et entreprendre des programmes visant à protéger et à améliorer la qualité de l'environnement et des programmes conçus pour améliorer la gestion et l'utilisation économique soutenable des ressources fauniques et des eaux intérieures du pays.

Description des activités

Conservation et Protection

Grandes orientations, plans, information et ententes sur la gestion des ressources aquatiques, fauniques et terrestres de manière à en assurer la pérennité, surveillance et prestation de données sur la quantité, la qualité et l'utilisation des ressources aquatiques, fauniques et terrestres, recherches sur les phénomènes chimiques, physiques, biologiques et socio-économiques de façon à déceler les tendances et les problèmes, à prévoir les incidences futures et à atténuer les effets néfastes sur l'environnement, négociation en vue de défendre les intérêts du Canada concernant les eaux transfrontières, les oiseaux migrateurs et autres ressources fauniques; réglementation et application d'ententes internationales et fédérales sur la protection et la répartition des ressources aquatiques, fauniques et terrestres, prévention des menaces environnementales dues aux activités humaines; inspection, analyse et mesures de coopération afin de garantir l'application des lois sur le contrôle des produits chimiques et des règlements sur la lutte antipollution, élaboration de lois et de programmes de lutte antipollution en collaboration avec les gouvernements provinciaux et autres; mise au point et à l'essai des techniques de lutte antipollution; examen des propositions concernant la réduction de la pollution; coordination des mesures nationales face aux urgences environnementales; réduction de la pollution; évaluation des incidences socio-économiques et de l'importance relative des menaces environnementales; coordination et administration de programmes afin de régler les questions environnementales.

Environnement atmosphérique

Prestation de renseignements historiques, actuels et prévisionnels sur la météorologie, l'état des mers et des glaces dans toutes les régions du Canada et les eaux adjacentes; conseils et avis sur les discussions des conditions atmosphériques, de l'état des mers et des glaces sur les activités de l'être humain et sur les applications des connaissances météorologiques dans des activités assujetties aux conditions atmosphériques; évaluations des répercussions des activités de l'être humain sur l'environnement atmosphérique; recherches sur le comportement de l'atmosphère et ses effets sur les autres éléments de l'environnement, les mécanismes du vent et des vagues et la dynamique de la glace dans les eaux navigables; élaboration, essai et étalonnage des instruments météorologiques normalisés; formulation d'objectifs nationaux sur la qualité de l'air ambiant; recherches et prestation de renseignements, d'avis et de conseils sur les aspects météorologiques de la qualité de l'air ainsi que de l'intensité et la propagation du bruit; élaboration et réalisation de programmes de formation professionnelle et technique en météorologie; services de bibliothèque en météorologie; participation aux programmes scientifiques et opérationnels internationaux et études spéciales sur le terrain pour appuyer les programmes canadiens visant à aider certains pays.

Programme d'administration

Objectif

Assurer l'orientation de la politique et la gestion du Ministère, lui fournir des services et pourvoir à l'examen des évaluations environnementales.

Description des activités

Bureau fédéral d'examen des évaluations environnementales

directives en matière de politiques et de règles administratives aux organismes participants pour la mise en application du processus, établissement de commissions indépendantes pour l'examen par le public des projets ébauchés pour avoir des incidences fâcheuses sur l'environnement, évaluation du rendement du PEEB et présentation de recommandations propres à améliorer la politique.

Administration

Ministère du ministre de l'Environnement, bureaux du sous-ministre et du Conseil consultatif canadien de l'environnement; conseils sur la politique à suivre et moyens de l'élaborer, système de planification d'ensemble et coordination de la recherche et des affaires intergouvernementales; direction fonctionnelle et direction de la politique, coordination de la gestion financière et de la budgétisation, services du personnel, information, services d'amélioration de la gestion, services de biométrie et d'informatique, gestion du matériel et des biens-fonds et planification des mesures d'urgence.

objectif

aider les pays en développement à réduire ou à éliminer leur dépendance à l'égard du pétrole importé en entreprenant des travaux de prospection pétrolière ainsi que des activités connexes afin d'évaluer et de développer le potentiel en hydrocarbures des pays bénéficiaires.

Description du financement par voie de crédits

études et préparation des projets
 évaluation des propositions de projets portant sur le pétrole et le gaz, y compris les études préliminaires, les missions sur place et les activités connexes.

activités d'exploration et coopération technique

participation à l'exploration pour trouver des hydrocarbures dans les pays en développement et réalisation des activités connexes de prospection et fournir au personnel des pays en développement l'aide technique, y compris le transfert d'information technique et la formation du personnel.

administration

fournir les ressources requises pour le conseil d'administration ainsi que les services généraux d'administration, y compris les services juridiques, financiers et administratifs.

objectif
developper l'application de l'energie nucleaire a des fins pacifiques.

Description du financement par voie de credits

Recherche et developpement dans le domaine nucleaire

Assurer le fonctionnement des laboratoires nucleaires nationaux a Chalk River et a Whiteshell afin d'avoir une base technologique pluridisciplinaire pour le programme electrique nucleaire canadien.
entreprendre des travaux de recherche appliquee et de developpement pour les reacteurs nucleaires actuels et futurs, pour les cycles et systemes de combustible, pour la protection environnementale, pour la gestion des dechets radioactifs et pour les systemes de garantie nucleaire, afin:

- (i) d'assurer au Canada des approvisionnements energetiques surs et fiables a long terme;
- (ii) d'accroitre l'usage de l'energie nucleaire pour surmonter les difficultes d'approvisionnement futures;
- (iii) de renforcer l'option CANDU en ameliorant le rendement, l'integrite et la surete des reacteurs;
- (iv) de demontrer que les dechets radioactifs et leurs sous-produits peuvent etre geres en toute securite.

entreprendre des recherches de soutien dans des domaines tels que la physique fondamentale de la matiere, les proprietes des materiaux, la chimie du developpement du combustible et de la gestion des dechets radioactifs, et les effets des rayonnements sur les etres humains, les animaux et l'environnement. Effectuer des recherches sur les systemes avances afin de mieux comprendre les nouvelles methodes preconisees pour produire de l'energie. Chercher de nouveaux produits et debouches pouvant etre developpes depuis leur base technologique variee. Les programmes precites necessitent des installations majeures telles que des reacteurs, des boucles d'essais, des accelerateurs, des cellules chaudes, des usines de traitement de dechets, ainsi que des services de soutien, notamment les services financiers et administratifs, l'ingenierie et l'entretien.

Installations declasses
Prendre des dispositions touchant le declassement, l'entretien et la surveillance des centrales nucleaires prototypes de Gentilly 1 et de Douglas Point, et des usines d'eau lourde au Cap-Breton et au Quebec.

Levés et cartographie

Etablir et entretenir un réseau national de repères planimétriques et altimétriques précis; rassembler et mettre à jour les renseignements topographiques et géographiques concernant la masse continentale canadienne; préparer, publier et diffuser des cartes topographiques, électrolales et aéronautiques, des publications, des photographies aériennes, des repertoires géographiques ainsi que l'Atlas du Canada; diriger et réglementer l'arpentage et des propriétés des terres fédérales; et maintenir les frontières internationales.

Télétection

Revoir, traiter, archiver et diffuser les données provenant de satellites de télétection; assurer des services de télétection pour les projets de recherche et de démonstration; perfectionner les diverses techniques reliées à la télétection aérienne et par satellite; à partir des capteurs jusqu'aux systèmes d'analyse d'images; transférer à l'industrie canadienne la technologie ainsi mise au point; appuyer la recherche et le développement appliqués et technologiques menés dans l'industrie, les universités et les organismes gouvernementaux; et offrir une aide technique à ceux qui font usage de la télétection à des fins de gestion des ressources et de surveillance de l'environnement.

Appui du Programme

Fournir aux organismes qui exécutent les activités du Programme des minéraux et des sciences de la Terre des services financiers, du personnel, de gestion des installations et de soutien technique sur le terrain. Etablir des politiques fédérales de recherche et de développement à l'appui des options en matière de stratégie énergétique nationale; tracer et mettre en application des plans de R-D en fonction des politiques susmentionnées; recueillir, analyser et diffuser de l'information sur les travaux de recherche, de développement et de démonstration menés dans les ministères et organismes fédéraux et provinciaux, l'industrie et les universités ainsi qu'à l'étranger; donner des conseils sur l'affectation des ressources fédérales de R-D.

Objectif

Assurer la disponibilité, en temps opportun, de politiques, de stratégies et de programmes des minéraux conçus pour assurer la contribution maximale des secteurs des minéraux et des métaux à l'économie canadienne, et fournir en temps opportun des connaissances scientifiques, des données, des techniques et des conseils dans les domaines des sciences de la Terre et des minéraux et plus particulièrement dans le domaine des ressources minérales et énergétiques de la masse continentale canadienne et des régions situées au large des côtes.

Description des activités

Politique et programmes des minéraux

Travailler et mettre en œuvre une approche intégrée à la planification de la politique et des programmes des minéraux; conseiller le Ministère, le Ministère d'État, les cadres supérieurs et les représentants d'autres ministères fédéraux, d'autres gouvernements et de l'industrie relativement aux politiques touchant les produits minéraux, leurs marchés, leur économie et leur incidence sur l'environnement; négocier, coordonner et administrer les ententes sur l'exploitation minière avec les provinces et les territoires; et assurer la gestion des programmes de ressources en particulier.

Application de la Loi sur les explosifs au Canada

Réglementer, partout au Canada, la fabrication, l'importation, l'entreposage et la vente d'explosifs en inspectant les usines et les dépôts et en délivrant des licences pertinentes; vérifier et autoriser les explosifs; fournir des conseils techniques aux autres organismes gouvernementaux (internationaux, fédéraux et provinciaux); et donner des cours sur la manutention des explosifs en toute sécurité.

Technologie des minéraux et de l'énergie

Mener des travaux de recherche et de développement technique en matière de technologie des minéraux et de l'énergie, notamment en ce qui concerne l'extraction de minéraux et de métaux, ainsi que la fourniture, la conversion et l'utilisation de pétrole lourd, de sables bitumineux, de charbon, d'uranium et d'autres combustibles, conjointement avec des secteurs choisis des économies d'énergie et du transport des combustibles énergétiques; promouvoir, coordonner et soutenir la R-D dans l'industrie, les universités et les centres de recherche dans les domaines de l'exploitation minière, de la métallurgie et de l'énergie; et faire connaître les progrès de la technologie au secteur privé.

Levés géologiques

Effectuer des recherches et des études géologiques, géophysiques et géochimiques; exploiter des réseaux nationaux d'observatoires géophysiques; évaluer les ressources en minéraux et en énergies non renouvelables; étudier les phénomènes géologiques pouvant menacer les activités humaines et l'environnement; perfectionner les technologies, y compris la technologie géophysique; établir des normes géoscientifiques nationales; encourager les activités canadiennes dans le domaine des sciences de la Terre au Canada et ailleurs; collaborer avec les provinces; donner des conseils aux gouvernements; établir et diffuser des cartes et des rapports.

Plateau continental polaire

Fournir un appui logistique coordonné aux groupes des secteurs publics et privés qui mènent des études scientifiques dans l'Arctique; fournir un appui ainsi que des conseils professionnels, techniques et administratifs aux clients; et procurer à la communauté scientifique et aux habitants de la région, des renseignements sur les travaux de nature scientifique effectués dans l'Arctique.

Objectif

Travailler et appliquer des politiques, des stratégies et des programmes efficaces visant à assurer l'approvisionnement suffisant d'énergie et de l'utilisation optimale des ressources énergétiques, tout en tenant compte d'autres objectifs locaux et économiques.

Description des activités

Politique énergétique

Analyser la stratégie énergétique afin de déterminer les coûts et les avantages économiques, sociaux, régionaux et environnementaux d'autres options de politique énergétique en vue de formuler des recommandations concernant la politique; effectuer des analyses financières et fiscales de la politique, notamment en ce qui a trait aux sociétés et aux projets en matière d'énergie; entreprendre des études spéciales couvrant tous les aspects de la politique énergétique applicables aux grands secteurs de l'économie énergétique; évaluer le secteur énergétique à l'échelon macro-économique; participer à l'analyse de la situation énergétique sur la scène internationale et assurer la liaison sur le plan multilatéral et bilatéral, ainsi que la coordination du Programme, et surveiller et analyser les progrès à survenir dans l'industrie pétrolière.

Ressources énergétiques

Évaluer les ressources et besoins canadiens en pétrole, en gaz, en uranium, en énergie nucléaire et en hydroélectricité, ainsi qu'en carburants de rechange; les conditions de leur utilisation et de leur mise en valeur, les besoins en pétrole étranger pour satisfaire à la demande au Canada; l'adaptation des secteurs du raffinage, des produits pétrochimiques, du transport, de la commercialisation et de la production d'électricité aux circonstances changeantes; la situation des marchés de l'énergie, au pays et à l'étranger, et l'analyse des facteurs qui touchent ces marchés. Préparer, tenir à jour et mettre à l'essai des plans d'urgence pour le contrôle et la réglementation de la production, de la distribution et de l'utilisation de l'énergie en cas d'urgence.

Énergies renouvelables et économies d'énergie

Analyser la demande d'énergie dans les divers secteurs de l'activité économique, en vue de déterminer les possibilités d'améliorer la capacité de l'industrie et d'accorder des encouragements financiers en vue de réaliser le potentiel d'augmenter la capacité de l'industrie; analyser la nécessité d'effectuer des recherches, de créer des produits, de hausser la capacité de rendement énergétique; encourager l'économie d'énergie et l'efficacité énergétique; établir des politiques et des programmes destinés à encourager l'économie d'énergie et l'efficacité énergétique; par la diffusion de renseignements, la prestation de conseils, de subventions et de contributions, l'exécution de projets de recherche et de démonstration; établir des politiques et des programmes destinés à encourager la mise au point ordonnée des technologies en matière d'énergie renouvelable, afin d'assurer l'approvisionnement énergétique à long terme au Canada.

Propriété, contrôle et subventions des sociétés pétrolières

Administrer la Loi sur le Programme d'encouragement du secteur pétrolier pendant la phase d'abolition progressive du Programme ainsi que la Loi sur la détermination de la participation et du contrôle canadiens, y compris la prestation du soutien nécessaire relatif aux demandes et aux vérifications faites dans le cadre du Programme.

Encouragement à l'exploration et à la mise en valeur au Canada

Sous le régime de la Loi sur le Programme canadien d'encouragement à l'exploration et à la mise en valeur, verser des subventions aux personnes admissibles (sociétés, fiduciaires et particuliers) qui engagent des dépenses admissibles aux fins de l'exploration et de la mise en valeur au Canada.

Objetif

(Offrir des services d'orientation en matière de gestion, des services de soutien dans les domaines financier, administratif, informatique, des ressources humaines et des communications qui contribueront à la réalisation des objectifs du Ministère et du gouvernement fédéral dans les domaines de l'énergie, des minéraux et des sciences de la Terre)

Description des activités

Orientation et coordination
Assurer l'orientation globale en matière de politique et de direction, y compris des fonctions telles que la planification et la coordination des politiques globales, la prestation de conseils en la matière, l'évaluation des programmes, la vérification interne, le secrétariat du Ministère, les communications et les responsabilités du Ministère en matière d'environnement; comprend les cabinets des ministres et les bureaux du sous-ministre et des sous-ministres associés.

Finances et administration

(Offrir aux éléments opérationnels du Ministère des services financiers, administratifs, informatiques et de gestion.

Gestion des ressources humaines

Responsable des questions relatives aux ressources humaines de l'ensemble du Ministère, y compris la planification, la dotation en personnel, la formation et le perfectionnement, l'organisation et la classification, les relations de travail, la rémunération et les avantages sociaux, le programme des langues officielles et les programmes d'action positive.

Emploi et Immigration Commission d'appel de l'immigration

Objectif

Mettre à la disposition des personnes qui sont sous le coup d'une ordonnance de renvoi du Canada, ou des personnes domiciliées au Canada et dont les parents se sont vu refuser l'admission au pays, un organisme indépendant auprès duquel lesdites personnes peuvent en appeler de telles décisions, en invoquant des motifs non seulement juridiques mais discrétionnaires; et aussi entendre les demandes de réexamen des revendications du statut de réfugié.

Description de l'activité

La Loi sur l'immigration de 1976 accorde à la Commission, qui est une cour d'archives, des pouvoirs discrétionnaires étendus afin de permettre l'admission temporaire ou permanente de personnes, nonobstant les dispositions contraire de la Loi sur l'immigration.

Commission d'appel de l'immigration

Fonctionnement d'une commission d'appel de l'immigration, comme l'autorise la Loi sur l'immigration de 1976, et, en particulier, formalités juridiques et administratives que comportent les appels interjetés par des particuliers contre un renvoi, les demandes de mise en liberté, les demandes de réexamen des revendications du statut de réfugié, et les refus d'admission à l'endroit de parents parrainés en vertu de la Loi ou du Règlement sur l'immigration.

Objectif

Promouvoir les intérêts du Canada sur le plan économique, social, humanitaire et culturel et remplir les obligations du Canada sur le plan international, c'est-à-dire s'occuper de l'admission des immigrants et des visiteurs ainsi que d'établir des liens avec les immigrants et exercer un contrôle efficace à l'égard des personnes qui cherchent à entrer ou à demeurer au Canada, tout en protégeant la santé des Canadiens et en assurant leur sécurité.

Description des activités

Opérations du Programme

Admettre des immigrants, des travailleurs étrangers temporaires, des étudiants étrangers et d'autres visiteurs en assurance la gestion et le contrôle de leur mouvement; élaborer et mettre en application des procédures, des lignes directrices et des instruments qui permettront aux agents du ministère des Affaires extérieures, à ceux de Douanes et Accise (Revenu Canada), à ceux de la Gendarmérie royale du Canada et à ceux de l'immigration de déterminer si les non-Canadiens devraient être autorisés à entrer au Canada, à y demeurer, ou en être expulsés.

Establishissement

Rendre plus facile l'établissement et l'adaptation des nouveaux résidents permanents (immigrants et réfugiés) afin qu'ils puissent devenir, le plus rapidement possible, des membres à part entière de la société canadienne, tout en demeurant dans les limites de paramètres raisonnables et pratiques de ressources.

Arbitrage

Conduire des enquêtes pour déterminer si certaines personnes doivent être admises au Canada, ou en être renvoyées et si elles doivent être détenues ou mises en liberté au cours de l'enquête.

Comité consultatif du statut de réfugié

de concert avec l'immigration (E.I.C.) remplir, envers les réfugiés au sens où l'entend la Convention, les obligations légales du Canada sur le plan international précisées aux articles 45 à 48 de la Loi sur l'immigration de 1976, et conseiller le Ministre d'Etat sur les questions concernant la protection, au Canada, des réfugiés au sens où l'entend la Convention.

Gestion et élaboration de la politique

Exercer des fonctions voulues de direction, de planification, de contrôle et de coordination pour que les ressources affectées au Programme d'immigration soient utilisées de façon efficace et efficiente, et élaborer des directives et des programmes concernant l'admission et le contrôle des immigrants, des travailleurs temporaires, des étudiants étrangers et des autres visiteurs, y compris la gestion des niveaux d'immigration et l'orientation de la politique en ce qui concerne le ministère des Affaires extérieures qui est chargé d'exécuter le Programme à l'étranger.

Objectif

- Élaborer et mettre en oeuvre un ensemble structuré de politiques et de programmes pour assurer le bon fonctionnement du marché du travail canadien. L'ensemble doit être conforme aux objectifs socio-économiques nationaux et viser à :
- préparer une main-d'oeuvre qui puisse satisfaire aux besoins en compétences à l'échelle nationale;
 - favoriser la croissance et l'adaptation de l'économie, sans imposer de fardeau inutile aux particuliers, aux groupes et aux régions;
 - donner à chacun les mêmes chances de faire valoir ses compétences sur le marché du travail et d'obtenir un emploi.

Description de l'activité

Programmes de mise en valeur des ressources humaines

Accroître la compétitivité et l'employabilité des Canadiens, élargir les possibilités d'emploi et répondre aux besoins du marché du travail en développant et en adaptant les compétences des ressources humaines au moyen d'un agencement de formation et d'expérience de travail, de la mobilisation des ressources de la collectivité et de mesures de planification et d'adaptation des ressources humaines nécessaires au bon fonctionnement du marché du travail canadien.

Service national de placement

Fournir aux travailleurs, employeurs clients et aux établissements d'enseignement l'information sur le marché du travail nécessaire à la prise de décisions relatives au marché du travail; assortir l'offre et la demande de main-d'oeuvre de façon que les employeurs trouvent efficacement et en temps voulu les travailleurs qualifiés dont ils ont besoin; encourager la planification des ressources humaines du secteur privé de même que d'offrir aux entreprises et aux particuliers des services de counselling et de consultation pour les aider à bien s'adapter aux conditions changeantes du marché du travail; et favoriser l'équité en matière d'emploi pour tous les résidents du Canada.

Assurance-chômage

Déterminer l'admissibilité des travailleurs qualifiés à recevoir un revenu temporaire pendant qu'ils sont en chômage; protéger l'intégrité du Compte d'assurance-chômage par la prévention, la dissuasion ou la détection des abus, le mauvais usage et la fraude; respecter la législation de base relative à l'assurance-chômage et élaborer des politiques et procédures appropriées pour son administration. Cette activité comprend aussi les contributions du gouvernement au compte d'assurance-chômage et au programme de Prestations aux pêcheurs.

Gestion du Programme et Services communs

Gérer la prestation des services au public, des services communs du Programme et l'élaboration des politiques nécessaires pour l'application des lois et règlements et l'exécution des programmes.

Emploi et Immigration Ministère/Commission Programme des services généraux et spéciaux

Objectif

Collaborer à l'élaboration et à la mise en œuvre des politiques et des programmes et fournir un appui sur les plans stratégique, opérationnel et administratif afin de permettre à Emploi et Immigration Canada de remplir sa mission et autres fonctions qui lui sont attribuées.

Description de l'activité

Gestion et administration centrales du Ministère
comprend les cabinets des ministres et les bureaux du sous-ministre et du sous-ministre associé, ainsi que Politique
stratégique et Planification, Affaires publiques, le contentieux et Affaires de la jeunesse.

Gestion et administration de la Commission

comprend les bureaux des commissaires (employeurs et travailleurs) et des directeurs exécutifs et généraux des
régions, ainsi que le Secrétariat exécutif et un certain nombre de services de soutien dont les Finances et
Administration, les Services du personnel et le Bureau de la vérification interne.

Systèmes et procédures

comprend la conception et l'administration des politiques, les plans et programmes ayant trait aux systèmes et
installations de traitement électronique des données et de télécommunications, ainsi que des systèmes d'écritures et
mécanographie connexes. Comprend aussi l'analyse de la gestion et la conception des formulaires.

Administration des rentes sur l'État

Le service spécial s'occupe de l'administration des marchés conclus avec des particuliers et des groupes en vertu de la
loi relative aux rentes sur l'État.

Administration de l'attribution des numéros d'assurance sociale

Le service s'occupe de l'attribution et du contrôle des numéros d'assurance sociale pour le compte de certains
programmes particuliers de l'État.

Conseil consultatif canadien de l'emploi et de l'immigration

A trait aux services de soutien associés au rôle consultatif du Conseil consultatif canadien de l'emploi et de
l'immigration.

Nota: Le niveau du personnel militaire du ministère de la Défense nationale est établi par le Cabinet. En 1988-1989, ce niveau a été fixé à 86,476 années-personnes militaires. Pour de plus amples renseignements sur la répartition des années-personnes militaires par activité, se reporter à la Partie III du Budget des dépenses du Ministère.

Services de communication

(Cet élément englobe la création et le maintien de forces ayant pour mission de s'occuper de l'information sous la forme de services de communications stratégiques, à l'appui des missions des Forces canadiennes et du gouvernement d'urgence. De plus, il fournit des services de recherche en communications et de radiogoniométrie à haute fréquence

Soutien du personnel

(Cet élément englobe la prestation des services requis pour le perfectionnement du personnel (recrutement, formation individuelle, instruction) et la gestion du personnel (administration, affectation professionnelle, appui spirituel, moral et bien-être) ainsi que la prestation des services médicaux et dentaires, suivant les besoins des membres militaires et civils du Ministère.

Appui matériel

(Cet élément englobe la prestation de services d'approvisionnement, de transport, de génie et d'entretien de l'équipement, de gestion des biens immobiliers et de recherche et de développement.

Direction des politiques et services de gestion

(Cet élément englobe la formulation d'objectifs de défense et d'options en matière de politique, ainsi que les recommandations appropriées, et la mise au point d'énoncés clairs de politique de défense approuvés par le gouvernement, pour l'instauration de directives générales en vue de la planification relative au développement au Ministère, et à la gestion du Programme des services de défense. L'importance égale est le rôle du commandement et du contrôle au sein duquel s'effectuent les préparatifs détaillés, sur le plan des opérations, du matériel, du personnel et des finances, en vue de périodes de crise ou de guerre. Ce rôle englobe également l'exercice du commandement et du contrôle à l'égard des opérations quotidiennes des Forces canadiennes dont les responsables sont le chef de l'état-major de la Défense ou les commandants subalternes délégués. En ce qui concerne les services de gestion de caractère plus général, cet élément englobe la mise au point et la direction générale des systèmes d'information de gestion, la consultation, la vérification, l'évaluation, les services financiers et de comptabilité au sein du Ministère conformément aux exigences des lois et règlements en vigueur.

Objetif

Prévenir l'emploi de la force ou de la coercition contre le Canada et contre les intérêts canadiens et être en mesure d'intervenir adéquatement si la stratégie de dissuasion s'avérait un échec.

Description des activités

Forces maritimes

Cet élément englobe la création et le maintien de forces maritimes, régulières et de réserve, polyvalentes conçues essentiellement pour défendre, en collaboration avec les États-Unis et les forces de l'OTAN, les voies d'accès maritimes de l'Amérique du Nord et les zones maritimes vitales pour l'OTAN; remplir, en collaboration avec les forces des États-Unis, des missions de surveillance pour détecter, dépister et identifier les forces sous-marines stratégiques menaçant l'Amérique du Nord. Les troupes levées à ces fins possèdent les capacités inhérentes indispensables pour remplir les autres missions qui leur sont confiées, plus exactement: protéger le territoire, les droits et intérêts canadiens contre toute menace d'attaque maritime; aider d'autres ministères et organismes gouvernementaux à faire respecter les lois et règlements canadiens dans les zones maritimes qui ressortissent au Canada; fournir un appui maritime dans le cadre d'accords internationaux pour empêcher ou prévenir des conflits hors du territoire de l'OTAN; contribuer au développement du pays.

Forces terrestres au Canada

Cet élément englobe la création et le maintien de forces terrestres, régulières et de réserve, polyvalentes conçues essentiellement pour remplir, de façon simultanée, la double mission de défendre, en collaboration avec les forces des États-Unis, l'Amérique du Nord contre toute menace militaire hostile et de détacher, en cas d'urgence, des forces terrestres supplémentaires pour la défense de l'Europe, dans le cadre des engagements envers l'OTAN. Les troupes levées à ces fins possèdent les capacités inhérentes indispensables pour remplir les autres missions qui leur sont confiées, plus exactement: affermir la stabilité internationale en participant à des activités de maintien de la paix, en collaboration avec d'autres membres de la collectivité internationale; aider les autorités civiles à assurer la surveillance, à conserver le contrôle et à veiller à la sécurité du territoire canadien; aider les autorités civiles en cas d'urgence ou de désastre; contribuer au développement du pays.

Forces aériennes au Canada

Cet élément englobe la création et le maintien de forces aériennes, régulières et de réserve, polyvalentes conçues essentiellement pour exécuter, de façon simultanée, la double mission de défendre l'Amérique du Nord, en collaboration avec les forces des États-Unis, contre toute menace aérospatiale et de détacher, en cas d'urgence, des forces aériennes polyvalentes supplémentaires pour la défense de l'Europe, dans le cadre des engagements envers l'OTAN. Cela comporte également la prestation d'un service de transport aérien pour appuyer les engagements militaires, au Canada et à l'étranger, des forces tactiques d'hélicoptères pour appuyer les engagements au Canada, des forces aériennes maritimes, pour appuyer les forces maritimes du Canada et des forces de recherche et sauvetage. Les troupes levées à ces fins possèdent les capacités inhérentes indispensables pour remplir les autres missions qui leur sont confiées, plus exactement: aider les autorités civiles à assurer la surveillance, à conserver le contrôle et à veiller à la sécurité de l'espace aérien du Canada, aider les autorités civiles en cas d'urgence ou de désastre et contribuer au développement du pays.

Forces canadiennes en Europe

Cet élément englobe la création et le maintien de forces militaires en Europe afin d'empêcher ou de prévenir toute attaque armée contre le territoire européen de l'OTAN. Cela inclut la triple mission d'assurer la présence de forces terrestres et aériennes et de veiller au commandement et à l'appui national de toutes les forces canadiennes qui, en cas d'urgence, serviraient en Europe.

Objectif

afin de sorte qu'une instance rende des décisions impartiales au sujet des demandes que les fournisseurs de matières dangereuses ou les employeurs qui en utilisent présentent pour obtenir des exemptions des exigences de réglementation du système d'information sur les matières dangereuses utilisées au travail prévues par la Loi sur les produits dangereux, le Code canadien du travail et diverses lois provinciales, en invoquant que les renseignements divulgués sont confidentiels sur le plan commercial; et gérer un processus d'appel objectif.

Description de l'activité

Conseil de contrôle des renseignements relatifs aux matières dangereuses

Le Conseil est un organisme indépendant chargé d'examiner les demandes que les fournisseurs de matières dangereuses ou les employeurs qui en utilisent présentent pour obtenir des exemptions des exigences de réglementation du système d'information sur les matières dangereuses utilisées au travail prévues par la Loi sur les produits dangereux, le Code canadien du travail et les diverses lois provinciales, en invoquant que les renseignements divulgués sont confidentiels sur le plan commercial. Les fournisseurs, les employeurs et les autres intéressés ont le droit d'interjeter appel des décisions rendues par les agents de contrôle, auprès d'une commission d'appel indépendante créée par le personnel du Conseil, en ce qui a trait à toute demande d'exemption et aux décisions concernant la conformité des fiches signalétiques ou des étiquettes de produits à la réglementation prescrite.

Objectif

Assurer une surveillance externe de la façon dont le Service canadien du renseignement de sécurité exerce ses fonctions; et examiner les plaintes déposées par des particuliers ou les rapports présentés par des ministres relativement à des habilitations de sécurité ou de la sécurité nationale du Canada.

Description des activités

Comité de surveillance des activités de renseignement de sécurité

Le Comité de surveillance effectue des recherches, entreprend des études, procède à des vérifications de conformité et, une fois l'an, présente au Parlement un rapport sur les activités du Service canadien du renseignement de sécurité. En outre, il fait enquête sur des dossiers pertinents, tient des audiences, assigne des témoins et présente des rapports aux administrateurs généraux et aux ministres concernés, ou au gouverneur en conseil.

Administration des relations de travail

Administration des relations de travail

La Commission des relations de travail dans la Fonction publique est le tribunal quasi judiciaire établi par la loi qui a été chargé d'appliquer la loi sur les relations de travail dans la Fonction publique. Cette loi a créé un régime de négociation collective et une procédure de règlement des griefs dans la fonction publique fédérale. La Commission est mandatarée, en tant que tierce partie neutre, pour régler, par son aide ou par une décision, les différends liés à la négociation, à l'application et à l'interprétation des conventions collectives, à l'imposition de mesures disciplinaires et à toute autre affaire tombant sous le coup de la loi.

La Commission abrite également le Conseil national mixte dans ses locaux et lui fournit des services de soutien administratif. Le CNM est un organisme consultatif composé de représentants de l'employeur et des employés et chargé des négociations sur les conditions de travail qui ne se prêtent pas à la négociation groupe par groupe.

Bureau de recherches sur les traitements

Le Bureau de recherches sur les traitements fait des enquêtes et des recherches sur les taux de rémunération, les avantages sociaux et les conditions de travail d'employés dont les fonctions sont comparables à celles de groupes d'employés dans la fonction publique qui sont visés par le régime de négociation établi par la Loi sur les relations de travail dans la Fonction publique. Le Bureau fait aussi des travaux semblables à l'égard de groupes qui sont exclus de ce régime.

Objetif

Formuler des conseils et des recommandations sur la façon dont le Canada peut atteindre les plus hauts niveaux d'emploi et de production efficace, à moyen et à long termes, afin que le pays puisse connaître un rythme accéléré et soutenu d'expansion économique et que tous les Canadiens puissent participer à la hausse du niveau de vie.

Description de l'activité

Travaux en cours au Conseil économique

- Dans la vaste gamme de fonctions stipulées par la Loi, trois ensembles d'activités décrivent le Programme: effectuer des recherches économiques et des analyses de politiques, organiser des consultations avec les représentants de tous les groupes socio-économiques et élaborer ses propres recommandations en matière de politique économique;
- faire connaître ses résultats et ses recommandations aux décideurs de tous les secteurs économiques pour qu'ils en tiennent compte dans l'élaboration de leurs propres politiques et stratégies ayant une incidence directe sur la performance de l'économie; et
- promouvoir une appréciation plus complète des questions et problèmes économiques dans tout le pays.

Description des activités

Comptabilité et établissement de rapports en matière de finances et de gestion

L'objectif de cet élément de programme consiste à établir et à maintenir, au sein de l'administration fédérale, un système de comptabilité et de rapports valables concernant les finances et la gestion. Cet objectif est poursuivi en élaborant et en mettant en œuvre des politiques en matière de finances, de comptabilité et de rapports connexes, y compris des lignes directrices sur la présentation et la tenue du Budget des dépenses et des Comptes publics ainsi que des spécifications pour la mise au point de systèmes financiers; en assurant aux ministères et organismes un service d'interprétation de politiques et une aide pour leur mise en application; en participant au recrutement d'agents financiers et à leur perfectionnement; et en apportant une aide aux autres organismes centraux pour l'élaboration de mesures législatives et de politiques touchant le contrôle et l'obligation de rendre compte qui incombent aux ministères et aux sociétés d'État, afin que ces lois et politiques soient conformes aux principes mis d'avant par le gouvernement en matière de comptabilité et de rapports.

Pratiques et processus de gestion

L'objectif de cet élément de planification consiste à faire établir et maintenir, par les ministères et les organismes, des processus et des systèmes de gestion valables concernant la planification stratégique et opérationnelle de même que les examens qui s'y rattachent. Cet élément englobe notamment les activités suivantes: la réalisation d'enquêtes et la collaboration à l'élaboration et à la mise en application, par les ministères et les organismes, de plans d'action touchant l'amélioration des pratiques de gestion; l'élaboration de politiques, de lignes directrices et de normes ayant trait à l'évaluation de programmes et à la vérification interne; la prestation d'une aide aux ministères et aux organismes pour la mise en œuvre des politiques d'évaluation et de vérification; le contrôle des pratiques d'évaluation et de vérification; la participation à la formation et au perfectionnement des gestionnaires, des évaluateurs de programmes et des vérificateurs internes; et l'élaboration, de concert avec les autres organismes, des évaluateurs de procédures qui devront être appliquées dans toute l'administration fédérale en vue d'assurer une demande de renseignements concernant l'évaluation et l'utilisation pertinente de ces renseignements.

Administration

Cet élément de programme comprend la gestion et le soutien des activités susmentionnées, ainsi que la prestation de services financiers, administratifs et du personnel.

Objectif

Aider le Conseil du Trésor dans l'exécution de ses responsabilités légales en ce qui touche la gestion des ressources financières, humaines et matérielles de l'État.

Description des activités

Gestion des dépenses

En se fondant sur l'analyse des projets et des programmes des ministères et dans le contexte du système de gestion des secours de dépenses, recommander au gouvernement l'acceptation ou la modification de propositions particulières relatives aux dépenses, afin

- de tenir compte de la priorité que le gouvernement attribue aux objectifs;
- d'accroître l'efficacité des programmes actuels et des programmes proposés;
- d'utiliser de façon plus efficace les années-personnes, les installations, l'équipement, le matériel et les approvisionnements destinés à l'exécution des programmes;
- d'établir le Budget des dépenses à faire approuver par le Parlement.

Gestion du personnel

Élaborer, diffuser et évaluer les politiques, les règlements, les normes et les systèmes concernant le personnel ainsi que les conditions d'emploi pour permettre aux gestionnaires de gérer et de retenir les ressources humaines nécessaires à la réalisation des programmes gouvernementaux.

Relations de travail

Élaborer et appliquer des politiques favorisant des rapports efficaces entre employeur et employés dans la fonction publique fédérale.

Politique administrative

Élaborer, diffuser et évaluer des politiques, règlements, normes et systèmes administratifs et concernant l'information afin de maintenir la probité et la prudence dans l'acquisition et l'utilisation des biens et services nécessaires à la réalisation efficace des programmes gouvernementaux.

Langues officielles

Élaborer, diffuser et évaluer des politiques et programmes de langues officielles dans la fonction publique fédérale.

Bureau de gestion des biens immobiliers

L'amélioration de la gestion du portefeuille fédéral des propriétés immobilières et de l'efficacité des politiques régissant les services des propriétés immobilières et l'occupation de ces propriétés.

Administration centrale

Comprend les services de haute direction au Secrétariat et les services d'information, des finances, du personnel et d'administration.

Musée canadien des civilisations

Le musée national d'envergure internationale, y compris le Musée canadien de la guerre, qui recueille, enregistre, conserve et étudie des collections d'objets dans les domaines de l'histoire (y compris l'histoire militaire), de l'ethnologie, de l'archéologie, de l'anthropologie physique et de la culture traditionnelle, et qui diffuse des connaissances connexes.

Musée national des sciences naturelles

Le musée national d'envergure internationale qui recueille, enregistre, conserve et cherche à comprendre des collections d'objets et diffuse des connaissances dans le domaine des sciences naturelles et physiques (y compris la botanique, la zoologie, la paléontologie, les sciences de la terre et l'astronomie).

Musée national des sciences et de la technologie

Le musée national d'envergure internationale, y compris une annexe et un Musée national de l'aviation autonome pour ses activités de conservation, qui recueille, enregistre, conserve et étudie des collections d'objets dans les domaines de la technologie et des sciences connexes, et qui diffuse des connaissances à ce sujet.

Services à la corporation

Groupe d'activités qui consistent à fournir des services, des systèmes, des conseils et des conseils dans les domaines de la gestion, des techniques et de l'administration à tous les éléments constituant des Musées nationaux du Canada et à d'autres organismes canadiens et étrangers.

Objectif
Faciliter l'utilisation des ressources des bibliothèques du pays par le public et le gouvernement fédéral.

Description de l'activité

Bibliothèque nationale

La Bibliothèque est divisée en trois secteurs de base pour faciliter la réalisation de son objectif.

- La gestion des collections comprend toutes les activités relatives au développement des collections de la Bibliothèque, au catalogage de ces collections, ainsi qu'à la normalisation et à la diffusion des données bibliographiques. Ces fonctions sont assumées par les Acquisitions et services bibliographiques.
- Les services de bibliothèque comprennent les activités ayant trait à la prestation directe aux clients de la Bibliothèque de services consultatifs, d'information, de référence, de renvoi, de livraison de documents et de systèmes. Ces services sont fournis par les Services au public et les Services de la technologie de l'information.
- Le secteur Planification des politiques et liaison comprend les activités se rapportant à la planification fédérales et la préparation des publications et expositions liées au mandat de la Bibliothèque. Ces activités sont l'responsabilité du personnel des bureaux du directeur général adjoint et des relations externes.

Objetif

Produire et distribuer des films pour les auditoires canadiens et les marchés étrangers afin d'accroître la connaissance des réalités sociales et culturelles canadiennes et ce faisant, contribuer au développement d'une industrie du film florissante.

Description de l'activité

Opérations de l'Office national du film

- L'activité principale par laquelle l'Office veut atteindre son objectif se divise en cinq secteurs de base:
 - La Programmation, qui comprend la création, la production et la mise en marché de films et d'autre matériel visuel à l'intention des auditoires canadiens et étrangers.
 - La Distribution, dont le rôle est de favoriser l'accès aux films de l'ONF, à un choix de films réalisés par d'autres organismes canadiens et aux films commandités par les ministères du gouvernement. Cette diffusion est réalisée par l'intermédiaire du réseau national de cinémathèques de l'ONF et d'ententes conclues avec des institutions publiques.
 - La Recherche technique, qui comprend l'instauration et la réalisation de projets visant à faire progresser l'art et la technique cinématographiques.
 - La Formation, qui s'applique à des projets de formation et de perfectionnement dans les métiers du cinéma à l'intention de cinéastes et de techniciens de l'extérieur de l'Office national du film; elle comporte des périodes de formation ou un appui à des programmes ou à des organisations de formation cinématographiques.
 - L'Administration, dont la haute direction et les services reliés au personnel, aux finances et à l'administration générale.

Objectif

Mettre au point et offrir aux Canadiens un service national de radiodiffusion dans les deux langues officielles et assurer un service international, soit deux services de nature essentiellement canadiennes.

Description du financement par voie de crédits

Les principales activités auxquelles la Société se livre pour atteindre ses objectifs se classent sous deux grandes rubriques. Service national de radiodiffusion et dépenses en capital.

Service national de radiodiffusion

- Émissions.* Tous les services de radiodiffusion, que ce soit à la radio ou à la télévision, en langue française ou anglaise, de caractère national, régional ou local;
- conception des émissions et des horaires répondant aux objectifs;
 - obtention, d'autres organismes de production, d'émissions qui contribuent à la réalisation des objectifs de la Société, et
 - production d'émissions en direct, sur film, sur ruban magnétoscopique ou sur toute autre forme d'enregistrement qu'il convient d'adopter.

Distribution. Réseau du service national de radiodiffusion, partout au Canada où la diffusion est possible, par l'intermédiaire des stations de la Société ou du secteur privé. La diffusion s'effectue par satellite, par micro-ondes, par fil ou au moyen d'envoi de films ou de bandes. Cette activité englobe également la fourniture du signal qui transmet le service jusqu'au récepteur privé de radio et de télévision grâce à des émetteurs appartenant à la Société, les paiements aux stations privées affiliées qui retransmettent les émissions de la Société, les émetteurs de basse puissance qui desservent les régions à faible densité démographique et les installations qui permettent de diffuser ou d'anticiper les émissions diffusées dans les divers fuseaux horaires du pays.

Gestion et services des médias. Services auxiliaires dans les divers centres de production et de diffusion: direction locale, supervision des émissions, ingénierie et services financiers, administratifs et du personnel essentiels.

Frais des ventes (y compris les commissions aux agences et aux réseaux): L'effort de vente et de commercialisation nécessaire pour programmer et insérer la publicité vendue aux annonceurs. Cela comprend aussi les commissions versées à d'autres réseaux de radiodiffusion pour des émissions ou à des agences de publicité pour la vente de temps d'antenne ou d'émissions au réseau.

Radio Canada International. Cette activité comporte la réalisation d'émissions en langues française, anglaise et étrangères à l'intention d'autres pays afin d'assurer la présence canadienne à l'étranger, de susciter l'intérêt des immigrants et des touristes éventuels, de maintenir des liens personnels entre les Canadiens et leurs parents et compatriotes à l'étranger, et de promouvoir indirectement la politique extérieure et le commerce international du Canada, etc.

Service général d'ingénierie. Cette activité comprend la recherche appliquée, les études, et la formation dans les domaines de la production de télévision et des techniques de distribution; la prestation de services d'architectes et d'immobilisations.

Service général de gestion. Nota: L'activité de l'Agence des télécommunications gouvernementales est financée au moyen d'un fonds renouvelable. Les prévisions de dépenses qui figurent dans ce tableau renvoient aux besoins de trésorerie du fonds pour l'exercice financier. Elles ne reflètent pas directement le bénéfice ou le déficit de fonctionnement que produira le fonds puisque celui-ci fonctionne selon la méthode de la comptabilité d'exercice. Par conséquent, certaines dépenses en argent inscrites dans le Budget des dépenses n'influent pas sur le solde de fonctionnement et certains autres éléments qui doivent être pris en considération dans le calcul du bénéfice ou du déficit ne nécessitent pas de dépenses en argent (les deux types de dépenses peuvent être rapprochés d'un façon suivante).

Objectif

Produire des renseignements et des analyses statistiques sur la structure économique et sociale et sur le fonctionnement de la société canadienne comme base pour l'élaboration, l'application des politiques et programmes publics et pour la prise de décisions dans les secteurs public et privé, de même que dans l'intérêt général de tous les Canadiens, et promouvoir la qualité, la cohérence et la comparabilité sur le plan international du système statistique canadien en collaborant avec d'autres ministères et organismes fédéraux ainsi qu'avec les provinces et territoires et en se conformant aux normes et pratiques scientifiques reconnues.

Description des activités

Statistique économique internationale et nationale

Activité dont les principaux objectifs sont de produire des données et des analyses statistiques ayant trait à la mesure des composantes nationales et internationales de la performance économique du Canada, et de coordonner les activités de collecte et de regroupement des données avec d'autres ministères fédéraux et avec les provinces et les territoires afin de réduire au minimum le fardeau de réponse imposé au monde des affaires.

Statistique socio-économique

Activité dont les principaux objectifs sont de produire des données et des analyses statistiques relatives aux phénomènes économiques considérés comme ayant une grande incidence sur la situation des familles et des particuliers, et de coordonner les activités statistiques relatives aux questions socio-économiques avec les autres ministères et organismes fédéraux ainsi qu'avec les provinces et les territoires.

Recensement et statistique sociale

Activité dont les principaux objectifs sont de produire des données et des analyses statistiques sur la population canadienne, ses caractéristiques démographiques et sa situation, produire les données du recensement de la population et coordonner les activités statistiques relatives aux questions sociales avec les autres ministères et organismes fédéraux ainsi qu'avec les provinces et les territoires.

Statistique des institutions

Activité dont les principaux objectifs sont de produire des renseignements et des analyses sur la nature et le fonctionnement du secteur public et du secteur des institutions, élaborer des notions, des définitions et des systèmes de classification communs et en promouvoir l'utilisation, et coordonner les activités de collecte de données sur les institutions avec les provinces, les territoires et les autres ministères fédéraux.

Infrastructure technique

Activité dont le principal objectif est de fournir une infrastructure de services centralisés et spécialisés, dans des domaines comme la recherche et l'analyse, la commercialisation et l'information, les systèmes de classification, les méthodes statistiques, les opérations et les services régionaux et l'informatique, afin d'étayer les différents programmes statistiques du Bureau et de les mener à bien.

Services de gestion centrale

Activité dont le principal objectif est de fournir des services de direction et de gestion centraux dans des domaines comme les pratiques de gestion, les finances, le personnel et les services de soutien administratifs, en vue d'aider à atteindre les objectifs du Programme du Bureau.

Objectif

(Offrir aux producteurs efficaces de lait et de crème l'occasion d'obtenir une juste rétribution de leur travail et de leur investissement et assurer aux consommateurs de produits laitiers un approvisionnement continu et suffisant de produits laitiers de bonne qualité.

Description du financement par voie de crédits

Administration et opérations

Détermination d'un prix visé pour le lait et la crème de transformation, coordination de la gestion nationale d'approvisionnement de lait industriel, soutien du prix du beurre et de la poudre de lait écrémé au moyen d'un programme national d'offre d'achat, versement de subventions aux producteurs de lait et de crème admissibles, mise en marché internationale et intertecture de certains produits laitiers, analyse et évaluation économiques, dépenses des commissaires et du personnel de soutien administratif pour la gestion de ces programmes.

Le gouvernement fédéral pourvoit, dans le Programme agro-alimentaire du ministère de l'Agriculture, au paiement des subventions et des frais de mise en marché causés par le financement des achats, de la manutention et de l'entreposage de la poudre de lait écrémé produite dans le cadre des besoins intérieurs de matière grasse. Les producteurs sont responsables des frais de mise en marché occasionnés par la production de beurre et de lait en surplus des besoins intérieurs et du quota d'exportation.

Programme des céréales et oléagineux

Objectif

Promouvoir la croissance, la stabilité et la compétitivité de l'industrie des céréales et des oléagineux, un segment du secteur agro-alimentaire canadien.

Description des activités

Commission canadienne des grains

Sous le régime de la Loi sur les grains du Canada, la Commission est chargée d'exécuter les tâches suivantes : services d'inspection des céréales aux silos-éleveurs terminus et aux silos de transbordement autorisés; préparation et distribution d'échantillons normalisés de céréales; conseils sur la lutte contre les insectes dans les céréales; entraposées; contrôle officiel du pesage aux silos-éleveurs terminus et de transbordement autorisés; pesage de vérification des céréales aux silos-éleveurs terminus et aux silos de transbordement; inspection des installations et des balances des silos-éleveurs, collecte, compilation et publication de statistiques sur les céréales; analyse économique des fonctions de réglementation du Programme; octroi de permis aux silos-éleveurs et aux marchands grainiers; services informatiques, y compris un service de documentation sur les céréales passant par les silos terminus; inscription des récépissés d'entrepôt pour les céréales; attribution de wagonnées aux producteurs; enquêtes, études de variétés et recherches fondamentales et appliquées sur la qualité des nouvelles cultures céréalières et des céréales mises en marché; gestion au niveau de la Direction générale et de la Division; personnel de soutien des services financiers, administratifs et de planification; supervision des rapports sur le marché à terme présentés aux commissaires nommés en vertu de la Loi sur les grains du Canada.

Stabilisation et soutien industriels

Administrer, élaborer et mettre en oeuvre des politiques et des programmes de stabilisation pour les céréales et les oléagineux; percevoir des cotisations et verser des contributions ainsi que des paiements aux producteurs de céréales et d'oléagineux conformément à la Loi de stabilisation concernant le grain de l'Ouest; verser des paiements à la Commission canadienne du blé (CCB) au titre de l'intérêt sur les avances en espèces qu'elle a consenties aux producteurs de l'Ouest canadien pour le grain conservé à la ferme; rembourser à la CCB le montant exigible des avances en espèces consenties aux céréaliculteurs de même que le montant correspondant au déficit des comptes de mise en commun de la CCB; faire converger les rapports du gouvernement fédéral avec le secteur des coopératives; et fournir une aide et verser des subventions ainsi que des contributions au secteur pour promouvoir l'amélioration et la compétitivité des produits de céréales et d'oléagineux.

Politiques et commerce internationaux

Contribuer à maintenir et à élargir les échanges commerciaux du Canada dans le domaine des céréales, des oléagineux et de leurs produits en analysant l'évolution du commerce international et en préparant des options de politiques à cet égard et en matière de commercialisation. Participer aux négociations commerciales bilatérales et multilatérales, qui portent notamment sur l'accès aux marchés. Faciliter la commercialisation des céréales et des oléagineux en consultant les exportateurs sur l'utilisation des divers programmes (par exemple, les crédits à l'exportation, l'aide alimentaire et le développement des marchés extérieurs). Représenter le Canada aux tribunes internationales pertinentes. Tenir une base de données sur le commerce international des céréales et des oléagineux.

Gestion et administration

Assurer le soutien administratif au Cabinet du ministre d'État (céréales et oléagineux) : assurer l'orientation des activités de soutien du gouvernement fédéral dans l'application et l'élaboration efficaces des politiques, programmes et services relatifs aux céréales et aux oléagineux; analyser des politiques domestiques et internationales et effectuer des analyses économiques concernant le secteur des céréales et des oléagineux; et fournir des services administratifs et financiers pour la Direction générale des céréales et des oléagineux.

Politique agricole

Mettre au point des stratégies globales de développement par secteur de production, axées sur les marchés; continuer d'offrir des services d'analyse des marchés de produits et d'analyse économique; analyser la structure et la performance du secteur agro-alimentaire; analyser les autres politiques et programmes qui influent sur le secteur agro-alimentaire, en cherchant des façons d'atténuer les retombées négatives prévisibles; coordonner l'élaboration des politiques avec les stratégies et les programmes du Ministère, et prescrire, en matière de politique et prestation de conseils aux responsables du Programme des céréales et oléagineux.

Programmes internationaux

Formuler, établir et orienter les démarches du Ministère concernant la politique de commerce extérieur, les programmes d'exportation et les activités connexes visant à élargir le ministère des Affaires extérieures; donner des conseils en matière de politique, assurer la coordination du groupe des Affaires internationales du Programme des céréales et oléagineux et l'appuyer en ce qui a trait aux plans et aux priorités du ministère d'État (céréales et oléagineux) et les États-Unis et celles du GATT, favoriser le maintien des marchés d'exportation ainsi que le développement des produits et des techniques agro-alimentaires du Canada, en servant de point de contact pour l'affectation des ressources techniques, scientifiques et spécialisées que le ministère de l'Agriculture met à la disposition du ministère des Affaires extérieures pour l'aider à atteindre ses objectifs; participer à l'établissement, à la définition, à la promotion et à la diffusion des démarches que le Canada adoptera à l'occasion des discussions bilatérales et multilatérales (par exemple, les protocoles d'entente agricole, les rencontres de la FAO, de l'OCCDE et du Programme alimentaire mondial); planifier et mettre en œuvre des projets d'aide au développement technique de l'agriculture, de concert avec l'ACDI.

Développement agricole

Mettre au point, mettre en œuvre et exécuter des initiatives agro-alimentaires régionales en collaboration avec les autres paliers de gouvernement et avec le secteur privé afin d'améliorer le rendement des activités de production et de commercialisation du secteur agricole tout en valorisant les ressources naturelles; développer les secteurs des productions animales, des productions végétales et de l'alimentation à l'aide de programmes visant à accroître la rentabilité de ces secteurs, améliorer la productivité et la compétitivité des secteurs de production animales et végétales, de même que la compétitivité du secteur de la transformation, de la distribution et de la vente au détail; offrir une aide aux agriculteurs en difficulté financière et de production, suivre l'exécution des programmes climatiques et environnementaux qui ont une incidence sur la productivité et sur la compétitivité du secteur des productions végétales; administrer la loi sur le rétablissement agricole des Prairies au Manitoba, en Saskatchewan et en Alberta et offrir des programmes favorisant la mise au point de l'adoption de techniques améliorées pour l'arboriculture, l'appvisionnement en eau, la conservation des ressources en sol et en eau, l'utilisation des terres et l'établissement sur les terres; surveiller les activités des offices nationaux de commercialisation mis sur pied en vertu des dispositions de la loi sur les offices de commercialisation des produits de ferme, afin de s'assurer qu'ils se conforment à la réglementation établie, promouvoir la création de nouveaux offices et contrôler les coûts de production et les prix de vente des produits réglementés.

Objectif

Favoriser la croissance, la stabilité et la compétitivité du secteur agro-alimentaire en créant les politiques, les programmes et les services que l'État fédéral est le plus apte à offrir, de façon à ce que le secteur puisse contribuer pleinement à l'économie nationale.

Description de l'activité

Recherche et développement dans le domaine scientifique

Les recherches portent sur la mise au point de nouvelles techniques dans les domaines suivants: les sols, les ressources en eau utilisées en agriculture, les pratiques agricoles et les risques associés au climat, l'utilisation de l'énergie à tous les paliers du secteur agro-alimentaire, la dégradation du territoire agricole, les ressources biologiques utilisées en agriculture; l'accroissement du potentiel de commercialisation à long terme des produits agricoles canadiens; l'amélioration de l'efficacité des productions animales et végétales et de leur faculté d'adaptation au climat canadien; la baisse des coûts de production; la compréhension et la maîtrise des mécanismes physiologiques qui influent sur les processus de la digestion, de la reproduction et de la croissance; la résistance aux maladies avec un accent sur la définition moléculaire et cellulaire ainsi que sur la synthèse de produits; l'élaboration des stratégies pour la lutte contre les parasites, l'amélioration des méthodes de nutrition des plantes, l'évaluation des obstacles à la production végétale dans les nouvelles zones d'exploitation et la création de nouvelles variétés aux qualités supérieures; le perfectionnement des méthodes de culture et des techniques de récolte et de conservation; la mise au point et le transfert de nouvelles techniques portant sur l'extraction et l'utilisation des éléments des céréales, des oléagineux et d'autres cultures, la transformation des fruits et légumes, le contrôle de la qualité et la réduction des coûts de production ainsi que de la transformation des viandes et des produits carnés; isoler et éliminer les composés toxiques dans les aliments destinés à la consommation animale et humaine; recueillir et diffuser l'information sur la valeur nutritive de certaines cultures, la teneur en matières nutritives et l'innocuité des aliments, le métabolisme des graisses d'origine végétale et animale, les méthodes et les procédés relatifs aux nouveaux ingrédients et produits alimentaires; ayant des possibilités commerciales, le recyclage et la valeur ajoutée des résidus de produits agro-alimentaires.

Inspection et réglementation

La réglementation et l'inspection des animaux, des végétaux, des produits animaux et des produits biologiques importés, ainsi que des facteurs de production agricole, notamment les pesticides, les aliments du bétail, les engrais et les compléments alimentaires; la lutte contre les maladies exotiques, les insectes, les mauvaises herbes et les autres matières dangereuses d'origine végétale ou animale qui se sont introduites au Canada et voir à leur élimination; l'élimination des risques que les substances chimiques ou bactériennes associées aux produits alimentaires et agricoles posent pour la santé et la sécurité des humains; la lutte contre les maladies animales ou végétales indigènes d'importance économique ou médicale et voir à leur éradication; l'inspection et la certification sanitaire des animaux, des plantes et des produits végétaux destinés à l'exportation; l'inspection avant et après l'abattage des animaux et des volatiles ainsi que la surveillance et l'enregistrement des établissements qui s'adonnent à la production, à la conservation ou au transport des aliments; le classement des carcasses de bestiaux et le contrôle des normes de classement des fruits et légumes; l'inspection, le classement et/ou la classification de semences; la recherche sur les maladies animales; l'établissement et l'application de règlements sur les hippodromes et les systèmes de pari mutuel.

Programmes des finances agricoles

L'offre de garanties d'emprunt en vertu de la Loi sur les prêts destinées aux améliorations agricoles et à la commercialisation selon la formule des coopératives; les ajustements aux taux d'intérêt et aux prêts en vertu des programmes d'examen de l'endettement agricole et de prêts basés sur les prix des produits; le soutien des programmes provinciaux d'assurance-récolte qui protègent les producteurs contre les risques naturels et les pertes de récoltes attribuables à d'autres facteurs (oiseaux aquatiques migrants); l'office de garanties d'emprunt en vertu de la Loi sur les paiements anticipés sur les récoltes; l'offre de garanties du prix de gros moyen d'un produit commercialisé en vertu de la Loi sur la vente coopérative des produits agricoles; l'achat, la vente, l'importation, l'entrepôtage, le transport et la transformation des produits agricoles; et le versement de paiements d'appoint pour stabiliser les prix des produits agricoles.

Objectif

Assurer la direction et le soutien nécessaires pour une exécution efficiente et efficace de la politique, des programmes et des services du Ministère.

Description de l'activité

Direction supérieure

Cabinet du ministre, du ministre d'État (Agriculture), du sous-ministre, du secrétaire ministériel, et du sous-ministre adjoint principal; vérification, évaluation et planification d'urgence; assurer l'établissement de stratégies, de politiques, de programmes, de priorités et l'affectation des ressources ministérielles; veiller à ce que le Ministère soit prêt à réagir à des urgences d'ordre national conformément aux ordonnances relatives à la planification d'urgence.

Services de gestion

Fournir des services du personnel au Ministère, notamment la dotation, la classification, les relations de travail, la formation, le perfectionnement et les langues officielles; soutenir le processus de gestion du Ministère en se chargeant de la planification et de l'information financières et opérationnelles, en augmentant la productivité et en améliorant les capacités des ressources ministérielles, et en assurant la mise au point et en appliquant des stratégies efficaces de gestion des actifs ainsi qu'en assurant l'entretien des installations du Ministère; fournir des services de bibliothéconomie; fournir des services d'information et de relations publiques pour soutenir les activités du Ministère.

Objectif

Promouvoir l'évolution politique, le développement économique et social et l'épanouissement culturel des territoire du Nord et, de concert avec les gouvernements territoriaux et les autres ministères fédéraux, assurer l'utilisation ordonnée, l'exploitation et la conservation des richesses naturelles du Nord et protéger l'environnement du Nord pour le bénéfice de tous les Canadiens et des habitants du Nord en particulier.

Description des activités

Evolution politique, développement social et épanouissement culturel

Gestion des relations entre le ministère et les gouvernements territoriaux en ce qui concerne l'évolution politique, la délégation des responsabilités et les questions fiscales, la promotion de l'art et des artistes inuit, la promotion de la culture et des langues inuit, la prestation d'aide financière aux organismes autochtones pour leur permettre de faire valoir leur point de vue au sujet du développement économique et social et, enfin, le financement des gouvernements territoriaux pour leur permettre d'assumer les coûts liés à l'hospitalisation, aux soins médicaux et au logement (au Yukon) lorsque ces services sont offerts aux Indiens inscrits et aux Inuit.

Planification et développement économiques

Assurer l'analyse suivie de l'économie du Nord et l'établissement progressif d'une stratégie économique globale, ainsi que la réalisation de plans et d'analyses à cet égard, plus précisément en ce qui concerne les travaux de la Commission d'énergie du Nord canadien (CENC) et les subventions à la consommation d'énergie dans le Nord, négocier et mettre en oeuvre des ententes de développement économique dans chacun des territoires, faire en sorte que les habitants du Nord tirent le maximum d'avantages des projets d'exploitation des ressources, promouvoir et appuyer les entreprises autochtones, planifier l'infrastructure nécessaire aux transports dans le Nord, construire des routes dans le Nord et coordonner l'examen et la réglementation, par le gouvernement fédéral, des grands projets d'exploitation des ressources.

Gestion des ressources renouvelables et protection de l'environnement

Assurer, un peu à la manière d'un gouvernement provincial, la gestion des eaux, des forêts et des terres et la protection de l'environnement du Nord. Gérer les ressources renouvelables appartenant à l'Etat en veillant à l'application des lois et des règlements pertinents, soit en traitant les demandes présentées par des sociétés, des collectivités et des particuliers qui veulent obtenir le droit d'utiliser les ressources, en veillant au respect des droits et en procédant à des inspections pour s'assurer que les modalités d'utilisation sont respectées. Pour assurer la gestion des ressources, le Programme doit vérifier la quantité et la qualité des ressources renouvelables de façon à disposer des données nécessaires pour traiter efficacement les demandes d'utilisation. L'élément de planification dont il est question ici englobe aussi la lutte contre les incendies de forêt et les préparatifs nécessaires, l'élaboration de plans d'aménagement du territoire adaptés à diverses utilisations et propres à régler les différends à ce sujet, la mise en oeuvre du processus d'évaluation et d'examen en matière d'environnement (PEEE) dans le Nord, la réglementation en ce qui concerne les répercussions sur l'environnement de l'utilisation des terres, plus précisément en ce qui a trait aux terres innocuées de l'Etat et aux seules situées au large des côtes, et la réalisation de recherches appliquées liées à l'environnement. Il comprend en outre l'administration, pour le compte du MAINC, du fonds de recherches sur les études éclairées puiissent être prises relativement aux activités pétrolières et gazifères, afin que des décisions éclairées puissent être prises relativement aux activités pétrolières et gazifères. Ce fonds est financé entièrement au moyen des impôts qui sont perçus auprès des propriétaires de ressources pétrolières et gazifères dans les terres du Canada.

Gestion des ressources non renouvelables

Assurer, à peu près à la manière d'un gouvernement provincial, la gestion des richesses minérales du Nord en veillant à l'application des lois régissant l'acquisition, le maintien et l'inscription des droits miniers, en dispensant des services à caractère géologique et en faisant appliquer des lignes de conduite destinées à favoriser l'exploitation minière dans le Nord. On tient compte des intérêts et des préoccupations des habitants du Nord relativement à l'exploitation et à l'exploitation pétrolières et gazifères dans le cadre des activités de l'APGTC. Coordonner les recherches entreprises dans le cadre du Programme d'initiatives pétrolières et gazifères et mettre en oeuvre l'entente sur les réserves commerciales prouvées de Norman Wells.

Objetif

Faciliter, favoriser et appuyer la coopération entre le Canada et les pays en développement en ce qui a trait au développement des ressources océaniques.

Description du financement par voie de crédits

Le Centre international d'exploitation des océans a pour mandat d'amorcer, d'encourager et d'appuyer la collaboration entre le Canada et les pays en développement dans le domaine de la mise en valeur et de la gestion des ressources océaniques. Il s'agit de sa mission par la prestation d'une aide technique ainsi que de programmes d'information et de formation. La Division de l'aide technique contribue à la création d'institutions et de compétences nationales ou régionales en matière de mise en valeur et de développement des océans ou au renforcement des institutions ou compétences existantes, au moyen de programmes visant tous les niveaux d'utilisation et de gestion des ressources, allant des services de développement au stade des villages et des projets à petite échelle aux programmes plus vastes de pêche et de gestion maritime. La Division de l'information aide les pays en développement à établir et à gérer eux-mêmes les systèmes d'information dont ils ont besoin pour élaborer leurs politiques et programmes de gestion maritime. Elle fournit aussi des services d'information aux divisions chargées de l'exécution des programmes et est responsable de la production et de la diffusion des produits d'information ainsi que des activités de relations publiques au Canada et à l'étranger. Les ressources maritimes. La division gère également un programme de bourses à plusieurs volets qui s'adresse à des personnes désireuses d'étudier dans des établissements canadiens et dans certaines institutions internationales désignées. La Division des finances et de l'administration collabore avec le conseil d'administration et offre des services financiers et administratifs généraux aux divisions responsables de l'exécution des programmes.

Objectif

Encourager les efforts des pays du tiers monde en vue d'un développement économique et social autonome compatible avec leurs besoins et leur environnement, en collaborant avec eux à la réalisation d'activités de développement; et accorder une assistance humanitaire et, partant, favoriser les intérêts politiques et économiques du Canada à l'étranger grâce à la promotion de la justice sociale, de la stabilité internationale et des relations économiques à long terme, au profit de la communauté mondiale.

Description des activités

La coopération de pays à pays englobe l'aide au développement que l'ACDI fournit à certains pays du tiers monde et des institutions régionales. Elle comprend également l'aide au développement allouée par l'intermédiaire des gouvernements provinciaux, des organisations non gouvernementales ainsi que d'institutions et de firmes privées canadiennes.

Nota L'activité relative aux passeports est financée au moyen d'un fonds renouvelable. Les prévisions de dépenses qui figurent dans ce tableau renvoient aux besoins de trésorerie du fonds pour l'exercice. Elles ne reflètent pas directement le bénéfice ou le déficit de fonctionnement que produira le fonds puisque celui-ci fonctionne selon la méthode de la comparabilité d'exercice. Par conséquent, certains autres éléments qui doivent être pris en considération dans le calcul du bénéfice ou du déficit ne nécessitent pas de dépenses directes en argent. Ces deux types de dépenses peuvent être rapprochés de la façon suivante:

Déficit de fonctionnement prévu	206
Moins	
Éléments hors caisse compris dans le calcul du déficit de fonctionnement	615
Plus	
Dépenses en argent non comprises dans le calcul du déficit de fonctionnement	128
Nouvelles acquisitions d'immobilisations	467
Total des prévisions (besoins de trésorerie net)	186

Pour de plus amples renseignements sur le fonds renouvelable des passeports, se reporter à la Partie III du Budget des dépenses du Ministère.

Passports
Livraison de titres de voyage et prestation d'instructions et de directives aux missions à ce sujet.
Le Parlement a autorisé précédemment un prélèvement total de \$4,000,000 au titre du fonds renouvelable des passeports. Voici comment il est prévu d'utiliser cette autorisation du Budget des dépenses:

Programme du Bureau de services juridiques des pensions

Objectif

S'assurer que les personnes qui veulent faire des demandes en vertu de la Loi sur les pensions et des lois connexes ou présenter un appel en vertu de la Loi sur les allocations aux anciens combattants ont accès à un service juridique professionnel indépendant qui fournit une relation d'avocat et de client.

Description de l'activité

Ce Bureau fournit une aide juridique aux personnes qui veulent faire des demandes en vertu de la Loi sur les pensions, S.R., c. 207, art. 1, et des lois et ordonnances connexes ou présenter un appel au Tribunal d'appel des anciens combattants. Ce service est fourni par des avocats - conseils professionnels et un personnel de soutien à 19 endroits dans tout le Canada. Le Bureau doit accepter toutes les demandes d'aide provenant de personnes admissibles, anciens combattants ou personnes à charge des anciens combattants décédés. Les services du Bureau sont gratuits, mais les requérants peuvent employer un avocat privé à leurs frais ou être représentés par l'agent des services d'une association reconnue d'anciens combattants.

Affaires des anciens combattants Programme des affaires des anciens combattants

Objectif
Fournir l'appui nécessaire au bien-être physique, mental, social et financier des anciens combattants, des personnes à leur charge ainsi que des autres personnes admissibles.

Description des activités

Pensions
Administration et paiement des pensions et prestations d'invalidité ou de décès conformément à la Loi sur les pensions, à la Loi sur les pensions et allocations de guerre pour les civils, au Règlement sur l'indemnisation en cas d'accident d'aviation, à l'ordonnance sur l'indemnisation des employés civils (Guerre) de l'État et aux lois et ordonnances connexes, ainsi que le paiement de compensations conformément à la Loi d'indemnisation des anciens prisonniers de guerre.

Soutien financier
Administration des questions relatives au soutien financier et aux autres programmes spéciaux pour les anciens combattants, les personnes à leur charge et certaines autres personnes désignées. Ces prestations comprennent les allocations aux anciens combattants, les allocations de guerre aux civils et une aide financière supplémentaire fondée sur le besoin; l'aide à l'éducation pour les anciens combattants et les orphelins pensionnés d'anciens combattants; des services spécialisés de bien-être pour les anciens combattants aveugles, sourds ou paraplégiques; des mesures spéciales d'aide au logement pour les anciens combattants. Exploitation de deux ateliers en milieu protégé pour la production de coquillots et de couronnes commémoratives vendus à l'occasion de la campagne annuelle du coquillot de la Légion royale canadienne et de divers autres événements commémoratifs.

Soins de santé
Fournir aux anciens combattants admissibles les soins hospitaliers, médicaux et d'hébergement; les services médicaux et dentaires dans les cliniques externes du Ministère; les examens pour les soins de santé; la consultation en matière de bien-être social; les services de prothèses ainsi que la formation, les allocations et les prestations connexes.

Gestion des contrats immobiliers
Assurer des services de gestion immobilière et autres, y compris un service d'orientation après l'emprunt, un service d'évaluation des propriétés immobilières, et l'administration de contrats de vente relativement aux propriétés dont les titres sont au nom du Directeur, Loi sur les terres destinées aux anciens combattants.

Administration du Ministère
Fonctionnement du cabinet du Ministère, des bureaux du sous-ministre et de deux sous-ministres adjoints, et soutien administratif à l'appui de la gestion financière, de la gestion du personnel, des services de gestion, de la refonte des textes législatifs, de la planification intégrée, des affaires publiques, du secrétariat du Ministère, des services de vérification et d'évaluation et de la coordination de l'accès à l'information et de la protection des renseignements personnels.

La plupart des paiements compris dans le présent article courant sont détaillés dans le Budget des dépenses sous « subventions ou « contributions ». Les premières ne sont pas soumises à la vérification et sont, par conséquent, soumises à l'approbation du Parlement en ce qui concerne le montant, le bénéficiaire et même leur objet; les secondes sont soumises à la vérification et ne sont pas ainsi limitées.

11. Service de la dette publique

Intérêts de la dette non échue du Canada (y compris les bons du Trésor) et autres passifs comme le fonds de fiduciaire et autres fonds spéciaux. Sont inclus également les frais d'émission de nouveaux emprunts, l'amortissement de l'escompte à l'émission d'obligations, les primes et commissions afférentes aux obligations et les frais afférents à la dette publique.

12. Autres subventions et paiements

Paiements à des sociétés d'Etat et autres sociétés gouvernementales ou organismes, et versements à certains comptes non budgétaires, ainsi que l'amortissement de plusieurs types de pertes, le rajustement annuel des réserves pour les créances et certains autres postes « Divers ». Les paiements faits aux sociétés d'Etat comprennent les versements destinés à combler les déficits de fonctionnement et incluent également les autres paiements de transfert faits aux sociétés d'Etat; les paiements à d'autres sociétés ou organismes administrés par l'Etat comprennent les versements à des organismes tels que le Centre national des Arts. Les paiements faits aux comptes non budgétaires comprennent les contributions de l'Etat à l'assurance-chômage, au compte de stabilisation concernant le grain de l'Ouest et au compte de stabilisation des prix des produits agricoles ainsi que les prestations relatives à la Loi sur les terres destinées aux anciens combattants. Sous le titre « Divers » figurent certaines dépenses comme les licences, les permis et droits de bassin, de tonnage, de quaiage et d'amarrage, le cautionnement d'employés de l'Etat, la perte d'effets personnels, et les dépenses relatives à des petits articles et des services divers. Sont compris également des fonds pour plusieurs articles de dépense et services qui ne peuvent être mentionnés sous les diverses rubriques du présent sommaire.

13. Recettes à valoir sur le crédit

Les recettes à valoir sur le crédit, conformément à l'autorisation du Parlement, sont inscrites sous le présent article courant. Les principaux postes comprennent les loyers provenant de la location d'immeubles et de matériel appartenant à l'Etat; les recettes provenant de la prestation de services de police à d'autres paliers de gouvernement; les recettes provenant de fonds renouvelables; ainsi que le recouvrement des fonds provenant des gouvernements provinciaux, de gouvernements étrangers et d'autres ministères et organismes.

9. *Construction et/ou acquisition de machines et de matériel*

Dépenses relatives à toutes les machines, tout le matériel, les fournitures et le mobilier de bureau, le matériel informatique et électronique ou tout autre accessoire de bureau; le matériel et les accessoires à microfilm, le matériel de communication entre bureaux, les affranchissements à compteur, les cylindres pour machines enregistrees et tout autre accessoire de bureau; les véhicules automobiles, les avions, les tracteurs, le matériel de voirie, le matériel de télécommunication et autre appareillage du même genre; le matériel scientifique et de laboratoire, les navires, les brise-glaces et le matériel auxiliaire de la navigation, ainsi que tout autre genre de matériel lourd et léger, munitions et divers genres de matériel pour la Défense nationale, tels que navires, avions, matériel mécanique, véhicules de combat, armes, moteurs et pièces de rechange habituellement achetées avec ce matériel au moment de l'achat.

Machines et matériel, y compris leurs accessoires et dispositifs coûtant plus de \$500. Les machines et le matériel coûtant moins de \$500 figurent à l'article courant n° —

10. *Paiements de transfert*

Tous les paiements de transfert, c'est-à-dire les subventions et les contributions, les subsides et tous les paiements faits par l'Etat qui ne sont pas destinés à la location ou l'achat de biens ou de services.

Tous les paiements importants relatifs au bien-être versés à des individus, comme les pensions de vieillesse et les allocations de ce genre, les allocations familiales, les allocations et les pensions des anciens combattants; les subventions et les paiements aux provinces et aux territoires en vertu des lois constitutionnelles, de la Loi de 1977 sur les accords fiscaux entre le gouvernement fédéral et les provinces, et sur les contributions fédérales en matière d'enseignement post-secondaire et de santé, et d'autres lois, paiements relatifs à l'assurance-maladie, l'assurance hospitalisation, et les langues officielles et le Régime d'assistance publique du Canada; les subventions et les capitaux consentis à l'industrie y compris les paiements d'indemnisation des importateurs de pétrole; les subventions aux fins de recherches et autres mesures d'aide relatives aux recherches effectuées par des organismes ou gouvernements; les bourses d'études; les subventions de soutien consenties à de nombreux organismes sans but lucratif; versement de subventions aux municipalités en remplacement d'impôts;

En fait également partie l'achat des fournitures et approvisionnement requis pour assurer le

fonctionnement et le maintien réguliers des services de l'Etat. Sont inclus: essence et huile achetées en grandes quantités, combustible ou carburant pour navires, avions, transport, chauffage, etc.; provenances; aliments et autres fournitures pour navires et établissements; besoins achetés pour consommation ou revente; graines de semence; aliments, vêtements et autres fournitures pour Indiens malades et indigènes; manuels et publications pour écoles indiennes; livres et autres fournitures achetées pour diffusion à l'extérieur; uniformes et fourniture; photographies, cartes terrestres et marines achetées à des fins d'administration et de fonctionnement; fournitures scientifiques et de laboratoire, y compris échantillons pour essais; fournitures pour dessin, tirage de plans et travaux d'art; fournitures pour levés topographiques, études, etc.; produits chimiques, approvisionnement hospitaliers, chirurgicaux et médicaux; des œuvres d'art pour expositions et documents historiques pour galeries, musées et archives; fournitures du service de nettoyage; bois et charbon; fournitures électriques; pièces de réparation autres que les pièces accompagnant normalement le matériel au moment de l'achat d'aéronefs, de navires, de véhicules routiers, de matériel de communication et autre équipement, et autres fournitures et approvisionnements.

Machines et matériel, y compris leurs accessoires et dispositifs, coûtant moins de \$500. Les machines et le matériel coûtant plus de \$500 figurent à l'article courant n° 9

8. *Construction et/ou acquisition de levains, bâtiments et ouvrages*

Cet article comprend toutes les dépenses relatives aux contrats de construction de nouveaux bâtiments, chemins, d'irrigation, canaux, aéroports, quais, ponts et tout autre bien immobilier de ce genre, les dépenses affectées à la construction des biens de cette nature et aux améliorations comportant des rajouts ou des modifications de structure, ainsi que le coût d'installation du matériel fixe qui fait partie intégrante de l'ouvrage ou de la structure, comme les ascenseurs, les appareils de chauffage et d'aération, etc. Y figurent aussi tous les travaux réalisés en vertu d'un contrat ou d'un accord. L'achat de terrains en fait également partie. La rémunération de gens employés occasionnellement à des travaux particuliers, le salaire des employés permanents qui y travaillent à temps plein ou à temps partiel et les matériaux achetés spécialement pour servir à ces travaux figurent, toutefois, aux articles courants n° 1 ou n° 7, respectivement.

Service de réclame

Comprend tous les services de réclame pour publicité et autres fins attachées aux agences de publicité ou directement pour temps d'antenne ou dans les médias imprimés ou sur les placards extérieurs ou sur les panneaux-réclame. Cela comprend les services de réclame et de création tels que les arts graphiques.

Services d'édition, d'imprimerie et d'exposition

Comprend les services d'édition pour la passation de commandes, la mise en marche, la distribution et la vente de publications commanditées par le ministère, et pour l'achat de publications connexes de duplication, sont compris les services d'impression, de duplication, de photocopie, de préparation des textes, de graphisme, de mise en pages et les services techniques et consultatifs tels que le traitement informatique des textes et la transmission en masse des imprimés. De plus, y sont compris les services d'exposition tels que les services d'exposition et les services audio-visuels correspondants se rapportant à des expositions et étalages.

4. Services professionnels et spéciaux

Services professionnels offerts par des particuliers ou des organismes comprenant des versements sous forme d'honoraires, des commissions, etc., pour services de comparables, d'avocats, d'architectes, d'ingénieurs, d'analystes scientifiques, de sténographes judiciaires, de traducteurs, versements aux enseignants œuvrant à différents niveaux dans les établissements d'enseignement et autre personnel médical; paiements pour infirmières et autre personnel médical; paiements pour services d'infirmités et autre personnel médical; paiements pour services d'informationnelle et pour services de gestion, pour services d'informationnelle et pour autre aide technique, professionnelle et spécialisée de l'extérieur.

Paiements de traitements hospitaliers, de soins aux anciens combattants et de services d'assistance sociale; paiements de services d'informationnelle, paiement des frais de scolarité à des Indiens inscrits à des institutions d'enseignement qui ne sont pas de juridiction fédérale; achat de services de formation en vertu de la Loi sur la formation professionnelle des adultes, et paiements à la Commission de la Fonction publique pour des cours de formation.

Paiements pour services du Corps des fonctionnaires et autres services contractuels de fonctionnement et d'entretien tels que le service d'autos blindées, les services de buanderie et de nettoyage à sec, les services de nettoyage dans les immeubles, les services d'aide temporaire, les services d'accueil, de stockage et d'entreposage, et autres services commerciaux, ainsi que les paiements faits au MAS pour l'administration de marchés.

5. Location

Credits pour les locations de toutes sortes: location, par le ministère des Travaux publics, de propriétés requises à certaines fins par divers ministères et de locaux et location et affrètement – avec ou sans équipage – de navires, aéronefs, véhicules motorisés et autre matériel. La location de bureaux, y compris les ordinateurs. La location de services d'entreposage figure cependant à l'article courant n° 4, bien qu'elle comporte la location de locaux proprement dits.

Services des relations avec le public et des affaires publiques

Services de sondages sur les comportements, de promotion des ventes, de commercialisation, de mise en valeur des exportations, de relations publiques et de publicité. Services de rédaction des discours, services des communautés de presse, des séances d'information, des conférences de presse et des événements spéciaux. Services des affaires publiques comprenant les sondages sur les comportements, les sondages d'opinions, les enquêtes sur l'évaluation des services, les marchés concernant l'organisation et l'exploitation des services de contrôle des médias et des groupes cibles.

6. Achat de services de réparation et d'entretien

Cet article courant comprend les travaux mentionnés à l'article et d'entretien de biens durables mentionnés à l'article courant n° 8 ci-dessous, exécutés à forfait, ainsi que du matériel visé par l'article courant n° 9. Cet article comprend également les paiements faits au ministère des Travaux publics pour les services offerts aux locaux. Le coût des matériaux et des fournitures et les autres frais entrant dans le coût des travaux exécutés directement par un ministère sont inscrits sous d'autres rubriques, selon la nature de l'achat.

7. Services publics, fournitures et approvisionnements Dépenses relatives aux services d'un genre normalement assuré par une municipalité ou un service public, comme l'eau, l'électricité, le gaz, etc. Y figurent donc les taxes d'eau, les frais d'éclairage, d'énergie et de gaz, les frais de scolarité, et le paiement de ces services, qu'ils soient obtenus de la municipalité ou d'ailleurs.

Les dépenses budgétaires peuvent être réparties entre les douze articles courants de dépense

suivants:

1. Personnel
2. Transports et communications
3. Information
4. Services professionnels et spéciaux
5. Location
6. Achat de services de réparation et d'entretien
7. Services publics, fournitures et approvisionnement
8. Construction et/ou acquisition de terrains, bâtiments et ouvrages
9. Construction et/ou acquisition de machines et de matériel
10. Paiements de transfert
11. Service de la dette publique
12. Autres subventions et paiements

Il existe aussi un article de recettes, le n° 13, servant à comptabiliser les recettes qui peuvent être portées à un crédit. Dans certaines situations données, le Parlement autorise les ministères ou organismes à dépenser les recettes tirées de leurs opérations de la même manière que les fonds affectés au moyen du crédit. Une brève explication de chaque article courant est donnée dans ce qui suit.

1. Personnel

Traitements et salaires, rétribution des heures supplémentaires, indemnité de cessation d'emploi, salaire rétroactif et autres rémunérations spéciales de tout le personnel civil permanent (à temps plein) ou engagé pour une période déterminée (à temps partiel, saisonnier ou occasionnel), à l'exclusion des employés des sociétés d'État mandataires et propriétaires, ainsi que les membres des forces militaires et de la GRC. Traitements des juges, du gouverneur général et des lieutenants-gouverneurs, ainsi que les indemnités des membres des deux chambres du Parlement, et tout genre d'indemnité versée au personnel permanent ou engagé pour une période déterminée ou à leur intention; indemnités de subsistance, suppléments provisoires, indemnités de service à l'étranger, indemnités d'isolement, indemnités de pension et de subsistance, primes de postes, et autres allocations du genre. Y figurent aussi les allocations pour automobile aux ministres et les indemnités de dépenses aux sénateurs et aux députés.

3. Information

Cet article comprend trois catégories principales de dépenses:

Tous les frais des services de télécommunication par l'entreprise privée.
Frais de transport de marchandises, autres que le coût initial de livraison, à l'égard d'un achat (compris dans l'article courant applicable au coût de l'achat même), y compris les frais de services de courrier offerts par l'entreprise privée.
Frais de transport de casques postaux et tous autres frais postaux.
recommandé, colis postal, courrier express, ainsi que location de casques postaux et tous autres frais postaux.
Affranchissement ordinaire, courrier aérien, pensions.

combattants demandant des traitements ou des pensions.
l'État, comme les frais de transport d'anciens combattants demandant des traitements ou des pensions.
transport de personnes qui ne sont pas des employés de l'État, comme les frais de transport d'anciens combattants demandant des traitements ou des pensions.
Sont aussi compris les frais de déplacement et de transport de personnes qui ne sont pas des employés de l'État, comme les frais de transport d'anciens combattants demandant des traitements ou des pensions.
compris les frais de voyage de personnes qui s'occupent d'arpentages, d'inspections et d'études sur le terrain.
Frais de voyage et de transport d'employés du gouvernement, de membres des Forces armées et de la Gendarmerie royale du Canada; frais de réinstallation de ces personnes et des personnes à leur charge, ainsi que frais de subsistance et autres frais payés par ces personnes en voyage commandé; dépenses de voyage des juges; dépenses et indemnités de voyage payables aux sénateurs et aux députés. Y figurent aussi le transport de personnes par contrat, notamment au moyen de véhicules privés.

2. Transports et communications

supplémentaires pour diverses fins.
Contributions de l'État à divers régimes d'avantages sociaux des employés (comme de pension de retraite de la Fonction publique, compte de prestations de retraite Canada, Régime de rentes du Québec, comptes de prestations de décès de la Fonction publique et compte d'assurance-chômage), au compte de pension de retraite de la Gendarmerie royale du Canada, au compte de pension de retraite des Forces canadiennes et au compte d'allocations de retraite des membres du Parlement; et les contributions de l'État aux régimes provinciaux et autres régimes d'assurance médicale et d'assurance-hospitalisation y figurent aussi les frais de personnel supplémentaires pour diverses fins.

Conseil du Trésor—En vertu de la convention collective cadre signée par le Conseil du Trésor et la plupart des syndicats représentant les employés dont le Conseil du Trésor est l'employeur, un nouveau régime de soins dentaires dans la fonction publique a été institué en 1987. Cette convention prévoit notamment que la part de l'employé au titre de la cotisation réduite à l'article 64(4) de la Loi de 1971 sur l'assurance-chômage sera versée directement à l'assureur chargé d'administrer le régime. On a donc légèrement modifié le libellé du crédit du Programme de contributions de l'employeur aux régimes d'assurance pour que ces sommes puissent être versées directement à l'assureur.

Anciens combattants—Le Conseil d'appel des anciens combattants représente un nouveau programme du ministère des Affaires des anciens combattants. Le mandat du conseil regroupe notamment les activités découlant de l'ancien programme de la Commission d'allocations aux anciens combattants et du Programme du Conseil de révision des pensions. Le Budget des dépenses principal de 1988-1989 renferme donc un nouveau crédit pour le Conseil d'appel des anciens combattants et ceux visant les deux anciens organismes ne sont plus requis.

Travaux publics—Le Budget des dépenses principal de 1987-1988 au titre du Programme des services de Travaux publics comprenait un crédit prévoyant le remboursement du fonds renouvelable en ce qui touche les dépenses indirectes que le Ministère ne pouvait percevoir auprès des ministères et organismes clients et un crédit pour dépenses en capital. Vu l'autonomie financière intégrale du Programme des services, ces crédits ne sont plus requis.

Travaux publics—Le Budget des dépenses principal de 1987-1988 au titre du Programme de soutien de gestion immobilière fédérale comprenait un crédit budgétaire prévoyant des paiements à la Société immobilière du Canada (Vieux-Port de Québec) Inc. Cette autorisation n'est plus requise dans le cadre du Budget des dépenses principal de 1988-1989.

Travaux publics—Le Budget des dépenses principal de 1988-1989 au titre du Programme de soutien de gestion immobilière fédérale comprend un crédit budgétaire prévoyant des paiements à la Société immobilière du Canada (Le Vieux-Port de Montréal) Limitée. Cette autorisation figurait au Budget des dépenses principal de 1987-1988.

Travaux publics—Le Budget des dépenses principal de 1987-1988 contenait un crédit budgétaire destiné à permettre d'effectuer des paiements à la Société de construction de défense (1951) Limitée. Cette autorisation n'est pas requise dans le Budget des dépenses principal de 1988-1989.

Expansion industrielle régionale—Le Budget des dépenses principal de 1987-1988 comprenait un crédit prévoyant des paiements en vertu de la Loi non budgétaire prévoyant des paiements du secteur des pêches de l'Atlantique. Cette autorisation n'est plus requise dans le cadre du Budget des dépenses principal de 1988-1989.

Société de développement du Cap-Breton—Le Budget des dépenses principal de 1987-1988 comprenait un crédit prévoyant des paiements liés aux pertes de fonctionnement et d'entretien de la Société à l'égard de biens acquis en vertu de la Loi sur la Société de développement du Cap-Breton. Cette autorisation n'est pas requise dans le cadre du Budget des dépenses principal de 1988-1989.

Comité externe d'examen de la Gendarmerie royale du Canada—Cet organisme figure pour la première fois comme programme distinct dans le Budget des dépenses principal de 1988-1989. Les ressources affectées à cette activité en 1987-1988 faisaient partie du Programme du Solliciteur général (Ministère).

Transports—Le Budget des dépenses principal de 1987-1988 comprenait un crédit prévoyant des paiements à l'Administration de la Voie maritime du Saint-Laurent pour l'entretènement du programme d'entretien du canal Welland. Le libellé du crédit de 1988-1989 a été modifié en supprimant certains termes qui n'avaient pour seule fonction que de reprendre l'autorisation que le Parlement avait déjà déléguée au Conseil du Trésor en vertu de la Loi sur l'administration financière.

Transports—Le Budget des dépenses principal de 1987-1988 comprenait un crédit au titre d'un prêt à la Société du port de St. John's en vertu de modalités devant être approuvées par le gouvernement en conseil. Lesdites modalités ayant été approuvées, il n'y a pas lieu de faire allusion au gouvernement en conseil dans le Budget des dépenses de 1988-1989.

Commission canadienne des transports/Agence nationale des transports—Conformément à la Loi nationale de 1986 sur les transports, on a mis un terme aux activités de la Commission canadienne des transports et créé un organisme doté d'un mandat plus vaste. L'Agence nationale des transports figure donc pour la première fois au Budget des dépenses principal de 1988-1989.

Société du crédit agricole—Le Budget des dépenses principal de 1987-1988 comprenait un crédit budgétaire au titre des paiements à la Société du crédit agricole. Cette autorisation n'est pas requise dans le Budget des dépenses principal de 1988-1989.

Agence de promotion économique du Canada Atlantique—Cet organisme a été constitué au cours de l'exercice 1987-1988 et figure pour la première fois dans le Budget des dépenses principal. Trois crédits sont affectés à l'Agence: deux d'entre eux visent les dépenses budgétaires et le troisième porte sur l'autorisation de prêts destinés à certaines entreprises du Cap-Breton. *Archives nationales du Canada*—Le Parlement a adopté la Loi sur les archives nationales du Canada au cours de l'exercice 1987-1988. Cet organisme remplace les Archives publiques et figure pour la première fois dans le Budget des dépenses principal. Par conséquent, il n'y a pas lieu de prévoir un crédit pour les Archives publiques dans le cadre du présent Budget principal.

Musée nationaux du Canada—Le libellé du crédit pour dépenses de fonctionnement est modifié afin d'autoriser les paiements de la corporation à être cédés au ministère des Communications en 1987-1988. Le transfert se compose en grande partie de ressources liées aux paiements de transfert, ce qui a réduit les besoins à ce titre à moins de 5 millions de dollars. Par conséquent, il n'y a pas lieu de prévoir un crédit distinct pour les paiements de transfert dans le cadre du présent Budget principal.

Société canadienne des postes—Le Budget des dépenses principal de 1987-1988 comprenait un crédit afin de pouvoir faire des paiements à la Société au titre des biens d'équipement et des autres coûts qui profiteront aux futurs utilisateurs des services postaux. Ce crédit n'est pas requis dans le cadre du présent Budget des dépenses principal.

Commission de contrôle des renseignements relatifs aux matières dangereuses—Cet organisme figure dans le Budget des dépenses principal pour la première fois. *Emploi et Immigration*—Le libellé du crédit relatif au Programme d'immigration du Budget des dépenses principal de 1988-1989 a été modifié pour supprimer l'autorisation de consentir des subventions. *Énergie, Mines et Ressources*—Le Budget des dépenses principal de 1987-1988 autorisait des paiements en vertu de la Loi sur le programme pétrolier, qui a été rebaptisée Loi sur le programme canadien d'encouragement à l'exploration et à la mise en valeur.

Agence canadienne de développement international—Le Budget des dépenses principal de 1987-1988 autorisait l'émission de billets à demande non négociables ne portant pas intérêt à la Banque africaine de développement, à la Banque interaméricaine de développement, à la Banque asiatique de développement et à la Banque de développement des Caraïbes. Dans le Budget des dépenses de 1988-1989, la seule autorisation demandée a trait à la Banque africaine de développement.

Finances—Le Budget des dépenses principal de 1987-1988 permettrait d'effectuer des paiements à la Société financière internationale conformément à la Loi sur les accords de Bretton Woods et des accords connexes. On demande dans le Budget des dépenses principal de 1988-1989 l'autorisation, en vertu de la Loi, d'effectuer des paiements à la Banque internationale pour la reconstruction et le développement et à la Société financière internationale.

Finances—Le Programme de l'inspecteur général des banques a été aboli en 1987-1988 et ne figure pas au Budget des dépenses principal de 1988-1989.

Département des assurances—Ce département a été aboli en 1987-1988.

Surintendant des institutions financières—Cet organisme a été créé en vertu d'une loi en 1987-1988. Son mandat englobe les responsabilités relevant antérieurement du Département des assurances et du Programme de l'Inspecteur général des banques. Il figure dans le Budget des dépenses principal pour la première fois.

Gouverneur général—Le libellé du crédit a été modifié et englobe maintenant le versement de subventions. *Affaires indiennes et Nord canadien*—Le Programme des affaires indiennes et inuit comprend un nouveau crédit non budgétaire en vertu duquel on demande l'autorisation de consentir des prêts au Conseil des indiens du Yukon. Ce crédit figurait pour la dernière fois dans le Budget des dépenses principal de 1986-1987 dans le cadre de l'ancien Programme des revendications des autochtones.

Commission d'énergie du Nord canadien—Le Budget des dépenses principal de 1988-1989 renferme un nouveau crédit non budgétaire en vue de fournir des prêts à la Commission. Le Budget des dépenses principal de 1986-1987 comportait une autorisation semblable. *Bureau de diversification de l'économie de l'ouest*—Cet organisme a été créé au cours de l'exercice 1987-1988 et figure pour la première fois dans le Budget des dépenses principal. Deux crédits sont affectés au Bureau: le premier vise l'autorisation des dépenses de fonctionnement et l'autre porte sur l'autorisation des paiements de transfert.

Santé nationale et Bien-être social—Le libellé du crédit du Programme des XV^e Jeux Olympiques d'hiver a été modifié pour supprimer l'autorisation de verser des contributions.

Partie de la stratégie d'emploi qui relève du

Conseil du Trésor – Ce crédit permet d'affecter des fonds

supplémentaires à d'autres crédits relatifs à la partie du Programme de la stratégie d'emploi qui ne pouvait être incluse dans les crédits appropriés des ministères ou organismes au moment de la préparation du Budget des dépenses. Le Conseil du Trésor ajoute des sommes aux crédits des autres ministères ou organismes dans le cas des divers programmes concernés dont les niveaux sont établis chaque année.

Service canadien du renseignement de sécurité – À

des fins administratives, toutes les dépenses de fonctionnement et les dépenses en capital ont été réunies sous un seul crédit pour dépenses du programme.

Résumé

En résumé, outre les postes législatifs et exception faite des cas susmentionnés, on trouve dans le Budget des dépenses les crédits suivants :

a) Crédit pour dépenses du programme – Un tel crédit

est utilisé lorsqu'il n'est pas nécessaire d'indiquer séparément le crédit pour « dépenses en capital » ou le crédit pour « subventions et contributions », parce que les dépenses proposées sous l'une ou l'autre de ces rubriques n'atteignent ni ne dépassent cinq millions de dollars. En pareil cas, toutes les dépenses du programme sont portées au crédit pour dépenses du

b) Crédit pour dépenses de fonctionnement – Ce crédit

est utilisé pour financer les dépenses de fonctionnement lorsqu'il est nécessaire de disposer en même temps d'un crédit pour dépenses en capital ou d'un crédit pour subventions et contributions, ou les deux. Lorsqu'un crédit pour dépenses de

fonctionnement est utilisé et qu'il n'est pas nécessaire de disposer d'un crédit pour dépenses en capital, c'est-à-dire lorsque les dépenses en capital n'atteignent ni n'excèdent cinq millions de dollars, les dépenses de ce genre sont comprises dans le

crédit pour dépenses de fonctionnement. Lorsqu'un crédit pour dépenses de fonctionnement est utilisé et qu'il n'est pas nécessaire de disposer d'un crédit pour subventions et contributions, soit lorsque les

subventions et contributions n'atteignent ni n'excèdent cinq millions de dollars, ces dernières sont incluses dans le crédit pour dépenses de fonctionnement.

c) Crédit pour dépenses en capital – Ce crédit est

utilisé lorsque les dépenses en capital d'un programme se chiffrent à cinq millions de dollars ou plus. Crédit pour subventions et contributions – Ce crédit est utilisé lorsque les subventions et les contributions d'un programme totalisent cinq millions de dollars ou plus.

1988-1989

Modifications apportées au Budget des dépenses de

Cette section comporte deux parties. Comme par les années précédentes, elle explique les modifications apportées à la présentation des crédits, des programmes et des autres postes, ce qui permet d'établir un rapprochement entre le Budget des dépenses principal de 1987-1988 et le Budget des dépenses de 1988-1989. De plus, elle expose en détail les crédits qui continuent une autorisation particulière qui diffère de celles qu'on retrouve dans le Budget des dépenses principal de l'exercice précédent, et les nouvelles autorisations de dépenses qui sont présentées pour la première fois. À la suite des récentes décisions du Président de la Chambre, le gouvernement a pris l'engagement que les seules dispositions législatives qui seront modifiées par le processus des révisions de dépenses, autres que les cas d'excès de dépenses autorisées en vertu d'une loi, seront les de crédits antérieures. Les changements apportés à la présentation ou aux autorisations existantes et les nouvelles autorisations sont indiqués ci-dessous :

e) Crédit non budgétaire – Sous ce crédit précédé par la

lettre L sont inscrits les postes non budgétaires tels les prêts, les avances et les dotations en capital relatifs aux sociétés d'État, les prêts ou les avances consentis à des fins précises à d'autres gouvernements et à des organismes internationaux ou à des personnes ou des sociétés du secteur privé.

L'expression « subvention inscrites au Budget et contributions/autres paiements de transfert » est ajoutée au libellé courant des crédits lorsque le crédit comprend des subventions, des contributions et/ou d'autres paiements de transfert. S'il n'y a que des contributions/autres paiements de transfert, les mots « subventions inscrites au Budget » sont supprimés, et s'il n'y a que des subventions, les mots « et contributions/autres paiements de transfert » sont omis.

Lorsque des contributions/autres paiements de transfert sont requis à l'égard d'un programme au cours de l'exercice et que le libellé du crédit dans le Budget ne mentionne pas ce genre de dépenses, ces dernières peuvent être portées au crédit pour dépenses du programme ou au crédit pour dépenses de fonctionnement, selon le genre de crédit utilisé pour le programme, pourvu que la contribution ne s'éloigne pas de l'objet du crédit.

1988-1989

Programme des céréales et oléagineux s'établissant à 292,3 millions de dollars, ce qui requiert l'ajout d'un crédit de paiements de transfert à cette fin du Budget des dépenses.

Agriculture – Les prévisions de paiements relatifs au programme spécial des céréales dans le cadre du Programme des céréales et oléagineux s'établissent à 292,3 millions de dollars, ce qui requiert l'ajout d'un crédit de paiements de transfert à cette fin du Budget des dépenses.

Ce tableau indique les ressources en années-personnes si elles sont contrôlées.

Structure des crédits

En général, la structure du programme et celle des crédits correspondent, en ce sens qu'ordinairement il n'y a qu'un crédit par programme. Le libellé d'un crédit et son montant figurent dans une loi de crédits qui précise l'autorisation et la limite des paiements imputables sur le crédit; il ne s'agit pas d'un engagement à dépenser le montant total. Il y a toutefois des exceptions à la structure normale des crédits comme l'indiquent les paragraphes qui suivent.

Dépenses en capital, subventions et contributions
L'exception la plus fréquente qui est faite à cette règle se présente lorsque les dépenses en capital ou les subventions, les contributions et les autres dépenses pour paiements de transfert d'un programme sont très élevées. Ainsi, quand les dépenses en capital à l'égard d'un programme sont égales ou supérieures à cinq millions de dollars, on ajoute au crédit pour dépenses de fonctionnement un « crédit pour dépenses en capital », et quand le total des paiements de transfert égale ou excède cinq millions de dollars, on ajoute à ce même crédit un « crédit pour paiements de transfert ». Les dépenses en capital visées sont celles regroupées sous les articles courants 8 et 9, qui portent sur la construction et l'acquisition de terrains, de bâtiments, d'ouvrages, de machines et de matériel. Lorsque le ministère compte se servir de ses propres ressources humaines et matérielles ou recourir les services d'experts pour créer des immobilisations, les prévisions de dépenses inscrites sous ces rubriques doivent aussi figurer dans le crédit pour dépenses en capital là où ce crédit est nécessaire. L'inscription au Budget d'un poste pour une subvention, une contribution ou un autre paiement de transfert n'entraîne aucune obligation de payer une partie ou la totalité du montant et n'accorde à un bénéficiaire éventuel aucun droit aux fonds.

Credits spéciaux

Deficits des sociétés d'Etat et personnes juridiques

Le concept d'un crédit par programme ne s'applique pas dans les situations où un crédit distinct est établi pour inscrire les sommes nécessaires pour effectuer un versement à une société d'Etat ou combler les dépenses d'une personne juridique qui s'inscrivent dans un programme plus important. Par personne juridique, on entend ici une entité de l'administration qui fonctionne en vertu d'une loi du Parlement et qui relève directement d'un ministre.

Il se produit parfois des circonstances exceptionnelles qui nécessitent l'établissement de structures de crédits différentes. C'est le cas notamment avec le Programme des services médicaux de Santé nationale et Bien-être social, les deux crédits financiers centralisés par le Conseil du Trésor (soit le crédit pour éventualités du Conseil du Trésor et la partie de la stratégie d'emploi qui relève du Conseil du Trésor), ainsi qu'avec le Service canadien du renseignement de sécurité.

Programme des services médicaux — Les paiements d'aide médicale versés aux bandes indiennes et aux associations ou groupes indiens et inuits en vertu du Programme des services médicaux du ministère de la Santé nationale et du Bien-être social sont tous des contributions qui, parce qu'elles dépassent cinq millions de dollars au total, devraient normalement être incluses dans un crédit distinct pour subventions et contributions. On fait exception dans ce cas en portant les contributions faites en vertu de ce programme au crédit pour dépenses de fonctionnement afin de donner une certaine latitude au ministère qui lui permet de fournir pendant toute l'année l'aide nécessaire de la façon la plus efficace possible, soit au moyen de contributions ou de mesures habituellement financées à même des crédits pour dépenses de fonctionnement.

Credit pour éventualités du Conseil du Trésor — Ce crédit fournit des fonds en vue de pourvoir à diverses dépenses qui ne pouvaient être prévues lors de l'établissement du Budget des dépenses et afin d'assumer les coûts de rémunération additionnels, y compris ceux entraînés par la signature de conventions collectives entrant en vigueur au cours de l'année budgétaire et qui dépassent la provision établie pour cette dépense dans les crédits pour ministères et organismes. Les affectations punitives dans le crédit pour éventualités au cours de l'exercice financier sont ensuite récupérées dans le Budget des dépenses supplémentaires, à l'exception des affectations aux fins de la rémunération qui ne traduisent pas des changements dans la composition ou le niveau de l'activité du programme auquel elles sont faites; celles-ci servent habituellement à compenser l'augmentation des taux de rémunération qui survient par suite de la signature de conventions collectives. Si l'on adoptait la même façon de procéder qu'en ce qui concerne les affectations qui n'ont pas trait à la rémunération, il serait nécessaire d'inclure dans le Budget des dépenses supplémentaires des postes de libellé identique dans le cas du Budget des dépenses supplémentaires serait par conséquent plus volumineux sans que son caractère informatif en soit accru proportionnellement. C'est pour cette raison que les affectations aux fins de la feuille de paye ne sont pas récupérées.

Il existe deux mesures connexes mais distinctes de l'activité financière d'un fonds renouvelable. La première évalue le bénéfice ou le déficit d'une façon semblable à celle utilisée par toute entreprise commerciale. La deuxième concerne le niveau de trésorerie nécessaire pour satisfaire les besoins d'immobilisations et de fonctionnement du fonds. Cette méthode s'accompagne de l'utilisation des autorisations conférées par le Parlement. Afin de concilier ces deux éléments, il est nécessaire de rajuster le bénéfice ou le déficit calculé pour tenir compte de postes, comme la dépréciation, qui ne nécessitent pas de sortie de fonds. Il est également nécessaire d'inclure les transactions qui nécessitent des mouvements de trésorerie mais qui ne font pas partie du calcul du bénéfice ou du déficit. Les opérations qui entrent normalement dans cette catégorie sont notamment le financement des actifs nets (fonds de roulement), les nouvelles acquisitions d'immobilisations et, dans certains cas, le déficit de fonctionnement accumulé. En raison du rapport entre le fonds et l'autorisation conférée par le Parlement, c'est la manière dont la trésorerie est utilisée qui présente le plus d'intérêt dans la présentation du Budget des dépenses. Un fonds renouvelable peut servir à financer des programmes, des activités de programmes ou des parties de ces activités. Lorsqu'un programme est entièrement financé au moyen d'un fonds renouvelable, le tableau fondamental du programme par activité est complet et par un autre tableau qui indique le bénéfice ou le déficit de fonctionnement pour chacune des activités du programme. Sous ce tableau, une note rapproche le bénéfice ou le déficit total des dépenses de trésorerie indiquées dans le Budget des dépenses et renvoie à la Partie III le lecteur qui désire plus de renseignements. Lorsqu'une activité est entièrement financée à l'aide d'un fonds renouvelable, cette activité sera indiquée au moyen de la comparabilité de caisses dans le tableau du programme par activité. Une note au bas du tableau montrera le bénéfice ou le déficit de fonctionnement prévu en rapprochant ce solde des besoins de trésorerie montrera le bénéfice ou le déficit de fonctionnement d'un fonds renouvelable, une note au bas du tableau indiquera une partie d'une activité est financée à l'aide d'un fonds renouvelable, une note au bas du tableau montrera le bénéfice ou le déficit de fonctionnement prévu en rapprochant ce solde des besoins de trésorerie ou en renvoyant à la Partie III le lecteur pour plus de renseignements.

Sociétés d'Etat

Le principe général appliqué dans la Partie II du Budget des dépenses est de donner les renseignements sur les opérations financées par voie de crédits plutôt que sur l'ensemble du plan financier des sociétés. Les sommaires des plans d'entreprise et des budgets des sociétés, qui sont déposés séparément, visent à fournir aux parlementaires des renseignements plus complets en prévision de l'examen des dépenses des sociétés d'Etat qu'ils feront. Les sociétés d'Etat pour lesquelles des crédits sont demandés peuvent être présentées selon l'une des deux façons suivantes:

- (i) dans certains cas, le financement d'une société d'Etat fait partie d'un programme d'un ministère; (ii) dans d'autres cas, la société d'Etat est traitée séparément comme si elle faisait partie d'un ministère ou d'un portefeuille.

Dans tous les cas, une présentation distincte est établie pour les sociétés d'Etat (bien que dans le cas (i), elle ne concerne que les renseignements et s'intitule « renseignements additionnels »). La présentation de chaque société d'Etat comprend les trois sections normalisées suivantes:

- a) Objectifs
- b) Description du financement par voie de crédits
- c) Sommaire du financement par voie de crédits

Objectifs

Cette section décrit les objectifs de la société d'Etat. Cette section décrit les principales activités commerciales auxquelles le financement est destiné. Elle décrit aussi, comme dans le sommaire du financement par voie de crédits, les principales catégories de dépenses.

Sommaire du financement par voie de crédits

Ce tableau donne des détails sur les besoins financiers qui doivent être satisfaits au moyen de crédits. Les présentations peuvent varier selon les circonstances propres à chacune des sociétés et les renseignements qu'elles fournissent dans le sommaire de leur plan d'entreprise et de leur budget et dans leur état financier annuel. La présentation

- (i) établit une distinction entre le financement budgétaire et non budgétaire selon les principales activités commerciales de la société;
- (ii) précise le montant du financement budgétaire nécessaire à l'exploitation, à l'achat des immobilisations et de l'actif à long terme;
- (iii) si des fonds budgétaires sont demandés pour l'exploitation, la présentation indique les dépenses prévues, les recettes hors-caisse ou les ajustements sur lesquels la demande est fondée.

Objectifs
Cette section fait l'exposé des objectifs de chaque programme.

Descriptions des activités
Cette section donne une explication du programme en décrivant le travail qui se fait dans chaque activité pour atteindre les objectifs du programme.

Tableau du programme par activité
Ce tableau a pour objet d'indiquer à la fois les ressources financières et le nombre d'années-personnes totales demandées au titre de ce programme. Les montants des crédits votés et des autorisations législatives sont combinés et répartis entre les activités de chaque programme. Les activités sont présentées à la verticale, et les dépenses de chaque activité sous les rubriques fonctionnellement, capital, paiements de transfert (subventions et contributions) et prêts, dotations en capital et avances sont présentées à l'horizontale. Les recettes à valoir sur le crédit, pour les ministères et les organismes autorisés à le faire ainsi que les recettes associées au fonds renouvelable sont également incluses dans ce tableau.

Les rentées portées en recettes générales non fiscales et les services fournis gracieusement par d'autres ministères fédéraux sont inclus dans la Partie III.

Paiements de transfert
Cette section porte sur les paiements de transfert qui ressortissent au programme. Un paiement de transfert est une subvention, une contribution ou autre paiement de transfert en contrepartie duquel aucun bien ni service n'est reçu et qui est accordé en vue de favoriser la réalisation des objectifs d'un programme. Les subventions, contributions ou autres paiements de transfert diffèrent sur cinq points. Premièrement, les contributions sont des paiements de transfert conditionnels, tandis que les subventions sont des paiements de transfert inconditionnels. Deuxièmement, les contributions sont soumises à la vérification, tandis que les subventions ne le sont pas. Troisièmement, les contributions exigent un accord entre le bénéficiaire et le ministre donateur qui détermine les conditions régissant leur versement; ce n'est pas le cas des subventions. Quatrièmement, les autres paiements de transfert sont des paiements effectués en vertu de la loi ou d'un accord qui, habituellement, prévoient une formule ou un calendrier d'exécution des paiements comme un élément utilisé pour établir le montant annuel; toutefois, lorsque le paiement est versé, le bénéficiaire peut redistribuer les fonds entre les différentes catégories de dépenses déterminées dans la loi ou l'accord. Enfin, dans le Budget des dépenses, les termes utilisés pour décrire une subvention ont un caractère législatif, tandis que ceux décrivant une contribution ne sont donnés qu'à titre indicatif. La définition du mot "contribution" dans le libellé du crédit est réputée comprendre d'autres paiements de transfert en raison des similitudes qui s'appliquent à chaque paiement.

Fonds renouvelable
Un fonds renouvelable constitue une autorisation permanente ou continue donnée par le Trésor jusqu'à d'effectuer des paiements au moyen du Trésor jusqu'à concurrence d'une limite stipulée. En vertu de cette autorisation, les besoins de fonds peuvent être compensés, dans la mesure du possible, par les recettes produites.

Toutes les données sur les prévisions fournies dans la Partie II à l'égard de l'exercice précédent sont tirées du Budget des dépenses principal de cet exercice. Cette façon de procéder a été adoptée pour s'assurer que toutes les informations concernant les exercices précédents étaient présentées de façon uniforme tant à l'intérieur de tous les ministères et organismes que dans le Budget des dépenses principal de l'exercice en cours. Dans un certain nombre de cas, des rajustements ont été apportés à des montants du Budget des dépenses principal de 1987-1988 pour tenir compte des changements dans les composantes relatives à l'organisation, du transfert des responsabilités ou de la présentation révisée. Cette technique fournit une base plus juste pour la comparaison.

Résumé du Budget des dépenses principal de 1988-1989

L'introduction contient cinq tableaux sommaires. Le premier tableau présente les postes budgétaires et non budgétaires du Budget des dépenses principal par ministère et organisme et par type d'autorisation parlementaire. Les dépenses budgétaires englobent le coût du service de la dette publique, les dépenses de fonctionnement et les dépenses en capital des ministères et organismes fédéraux, les paiements de transfert faits à d'autres paliers de gouvernement, à des organismes et à des particuliers, les subsides et les paiements aux sociétés d'État. Les prêts, les dotations en capital ou les avances ou les dépenses non budgétaires sont des sorties de fonds qui représentent des variations de la valeur des actifs financiers du gouvernement du Canada. Les autorisations parlementaires établissent une distinction entre les dépenses législatives et les dépenses qui doivent être votées annuellement par le Parlement. Le deuxième tableau indique la répartition des postes budgétaires du Budget des dépenses principal par ministère et organisme et par article courant de dépense. Les 12 articles courants de dépense sont décrits à l'annexe de la présente préface.

Présentation par portefeuille, ministère et organisme

Le troisième tableau ventile les années-personnes autorisées, par ministère et organisme, dans le cas des ministères et organismes dont les besoins en années-personnes sont contrôlés par le Conseil du Trésor. Une année-personne est l'unité de contrôle des ressources humaines et se définit comme l'emploi d'une personne durant une année complète ou l'équivalent (par exemple, l'emploi de trois personnes à raison de quatre mois chacune). Il peut s'agir du personnel engagé selon un horaire normal de travail (au Canada ou à l'étranger), d'employés à temps plein, à temps partiel, saisonniers, occasionnels ou engagés pour une période déterminée, de façon permanente et temporaire, aussi bien que du personnel des ministères, du personnel nommé par le gouvernement en conseil, et d'autres types d'employés. À quelques exceptions près, le Conseil du Trésor contrôle directement le nombre d'années-personnes demandé par les ministères et organismes énumérés à l'annexe I des parties I et II de la Loi sur les relations de travail dans la Fonction publique. Le quatrième tableau est l'annexe proposée au projet de loi de crédits. Il fournit le libellé et le montant inscrit dans le Budget des dépenses principal de tous les crédits dont l'adoption sera proposée au Parlement. Le dernier tableau s'intitule "Postes législatifs du Budget des dépenses principal". Il comprend les prévisions actuelles des dépenses pour chaque autorisation législative d'un programme pour lequel un besoin financier doit être inclus dans le Budget. Ce tableau vise à fournir au Parlement une liste exhaustive de toutes les prévisions des dépenses législatives figurant dans le présent Budget des dépenses.

Les programmes de tous les ministères et organismes dont les ministères sont responsables ou comparables au Parlement ont été regroupés par portefeuille. La présentation en ordre alphabétique des prévisions des portefeuilles forme le Budget des dépenses principal. Les ministères d'État, créés en application de la Loi de 1970 sur l'organisation du gouvernement, représentent une définition plus restreinte du terme « portefeuille », mais sont considérés comme des ministères pour les besoins de la présentation du Budget. Les prévisions de chaque portefeuille débutent par un tableau sommaire indiquant, pour chaque crédit ou poste législatif, le montant prévu dans le Budget des dépenses principal à l'égard de tous les programmes composant ce portefeuille. Ce tableau contient les libellés abrégés des crédits.

En général, la présentation de chaque programme se compose de quatre sections, lesquelles sont expliquées ci-après. Si l'une d'elles est inutile en raison de la nature du programme, elle est omise.

Introduction

Destinée au Parlement, le présent Budget des dépenses expose les dépenses budgétaires et non budgétaires (prêts, dotations en capital et avances) du gouvernement proposées pour l'exercice financier 1988-1989. Il renferme des postes, appelés crédits, que le Parlement pourra approuver en adoptant des lois de crédits et d'autres postes législatifs. Pour ces derniers, les dépenses font déjà l'objet d'une approbation dans une loi existante, et ils ne figurent ici qu'à titre d'information. Quant aux postes votés, le libellé et le montant sont formulés en termes officiels dans le crédit, tels qu'ils figureront dans la loi de crédits qui en autorisera la dépense.

La nouvelle présentation du Budget des dépenses principal (appelée également Partie II du Budget des dépenses) est le résultat d'une révision en profondeur de la forme du Budget qui a débuté en 1980. Cette révision avait été entreprise pour faire suite aux suggestions visant à simplifier davantage l'information présentée dans le Budget et à fournir plus de précisions sur les résultats réels des programmes fédéraux. Parmi les principaux investigateurs de ces changements figurent le vérificateur général, le Comité des comptes publics et la Commission royale sur la gestion financière et l'élaboration d'un plan de dépenses pluriannuel global, établi dans le contexte d'un plan financier d'ensemble et mettant en évidence les priorités futures en matière de dépenses, à la présentation d'informations détaillées sur tous les programmes des ministères et organismes, y compris, lorsque cela est possible, des évaluations des résultats mesurables obtenus en contrepartie des sommes

Pour répondre à ces besoins, le gouvernement a effectué une révision du Budget des dépenses qui a donné lieu à l'élaboration d'une présentation en trois parties. Des discussions intensives se sont en effet déroulées avec des députés et le Comité des comptes publics. À l'issue de ces entretiens, ce dernier a déposé devant la Chambre des communes un rapport qui approuvait résolument la présentation en trois parties et recommandait que celle-ci soit mise en œuvre le plus rapidement possible. Ce rapport et les recommandations qu'il contenait ont été unanimement endossés.

Le Budget des dépenses se divise en trois parties, chaque partie fournissant davantage d'information sur les plans de dépenses du gouvernement que la précédente. La Partie I, déposée devant le Parlement pour la première fois en 1981-1982, est intitulée le Plan de dépenses du gouvernement. Elle fournit une vue d'ensemble des dépenses fédérales, décrit le plan de dépenses du gouvernement et situe le Budget des dépenses principal à l'intérieur de ce plan. Elle constitue la structure de référence à laquelle seront comparés les résultats atteints par le gouvernement pour s'assurer du respect du plan de dépenses.

La Partie II, le Budget des dépenses principal, est le document qui appuie directement la loi de crédits. Il a été déposé pour la première fois dans sa forme actuelle en 1985-1986. Une description de son contenu est donnée plus loin dans la présente préface.

Outre les parties I et II, la Partie III, appelée le plan de dépenses du ministère, est déposée chaque année devant le Parlement par le président du Conseil du Trésor au nom des ministres responsables de chaque ministère et organisme. La structure modulaire de chaque plan de dépenses permet d'obtenir un nombre croissant d'informations sur les programmes. Cette partie fournit des renseignements sur les objectifs et les résultats de chaque programme, y compris les liens qui existent entre les besoins de ressources, les résultats (tant prévus qu'obtenus) et les objectifs. On y présente une analyse par article de dépenses, la répartition des années-personnes à l'intérieur des catégories professionnelles, une liste de principaux grands projets d'immobilisations et une estimation du coût net des programmes.

Les éléments structurels de base du Budget des dépenses principal sont les crédits et les postes législatifs. Les uns et les autres englobent l'ensemble des dépenses que le ministère ou l'organisme intéressé se propose de faire au titre d'un programme, (programme désignant un groupe d'activités ayant un objectif ou un ensemble d'objectifs communs). Les paragraphes qui suivent décrivent la méthode utilisée pour présenter le Budget des dépenses principal.

Budget des dépenses 1988-1989

Partie II

Budget des dépenses principal

Les documents budgétaires

Le Budget des dépenses du gouvernement du Canada est divisé en trois parties. Commencant par un aperçu des dépenses totales du gouvernement dans la Partie I, les documents deviennent de plus en plus détaillés. Dans la Partie II, les dépenses sont décrites selon les ministères, les organismes et les programmes. Cette partie renferme aussi le libellé proposé des conditions qui s'appliquent aux pouvoirs de dépenser qu'on demande au Parlement d'accorder. Dans les documents de la Partie III, on fournit des détails supplémentaires sur chacun des ministères ainsi que sur leurs programmes surtout axés sur les résultats attendus en contrepartie de l'argent dépensé.

Les instructions sur la façon de se procurer ces documents se trouvent sur le bon de commande qui accompagne la Partie II.
